Nash Lawmaker Chosen For Posts

RALEIGH — Senator Dallas L. Alford, Jr. of Nash County has been appointed to leadership positions for two major studies to be conducted by the North Carolina General Assembly.

Senator President Pro Tem W. Craig Lawing of Mecklenburg County appointed Alford as vice chairman of the Property Tax Study Commission and co-chairman of the Computer Study Committee.

"Senator Alford has the experience and ability to give sound direction to these important undertakings and I know he will make a major contribution to their success," Lawing said in announcing the appointments.

The Property Tax Study Commission is made up of five members of the Senate, five members of the House and five persons appointed by the Governor. It will make a comprehensive study of the property tax, which is a mainstay of local governments in North Carolina.

The legislation creating the commission said: "Problems remain with the efficient administration and collection of property taxes, especially with

taxes, especially with collection of taxes on motor vehicles, household furnishings and personal effects, and administration of exemptions for the elderly and disabled...A thorough study of all features of the property tax system is warranted in order to promote the fairest and most equitable property tax structure for all citizens of the State."

The commission is to file a final report with the General Assembly by February 1, 1983 and may submit an interim report to the June, 1982 session.

The Computer Study will be conducted by the Legislative Research Commission under terms of Senate Joint Resolution 349. The committee will consider the feasibility of consolidating the computer systems operated by the State at various localities, with an eye toward greater efficiency and economy. A final report is to be submitted to the 1983 General Assembly.

Senator Alford, a Rocky Mount businessman, represents Franklin, Nash, Vance, Warren and Wilson counties in the 7th Senatorial District. He is chairman of the Senate Appropriations Committee on Natural and Economic Resources.

Greene Leads Eagles In Friday Victory

LEGGETT — Joe Greene poured in 26 points and Jerome Cooper hauled down 20 rebounds to lead Warren County to a come-from-behind 63-60 win over North Edgecombe Friday night.

In the opener, the Warren County girls won their first game ever, taking a 28-25 win over a tough Lady Warrior team.

In the main event, North Edgecombe opened a 32-28 halftime lead over an Eagle team that was without the services of All-America guard David Henderson, out with a broken wrist.

But Greene, a 6-1 senior, went to work. The quick forward scored a career high 26 points, grabbed five rebounds, made five steals, and dished out a couple of assists.

The Eagle attack was not a one-man show however. Point guard Mark Ellington had his best game of the year, scoring 10 points and handing out the same number of assists. Kenny Crews, filling in for Henderson, tossed in 14 points, had seven rebounds, and five assists. It was Crews' best effort of the season as well.

Cooper and John Falcon dominated the boards. Cooper with 20, and Falcon with seven points and 11 rebounds, offset the absence of Henderson. Cooper, Jefferson, and Reggie Burchette all had two for the birds. Brown and Hinton were the Warrior leaders, with 16 and 10 respectively.

Girls' Win

The Lady Eagles, improving each game, finally put it all together in taking a 28-25 win. The Eagles trailed 11-9 after one period, but outscored the Warriors 7-2 in the second stanza.

The game was tight all the way and Warren County held a one-point lead with just 20 seconds to play. That's when Teretha Bullock stole the ball from the Warriors. Peggy Williams cashed in one free throw with 12 seconds left, and Sonya Dunston added the icer with five ticks left on the clock.

Coach Bob Lynch said the win was a "team effort," citing the fact that center Angela Fleming and Jean Williams fouled out with about a quarter left to play. The win marked a great comeback, as the Eagles trailed 11-3 early in the contest.

Fleming and Jean Williams led the attack with eight and six, Peggy Williams had five, Evontia Williams four, Dunston three, and Bullock two points. Peggy Williams topped the rebounders with nine, while Gloria Kearney had six.

The jayvees continued their skid, dropping a 63-42 decision.

Representative Of School To Be At Warren Co. High

Ola F. Stringer, head of admissions at the North Carolina School of Science and Mathematics, this week announced that an official representative of the school will be at Warren County High School on Thursday, January 14, at 1:30 p.m. to answer questions. Tenth grade students and their parents are encouraged to attend this information session if they are considering attending the school next year.

The North Carolina School of Science and Mathematics was created by the North Carolina General Assembly to provide education for high school students who have intense interest and potential for high achievement in mathematics and science. The school, located in Durham, opened in September 1980, and now has an enrollment of 302.

Students and parents interested in finding out more about the North Carolina School of Science and Mathematics should contact the School's counseling office for the exact locations of the meeting.

High Protein

A 2,000 year-old staple of the Inca Empire is described as an almost ideal food protein which could provide an ancient answer to modern world food shortages. Quinoa has a protein rating of about 16 percent compared to 6 percent for most American wheat products.
