WE BURN THE MIDNIGHT OIL, SO WE WON'T WASTE A LOT OF MONEY ON OIL.

The photograph isn't a scene from "Star Wars" or the NASA Space Center. It's CP&L's Energy Control.

Here, we're working 24 hours a day, 365 days a year, to maintain the

most economical "energy mix" every hour of the day.

The idea is to use all the nuclear we can, since it costs us only about 1/2¢ per kilowatt hour for fuel.

Coal costs about 2¢; oil, a staggering 10¢ to 14¢.

That's why we're happy to say that we're one of the lowest users of oil in the country. In fact, we use oil for only about 1% of the electricity we generate.

Because the more we can get out of our energy dollar, the more you can get out of yours.
