Only mammals grow hairs.

Six cases of beer, an electric heater and two dozen sandwiches were stolen from the Starlite Palace, late Wednesday night of last week according to a report given to the Warren County Sheriff's Department by George Twitty, manager.

Deputy Danny Bartholomew said that entry was made through the back door of the club, located on State Highway 1001, one mile west of Warrenton. The door was ripped from its hinges, he said.

Twitty told Bartholomew that he went to check on the building around 12:30 a. m. when he found that the business had been burglarized. Due to bad weather conditions he was unable to fix the door or board up the original place of entry until the next morning.

He returned the next morning to find that the thieves had made a second entry.

The break-in is the ninth in three years, according to Twitty.
