

Cochrane, Friendly Four Club Receive Awards

Cochrane Eastern Inc. of Warrenton was one of 10 industries receiving community service awards at the Fifth Annual Recognition and Awards Banquet for the Triangle Improvement Association, Inc.

In addition, the Friendly Four Community Development Club also received the blue ribbon award on the basis of the 1977 accomplishments made in the four communities of Vaughan, Embro, Olive Grove and Grove Hill.

Covering a 10-county area, TIA traditionally recognizes community clubs, civic and service groups, industries and agribusinesses for their cooperation, participation and achievements in community development efforts.

Other industries cited for their community spirit by Ed Tokarz, chairman of the TIA Industrial Committee, were Burlington Industries of Oxford, Cargill, Inc., Poultry Products Division of Franklin County, Collins and Aikman Corporation of Roxboro, Chicopee Manufacturing Company of Benson, Burlington Industries of Erwin, Facet Enterprises, Inc., of Henderson, Crabtree Valley Mall of Raleigh, Hillsborough Textiles Division of Falk Fibers and Fabrics of Orange County and television station WTVD of Durham.

Attending the awards program from Warren County were Palmer Harrison, Mrs. Raymond Fitts, Mrs. Bettie Howard and Mr. and Mrs. James Gardner of Olive Grove; Samuel Russell, Mr.

and Mrs. James Jordan, Mrs. Emily Hudgins, Mrs. Elizabeth Hudgins and Mrs. Nannie Spruill of Embro; Mr. and Mrs. Bravid Watson of Vaughan; Gilbert Crotts, Gordon A. Green, and Frank W. Reams of Warrenton; Mr. and Mrs. Dempsey P. Davis of Wise and Mrs. Bertha B. Forte, Home Economics Extension Agent.

Guest speaker was Howard N. Lee, secretary of the N. C. Department of National Resources and Community Development.

Mrs. Nannie Spruill, president of the Friendly Four Community Development Club, received the blue ribbon award presented to this organization. This award was made on the basis of the 1977 accomplishments made in the four communities of Vaughan, Embro, Olive Grove and Grove Hill.

Cochrane Eastern, Inc. was recognized for its contributions to the Warren County communities during 1977. Gilbert Crotts, plant manager, attended and received the plaque awarded the firm.

Community Committee Election Deadline Set

Warren County farmers are reminded that it is again time for the ASC Community Committee election.

ASC committees provide the important service of administering government farm programs to the farm community. Farmers are encouraged to use this opportunity to take part in this important election and to vote for the most qualified persons to represent them as community committeemen.

Warren County farmers have until Dec. 5 to return their ballots to elect community committeemen to serve in 1978. Ballots will be mailed Friday to all known eligible voters, and these ballots must be postmarked or returned not later than Dec. 5.

Any person who does not receive a ballot and thinks he is eligible to vote may obtain a ballot from the Warren County ASCS Office. All voters should sign the certification on the envelope for the ballot to be counted.

Ballots will be publicly tabulated Dec. 12 at 9 a. m. in the county ASCS office. In each of the 11 communities, a chairman, vice-chairman, regular member, first and second alternates will be elected. The three elected committeemen in each

community will become delegates to the County Convention to fill vacancies on the County Committee.

The County Convention will be held Dec. 19, at 2 p. m.

Arcola Man Named As Board Director

A Warren County man, Elmer J. Harris of Arcola, was named a member of the board of directors of the N. C. Agricultural Foundation, for a four-year term, at a meeting of directors held in Raleigh Friday.

Carl E. Patterson of Rt. 1, China Grove, a Rowan County tomato grower, was elected president, succeeding Elmer R. Daniel of Rt. 1, Spring Hope.

The N. C. Agricultural Foundation is a statewide organization that raises funds for the School of Agriculture and Life Sciences at North Carolina State University.

During the past year, the Agricultural Foundation raised \$563,000 for the teaching, research and extension programs of the NCSU school. Since its organization in 1944, the foundation has raised more than \$9.6 million for educational programs headquartered at NCSU and benefiting farmers in all of the state's 100 counties.

Weatherize, Save

By GLENN WOOLARD
Asst. Extension Agent, 4-H
All residents of Warren County are urged to attend a weatherization program on Monday, Nov. 28, starting at 7:30 p.m. at the Warren County Courthouse. Mr. Bob Keyes will present practical, low-cost ways to save energy in your home this winter. Bob Keyes is the Housing-Weatherization Director for Franklin-Vance-Warren Opportunities, Inc.

The program will also kick-off a Home Energy Savings Contest for 4-H'ers in Warren County. The 4-H'ers will make home improvements such as weatherstripping along doors, repairing leaky faucets, putting plastic over windows, and wrapping hot water pipes.

The Warren County 4-H is sponsoring this program for the benefit of all residents in Warren County.

Two 4-H displays like the one above are being used this week as part of Farm-City Week observance. The Norlina Youth Improvement club placed a display in Peoples Bank in Norlina and the Golden Star club has one at Warrenton Savings and Loan.

Norlina Youth Improvement Club Holds Regular Meet

By CHARLIE FIELDS
The Norlina Youth Improvement Club held its regular monthly meeting Monday, Nov. 14, at 6 p. m. at the Norlina First Baptist Church. The meeting was called to order by Oita Cheston. Devotion and minutes followed.

Our business session was based on giving baskets to the elderly for Thanksgiving.

We also elected officers for the '78 year: president-Derrick Cheston; vice-president-Charlie Fields; secretary-Shenee Green; assistant secretary-Evelyn Fields; treasurer-Pam Kersey; reporter-Kevin Cheston; parliamentary-Deborah Kersey.

Dues were paid and refreshments were served by Marvin Hunter.

VGCC Registration Will Be Nov. 30

HENDERSON - Vance-Granville Community College has scheduled daytime and evening registration sessions for those who have filed applications to attend classes during winter quarter.

Those who have filed for daytime classes can attend a meeting at 1:30 p. m. Wednesday, Nov. 30. Those who plan to take evening classes will meet at 6 p. m. Thursday, Dec. 1.

Final registration for winter quarter will be held Jan. 3 and 4, according to

Frank Madigan, Dean of Student Affairs.

Students already attending daytime and evening classes will select their courses and complete registration on Nov. 29 and 30 and Dec. 1.

"Veterans and those who feel they need financial help are asked to attend these meetings so that we can help them apply for assistance," Madigan said. "The forms and applications need to be filled out and filed long before final registration."

VGCC offers a total of 24

vocational, technical and college transfer programs. A full-time, in-state student pays a total of \$39 in tuition plus a \$5 activity fee and approximately \$6 for books.

The business office and book store will accept VISA credit cards for tuition, fee and book payments beginning winter quarter.

Counseling services are provided to help all prospective students who contact the Student Affairs Division. Free testing helps students determine their talents, interests and career potentials. Counselors will assist students to select the program they want to take at VGCC.

There are 13 two-year technical programs which students can take winter quarter. They include accounting, business administration, criminal justice technology, early childhood development, general office technology, industrial engineering, industrial management, legal secretarial science, marketing and retail sales, recreational therapy, executive secretarial science, special education, and teacher's aide.

Welding is the only vocational, or one-year, program which can accept

students winter quarter. The other eight vocational programs have a full student load.

VGCC provides a college transfer program for those who want to save money by attending their first two years of college classes while living at home.

The community college also offers classes for those who need basic grade school studies or who want to prepare for the GED tests.

Patterson Is Appointed NCO

Willis E. Patterson, Jr., son of Mr. and Mrs. Willis Patterson of Rt. 2, Littleton, has been appointed to non-commissioned officer (NCO) status in the U. S. Air Force.

The newly selected sergeant completed required training in management, leadership, human relations and NCO responsibilities, before being considered for this new rank.

Sergeant Patterson is a material facilities specialist at Seymour Johnson AFB.

The sergeant is a 1972 graduate of Northwest High School, Roanoke Rapids, N. C., and attended Charlotte School of Heavy Equipment.

Fix Leaks. Better Insulation

By BERTHA B. FORTE
Home Extension Agent

Leaky windows and doors can undo most of the good you may have done by insulating ceilings, floors, and walls.

In fact, the heat lost through such little cracks and crevices can total more than that lost through all those insulated surfaces. Yet these cracks are much less expensive to check when it comes to controlling heat losses.

Weather stripping is the answer. It comes in various forms ranging from an inexpensive felt type to a combination aluminum-vinyl type.

The less costly ones may last two to five years while the more costly ones, up to ten years.

The use of weather stripping can cut heating

costs as much as a fourth. For the energy conscious home owner, that means quite a savings both in energy - and in pocket money.

Installation methods vary. With windows, it may be an inside job - or an outside job. But with doors, the stripping is ordinarily put on the outside.

There's still time to "strip" those leaky doors and windows to keep the cold out - and the warm in. You'll save money and be energy conscious at the same time.

On cold days, a space heater can provide the extra heat you need to keep a room warm.

But keep in mind that a space heater can be dangerous when used improperly. Think safety whenever you handle or use a room heater.

For example, have old or seldom-used heaters checked by a professional service person before using. If your heater has a higher-than-usual wattage, have an electrician check the room wiring to make sure it can handle the heater.

If at all possible, plug in your heater without an extension cord. If an extension cord is a must, buy a heavy duty one from an electrical supply store.

Where you put your space heater is another key to safety. Don't put it in walking areas or near furniture, draperies or other fabrics that might catch fire.

Use an electric heater only if it has a thermostat control and will turn off if tipped over.

Be sure to warn youngsters not to touch any part of the heater. It adds up to this. If you do use a space heater to keep warm, do all you can to keep safe, too.

THANKS

My thanks to my many friends for their visits, flowers, cards and donations during my illness and recovery. Again many thanks.

MRS. HENRIETTA DAVIS

Vaughan Honor Roll Announced

Henry Bridgers, principal of Vaughan Elementary School, has released the honor roll list for the first nine weeks as follows:

Fourth grade: Kimberly Salmon, Cynthia Pike, James West, Patricia Hawkins and Sherry A. Robinson.

International 715 Combines

Balanced capacity means you'll speed your harvest while saving more corn and soybeans. Low-angle corn heads handle down or tall corn with equal ease. Aggressive stalk rolls and corn-saver auger control keep ears low in auger to reduce shelling and ear losses. Hinged gatherer shields swing out of the way for easy access to chains.

- 2, 3, 4-row corn heads for wide or narrow rows.
- Stripper plates efficiently snap ears, minimize bounce, let less trash enter combine.
- Gas or diesel engines, up to 107 hp.
- Big grain tanks—up to 96 bushels.
- Grain heads from 10 to 20 ft., optional flexible floating cutterbar saves extra bushels of beans.

Let's arrange a demonstration. Finance plans available.
