He spoke highly of Joe Lennon, Warren health director who was master of ceremonies for Thursday night's event. He called Lennon "the coordinating force" in the effort to secure a certificate of need for the new home.

Lennon, in turn, praised Stewart as "the one who has guided us since inception" of the nursing home idea.

Lennon called Thursday a great day for Warren County as supporters of the N. L. Williams nursing home proposal gathered. Unfortunately, Williams was absent due to illness.

The work of Gen. Claude Bowers at the outset was quite important, Lennon told the group. He praised Warren commissioners, Monroe Gardner, Glenwood Newsome, McCarrroll Alston, Mrs. Doris Dryden, George Shearin and the bankers of Warren County for their help. All except Bowers were present.

Two persons in attendance from outside Warren County — Aubrey Hardee of Granville County and Dr. J. P. Green of Vance County — were also singled out for their participation.

Among the persons who meant much during the early stages, Lennon continued, was M. C. Hicks, who made available a 10.5-acre tract of land between Norlina and Warrenton. Later, Julian Farrar was recognized and praised for having statistics which showed the need for the new nursing home facility.

Administrator Vaughan said that in spite of the cut off of CETA workers, that this year the town had been able to carry out the work without any additional costs. Mayor White said that he had received several letters and telephone calls thanking him for the good job the town had done in removing trash and leaves from the residential streets. Clayton said that he had also received letters and calls and for the first year had

not received any complaints.

In announcing his committee appointments, Mayor White said he did not appoint a railroad committee. He said that the town no longer had anything to do with the operation of the railroad since it had sold its interest. With Commissioner Clayton as chairman of the board of directors and only two shares outstanding, he feels that Warrenton is represented well enough.

Before adjourning the meeting, Mayor White thanked Mrs. Butch and son, Andy for attending the meeting and watching her husband take the oath of office as town commissioner.

ONE THING'S FOR SURE. WITH AN IRA FROM BB&T, YOU'LL AGE WELL.

As your years increase, so will your fortune. In fact, if you start your Individual Retirement Account (IRA) in your early thirties and interest rates stay about where they are now, a \$2,000-a-year investment will make you a millionaire by the time you retire! And even if you can't begin that early, you can still build a whopping retirement fund.

Meanwhile, you can deduct every penny of your annual investment—whether it's the \$500 opening minimum or the \$2,000 annual limit—from that year's gross income. Which means real tax savings every year.

The interest you earn, which is tied to money market rates, is compounded daily at BB&T, not monthly or annually as may be the case at some banks and savings and loans. This can add up to a difference of thousands and thousands of dollars by retirement age.

And all your interest is tax-deferred. You pay no tax on it until you begin withdrawing funds at retirement, when you'll probably be in a lower tax bracket and required to pay less.

If you withdraw any money from your IRA before you reach the age of 59½, Federal regulations require you to pay a 10% IRS penalty on that money and perhaps a substantial interest penalty as well. But once you're 59½, nothing can stop you. You may take your money in a lump sum, receive it in installments, or even wait until you're 70½—but no longer—to begin withdrawing funds.

Call or visit any BB&T office today and ask us about this extraordinary opportunity to save for your future. Then plan to open your IRA after January 1st and get started along the road to prosperity.

When you're ready to retire, you won't look old. You'll look like a million bucks.

Nobody works harder for your money.

Projected growth is shown based on 12% interest compounded daily on an annual contribution of \$2,000 deposited on the first day of each year for 35 years.
