The oldest coin mint in the Western Hemisphere is the Casa de Moneda de Mexico, world-renowned for over four centuries for the quality and craftsmanship of their coinage. Recently, Banco de Mexico, the government's federal reserve, commissioned three new coins — the first gold bullion coins in 60 years — from the Casa de Moneda. The new coins are the Mexican one-ounce, the Mexican half-ounce and the Mexican quarter-ounce. They could make enduring and original gifts of gold.

"Time is precious, but truth is more precious than time." Benjamin Disraeli

featuring The Exclusive "Marvelous Middle" Construction

- The Marvelous Middle[®] MATTRESS...
- COVERING—Only the finest fabric available is used. Expensive Burlington damask fabric gives the Orthotonic an elegant look and feel.
 - CUSHIONING MATERIALS—Thick layers of specially designed urethane foam are added to thick layers of cushioning materials for the finest in sleep comfort.
 - INNER-SPRING CONSTRUCTION—Tempered multi-coil inner-spring unit designed to provide total body support by the unique action of hour-glass shaped coils.
 - DOUBLE INSULATION—The strongest fiber pads plus especially designed wire insulators insure coil feel and prevent cushioning materials from pocketing and sinking into the springs.
 - SUPER-EDGE[®]—Extra-heavy gauge border wire is used to provide a strong seating surface, to increase the overall sleeping area, and to add years of life to the mattress.
 - CENTER SUPPORT—More materials are placed in the center one-third of every Orthotonic mattress—that vital area where two-thirds of the body weight is concentrated.
 - MARVELOUS MIDDLE[®] ASSEMBLY—The cushioning and upholstery materials are sewn together creating the posture lines which are secured to the spring unit. This exclusive Marvelous Middle construction process creates extra support in the center one-third of the mattress.

- The modUbar[®] FOUNDATION...
- MODULES—Scientifically engineered, these high grade tempered steel modules act independently to provide the ultimate in firm support and reduce potential sag.
 - GRID—The modules are supported by a specially designed welded steel grid. The grid, which acts in combination with the module, distributes body weight evenly over the entire surface of the unit.
 - CENTER MODULES—The intensive concentration of modules in the center 1/3 of the foundation provides more center support and extends the Marvelous Middle concept through the entire sleep system.
 - STEEL CHANNELS—The OrthoTonic Marvelous Middle is also extended through the foundation by encasing the center wood slats in exclusively tailored steel channels. The encasement of the center slats in steel serves to further strengthen the wooden slats and provides added support in the center 1/3 of the total sleep system.
 - CORNER SPRING ELEMENTS—Precisely contoured to enhance the overall beauty of the finished product and to help prevent corner breakdown.

ONE THING'S FOR SURE. WITH AN IRA FROM BB&T, YOU'LL AGE WELL.

As your years increase, so will your fortune. In fact, if you start your Individual Retirement Account (IRA) in your early thirties and interest rates stay about where they are now, a \$2,000-a-year investment will make you a millionaire by the time you retire! And even if you can't begin that early, you can still build a whopping retirement fund.

Meanwhile, you can deduct every penny of your investment, right up to the \$2,000 annual limit, from that year's gross income. Which means real tax savings every year.

The interest you earn, which is tied to money market rates, is compounded daily at BB&T, not monthly or annually as may be the case at some banks and savings and loans. This can add up to a difference of thousands and thousands of dollars by retirement age.

And all your interest is tax-deferred. You pay no tax on it until you begin withdrawing funds at retirement, when you'll probably be in a lower tax bracket and required to pay less.

If you withdraw any money from your IRA before you reach the age of 59½, Federal regulations require you to pay a 10% IRS penalty on that money and perhaps a substantial interest penalty as well. But once you're 59½, nothing can stop you. You may take your money in a lump sum, receive it in installments, or even wait until you're 70½—but no longer—to begin withdrawing funds.

Call or visit any BB&T office today and ask us about this extraordinary opportunity to save for your future. Then open your IRA and get started along the road to prosperity.

When you're ready to retire, you won't look old. You'll look like a million bucks.

BB&T
Nobody works harder for your money.

Projected growth is shown based on 12% interest compounded daily on an annual contribution of \$2,000 deposited on the first day of each year for 35 years.
