Some people think an IRA won't help until retirement. Nonsense. A BB&T IRA helps every April 15.

An IRA, you see, is more than a fast-growing retirement fund. It's a tax shelter.

Now, the tax-wise have been taking advantage of tax shelters for years, contributing money to charity, for example, so they can take big deductions and pay smaller income taxes.

Well, we think it's about time working people got a piece of the action. And they can with BB&T's Individual Retirement Account, a tax shelter that's yours when you make a contribution to the charity closest to your heart: you and your family.

YOU CAN DEDUCT AS MUCH AS \$2,000 A YEAR FROM YOUR GROSS INCOME.

You're allowed to invest as much as \$2,000 a year in your IRA (\$2,250 if you're married and only one of you is a wage earner, \$4,000 if you both are). And every penny is deductible. Which means big tax savings. If you're in the 25% tax bracket, for example, and you and your working spouse put \$4,000 into an IRA, your refund check from Uncle Sam will be \$1,000 fatter than it would be otherwise.

YOU DON'T EVEN PAY TAX ON THE INTEREST YOU EARN UNTIL YOU RETIRE.

Which is nice, because at BB&T, you'll be earning at a rate that's tied to money market rates, with a guaranteed minimum of 8%. What's more, we don't compound that interest annually or quar-

Amount Deposited @	Daily Compounding*	Annual Compounding*	Net Gain With Daily Compounding
10 \$20,000	\$ 32,097	\$ 31,291	\$ 806
20 \$40,000	\$104,323	\$ 98,846	\$ 5,477
30 \$60,000	\$266,846	\$244,692	\$22,153
40 \$80,000	\$632,553	\$559,562	\$72,991

*Based on 8% interest rate.

terly as some banks do. We compound daily, which can make a difference of thousands of dollars in interest over the years.

And all your interest is tax-deferred. You pay no tax on it until you begin withdrawing funds between 59½ and 70½ years of age, when you'll probably be in a lower income tax bracket and, therefore, required to pay less.

YOU CAN BUILD UP ENOUGH IN YOUR IRA OVER THE YEARS TO RETIRE RICH.

If you start an IRA in your early thirties, a \$2,000-a-year investment, with all the interest it earns, will turn into a really tidy sum by the time you're sixty-five. And even if you were born too soon to start that early or can't afford an investment that large, you'll still pile up a sizeable retirement fund.

Call or visit any BB&T office and get your IRA started before another day goes by. After all, how can you pass up a plan that gives you big bucks in the September of your life and a bigger refund check every April?
