### Talk On Schools

Mrs. K. G. Copley brought an inspiring devotion on what members can be thankful for during this Thanksgiving season and how each one can help others.

After a short business session, Mrs. King introduced Mrs. Richard Hunter who gave an interesting talk on school volunteers in Warren County. She suggested many ways that volunteers can help the school system, which in turn helps the community.

Following the program, Mrs. Copley and co-hostesses served delicious refreshments. The club then adjourned until December when it will meet in the home of Mrs. G. W. King.

## A Well-Bred Goose For Thanksgiving

Succulent roast goose is becoming a favorite of the American holiday table. Today's well-bred birds are meatier, juicier and save time and work since the goose is self-basting.

A few simple steps can insure a memorable meal—correct oven temperature in two stages, use of a meat thermometer (should register 180° F.) and frequent removal of rendered fat.

Thaw bird according to package instructions. Follow the table below for correct roasting times. If you cook the bird unstuffed, cooking time will be slightly shortened.

Ready-to-Cook Weight (Pounds)	Time at 400° F.	PLUS		Total Roasting Time (Hours)
		Time at 325° F. (Hours)	Time at 325° F. (Hours)	
8 to 10	1 hour	1-1/2 to 2	2-1/2 to 3	3 to 3-1/2
10 to 12	1 hour	2 to 2-1/2	3 to 3-1/2	3 to 3-1/2

### WILD RICE STUFFING

- 2/3 cup wild rice
- 2 cups water
- 1/2 teaspoon salt
- 6 cups day-old white bread cubes (crusts removed)
- 1/2 cup finely chopped onions
- 1 teaspoon powdered sage
- 1/2 teaspoon salt
- 1/2 cup melted butter

Rinse rice thoroughly. Bring to boil in saucepan with water and salt. Reduce heat and simmer 30 minutes or until just tender. Combine bread cubes, onion, sage, salt and cooked rice. Add melted butter and toss to mix. Stuff goose lightly in neck and body cavities. Makes enough to stuff an 8 to 10 pound bird.

Fasten the neck with a skewer and tie legs together.

The early Egyptians' eye shadow concocted of kohl, a lead ore, was first designed to shield eyes from the sun.

Spread a thin layer of melted butter over jellies, puddings and sauces right after cooking. Stir, and foam or skin will disappear.
