Installation Service Planned At Ridgeway

Installation services for the Rev. Henry B. Pickett, Jr., will be held at the Ridgeway Baptist Church on Sunday, March 20, at 3 p.m.

The installation sermon will be delivered by his pastor, the Rev. Joseph P. Demsey, pastor of the Oberlin Baptist Church of Raleigh. Dr. Roland W. Perry, pastor of Shiloh Baptist Church of Henderson, will preside during the service. The charge to the pastor will be given by the Rev. J.B. Wilson.

The Rev. Mr. Pickett is a native of Morehead City. He received his Bachelor of Science Degree in Elementary Education from Elizabeth City State University in 1961. In 1973 he received his Masters Degree in Guidance Counseling from North Carolina Central University. At the present time he is a candidate for the Master of Divinity Degree at Shaw Divinity School in Raleigh.

In addition to pastor of Ridgeway Baptist Church, Mr. Pickett is pastor of the First Baptist Church in New Hill. He is a former trustee and Deacon at Oberlin Baptist Church.

At the present time Mr. Pickett is a guidance counselor in Wake County schools. Prior to this position he was counselor for foreign students at Saint Augustine College in 1972-73 and classroom teacher

REV. HENRY B. PICKETT

in Raleigh City School System from 1963 to 1972.

In 1968 he was elected "Man of the Year" at Oberlin Baptist Church; in 1972 he was chosen in "Personalities of the South;" in 1973 he was among "Outstanding Young Men of America;" 1974 he was elected to Phi Delta Kappa Fraternity, and in 1975-76 he was named to "Who's Who Among Black Americans."

The Rev. Mr. Pickett is married to the former Mary Louise Hoffer of Elizabeth City and they have two children.

Juniors Pushing 'Cents Off' Week In Warren County

With the skyrocketing figures on the Consumer Price Index, the members of the Warrenton Junior Woman's Club have been searching for a way to curtail the cost of living on a level whereby we, the average homemaker, can relate.

Recognizing the grocery store to be the most common marketplace among homemakers, the Juniors are sponsoring "Cents Off" Week to provide some relief from the rising cost of food and grocery items.

"Cents Off" Week is intended to encourage the consumer to take advantage of the savings offered them by food distributors through the cents off coupons found in the vast majority of magazines and newspapers.

The week of March 27 through April 2 has been designated as "Cents Off" Week. Citizens of Warren County are urged to clip coupons on items normally purchased and present them to the grocer check-out during this time.

The savings received during the week can total a sizeable sum if the consumer will continue to use the cents off coupons even after the designated week has ended.

The United States produces more candy than any other country in the world, World Book Encyclopedia reports. About \$1,320,000,000 worth of candy is sold each year in the U.S. at wholesale.

Continuations Are Numerous In Court

Twenty-four of the docketed 44 cases for Friday's mixed session of district court were continued by Judge Claude W. Allen, Jr., of Oxford. The continuations were numerous because a group of defendants charged with breaking and entering into a store in Warren County were granted additional time. Cases tried were disposed of as follows:

Kenneth R. Ainsley, driving under influence, driving while license revoked, ordered to jail for not less than eight months nor more than 12 months, suspended for two years on condition he pay fine of \$300 and court costs, and not operate motor vehicle on highways of N. C. until allowed to do so by Department of Motor Vehicles. On transporting broken sealed whiskey, voluntary dismissal granted.

Mary Frances Alston, speeding 67 in 55 mph zone and no operators license, called and failed. Ordered arrested for appearance on March 25 with bond set at \$250.

William Allen Daniel, exceeding safe speed, prayer for judgment continued upon payment of court costs.

Fernell Murray Deloatch, speeding 67 in 55 mph zone, called and failed. Ordered arrested with bond set at \$100.

Ivey Felts, public drunkenness, ordered to jail for four days with credit given for time served in jail pending trial.

Arthur Kearney, possession of weapon of death and destruction and disorderly conduct, continued until order of arrest served with order to read "to be held without privilege of bond."

James Edward Kearney, driving under influence, found guilty of careless and reckless driving after consumption of alcohol, fined \$100 and court costs.

Louis Cloy May, driving under influence, ordered to jail for 90 days, suspended for 12 months on condition he pay fine of \$100 and court costs, surrender operator's license and not operate motor vehicle on highways of N. C. until allowed to do so by Department

of Motor Vehicles.

David Lee Medlin, breaking and entering and larceny, found guilty of misdemeanor larceny, ordered to jail for 90 days, suspended for two years and placed on probation for two years under usual conditions of probation with special conditions that he pay cost of court and fine of \$125 and reimburse state for attorney fees.

William Kenneth Stallings, Jr., breaking and entering, larceny, found guilty of misdemeanor receiving, ordered to jail for 90 days, suspended for two years and placed on probation for two years under usual conditions of probation, with special conditions that he pay cost of court and fine of \$125.

William Gray Neal, speeding 70 in 55 mph zone, driving under influence (second offense), called and failed. Ordered arrested and appearance on March 25 with bond set at \$750.

Walter P. Pleasant, Sr., operating unnumbered boat, voluntary dismissal.

Erma R. Richardson, worthless check, called and failed. Ordered arrested for appearance on March 25 with bond set at \$30.

Larry Craig Richardson, following too closely, voluntary dismissal.

Prince Albert Taylor, assault on female, ordered to jail for 12 months and assigned to work under supervision of N. C. Department of Corrections.

Bobby Dean Walser, speeding 100 in 55 mph zone, driving under influence called and failed. Order of forfeiture on bond and order of arrest issued for appearance on April 29 with bond set at \$1500.

George Freeman, Sr., public drunkenness, voluntary dismissal.

George Washington Freeman, Sr., driving under influence, transporting broken sealed whiskey, ordered to jail for six months, suspended for two years on condition he pay fine of \$125 and court costs, surrender operator's license and not operate motor vehicle on highway until allowed to do so and not be found guilty of any crime involving alcohol for two years.

Phone Off Hook Causes Problems

Replacing the telephone receiver on the hook when you're through talking may seem like a "little" thing to do. But it can be a "big" thing if you don't.

R. B. Hardister, manager for Carolina Telephone & Telegraph Company, pointed out today that many persons unknowingly are putting their own and perhaps other telephones out of service everyday by not replacing the receiver properly when through talking.

For all practical purposes, Hardister said, a telephone receiver off the hook is the same as a telephone out of order. And on a party line, this means every telephone on the line is out of service.

In an emergency, this could cause hardship.

Also, a receiver off the hook ties up central office equipment, thereby prohibiting other persons from using their telephones.

"A common cause of disruption of telephone service is failure to replace the telephone on the hook when someone is told to answer the phone on another extension," Hardister said.

When a person continues to get a busy signal because the party he is trying to reach has his phone off the receiver, the caller usually notifies the telephone company that the phone is out of order. The phone company may then send a repairman out on a service call, only to discover the phone is off the hook.

Such service calls have been increasing in Warrenton and Norlina, Hardister said. That's why he appealed to telephone users to make a special effort to replace receivers after completing calls.

Caesar salad is named, not for the Roman ruler, but for its creator, a Tijuana chef.

Hot dogs can be frozen for up to two months.

A Few Words From Talking Watch

The day is coming when you won't have to look at your watch to find out what time it is.

At the press of a button, a new wristwatch will say clearly, "Five-oh-three," or whatever time it happens to be. The manufacturer of the talking timepiece, who expects to market it by next Christmas, assumes no responsibility for the reactions of passersby who eavesdrop on the watch.

But if you're embarrassed at letting all within earshot share your watch's knowledge, a digital readout on its face will continue to give the time silently.

The battery-operated watch, called Sonatime, combines a liquid crystal display with a miniature speaker and a solid state memory.

Multilingual Timepiece
A patent for the vocal watch was granted last December to Intersonics Corporation of New York. Robert W. Lester, president of the research firm, says the watch's voice can be composed of information bits that will reasonably reproduce

any selected person's voice in any language customers want.

Watchmaking has made dramatic advances in recent years by adapting space-age technology and miniaturization. It's a far cry from the Nuremberg Egg, considered the forerunner of modern watches, says the National Geographic Society.

A technological marvel in 1505, the egg-sized timepiece was meant to be worn on a neck chain. It featured a coiled mainspring, its single hand told only the hours, and it was "accurate" to within two or three hours a day.

Most early watches were made by locksmiths, who produced them in various shapes, including ovals, squares and octagons. With development of the spiral balance spring in 1675, another hand was added to measure minutes and the portable toys became true timekeepers.

Watchmakers became specialists and watch movements were reduced and refined to fit into flat cases that could be carried in the pocket.

War Promoted Wristwatch

Wristwatches at first were considered effeminate, though some were worn by British cavalry officers in the Boer War. The heavily laden-troops of World War I found them practical, and they soon became more popular than the bulkier pocket watches.

Over the years, wristwatches shrank in size and became self-winding, shock-resistant, and waterproof. They took on added duties as stopwatches, calendars, and wrist alarms.

The greatest change came in 1970 when traditional mainsprings and balance wheels were replaced by tiny quartz crystals in a new type of wristwatch.

Watches became computers, with liquid crystal displays flashing the time at the push of a button or flick of the wrist. Light-emitting diodes that produce constantly visible numbers eliminated even that much effort.

Now if someone invents a voice-activated timepiece, its wearer can just ask the watch what time it is.
