### Cystic Fibrosis Chairman Named

George W. Little, campaign chairman for the North Carolina Chapter, Cystic Fibrosis Foundation, has announced the following area campaign chairpersons for the "Kiss Your Baby" Campaign in Warren County:

Mrs. Gladys Bolton for the Warren Plains area and the Wise-Paschall 4-H Club for the Wise area.

Campaign funds are used to help support research and care in children's lung-damaging diseases such as asthma with lung damage, chronic bronchitis, bronchiectasis, childhood emphysema, and cystic fibrosis. Of each CF dollar raised 82% is spent for the programs of research, care, education, and community services.

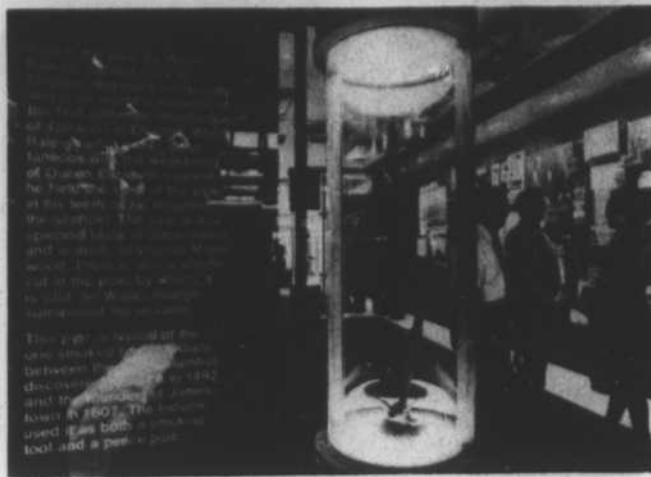

The major symptom of cystic fibrosis is a salty taste of the skin, frequently noticed by parents when kissing their baby. CF is an inherited and incurable disease and can affect not only the lungs but also the digestive system. It is believed that one in 20 persons are carriers of the recessive CF gene. Approximately 60,000 North Carolinians are carriers of this gene. Fifty (50%) percent of CF patients now live to age 18.

Sir Walter Raleigh's pipe (top one in enclosed cylinder) is one of the many artifacts that are now part of the revised R. J. Reynolds Tobacco Company tour at its Whitaker Park cigarette manufacturing plant in Winston-Salem, N. C.

### Sir Walter Raleigh's Pipe Graces Tar Heel Museum

WINSTON-SALEM, N. C.—Sir Walter Raleigh's pipe, the one he carried back to England over 475 years ago, is one of the historical artifacts now on display in the revised R. J. Reynolds Tobacco Company tour at its Whitaker Park cigarette manufacturing facility here. The pipe is a souvenir of the first authentic introduction of tobacco in England.

The pipe is just part of the memorabilia that has been added to the popular tourist attraction. Artifacts, old drawings and paintings, historic tobacco antiques and audiovisual presentations including Camel Caravan radio broadcasts, the Camel smoking billboard and several of the first Winston and Salem television commercials are also featured among the unique displays which are now part of the free tour.

When Raleigh's fall came, simultaneously with the weakening of Queen Elizabeth's power, he held the stem of the pipe in his teeth as he mounted the scaffold.

It is said that he handed the pipe to Bishop Andrewes, who administered the last sacrament of the church to him and the goodly bishop passed the pipe to the Carew family of Beddington, England.

From this family it came into the possession of the Glovers of Croydon, and afterwards to the Bryants of Reigate, England. W. A. Bryant exhibited the relic at the Guild Hall Museum in London almost a hundred years ago. At that time a parchment was introduced authenticating its history.

The pipe later became the property of Horace C. Blundell, 10 Stilehall Parade, Chiswick, London. He received it in the early 1900s from his grandfather who had married into the family of the Bryants.

Blundell then presented the pipe to R. J. Reynolds after the company named its pipe tobacco Prince Albert.

The pipe is in a splendid state of preservation and is made of Virginia maple wood. There is also a whistle cut in the pipe, by which, it is said, Sir Walter Raleigh summoned his servants.
