Warren County Deed Transfers

In recording deed transfers the law does not require that the amount paid for property be stated in the deed. However, the State of North Carolina requires a tax stamp on each deed at the rate of 50 cents for every \$500 valuation or fraction thereof. This revenue goes into the General Fund of the counties.

Agriculturally Speaking

By RUSSELL C. KING
County Extension Director

Revision of the Immigration and Nationality Act (INA) requires employers of "special agricultural workers" and "replenishment agricultural workers" employed in seasonal agricultural services to assemble employment information which must be reported to the Federal Government during the period of October 1, 1988, through September 30, 1992; essentially the same employment information that must be reported to any individual replenishment agricultural worker during the period beginning October 1, 1989 through September 30, 1992.

The INA provides for assessment of civil money penalties of up to \$1,000 for each occurrence for, among other things, failure to provide, or failure to provide accurately, the required information.

To carry out the statutory requirements, employers must: 1-identify each reportable worker employed in seasonal agricultural services subject to the regulations issued September 9, 1988; 2-report to the Federal Government the number of work days performed by any such reportable worker, and 3-report the number of work days performed to each reportable worker who is a replenishment agricultural worker.

Federal workers need the required information from employers in order to decide how many "replenishment agricultural workers" (RAWS) may obtain legal status during each of four fiscal years. Congress anticipated attrition of legally employable persons, including even those recently legalized as "special agricultural workers" (SAWS) from the farm labor supply. It built into IRCA provisions for replenishing the agricultural workforce by allowing aliens to enter the U.S. as RAWS from October 1, 1989, through September 30, 1993.

To assist you in completing these reports, plan to attend the ESA-92 report workshop at 1:00 p.m. on January 11, 1989 at the Warren County Agricultural Office.

Two Local Youths Facing Felony Assault Charges

Two 16-year-olds will face felony assault charges today (Wednesday) in Warren County District Court and their alleged victim will face a misdemeanor charge, following a New Year's Day fracas at an area nightclub.

Clinton Washington, of Halifax County, and Freddie Rudd, of Rt. 1, Hollister, have been charged with one count each of assault with a deadly weapon/inflicting serious injury.

The charges were made by Det. R. A. Coleman, following a report some 46 minutes into the new year of a fight in progress at Club 43.

The alleged victim in the fracas, James Peoples, 20, of Weldon, sustained cuts on his back and about the head, Det. Coleman said Tuesday. Peoples has been charged with misdemeanor assault.

The Warren County Emergency Medical Service transported

Peoples to Maria Parham Hospital, where he was treated and released. Rudd sustained a cut on his lower left cheek, but refused medical treatment, Det. Coleman said.

Assisting the detective in responding to the call were Warrenton Police Officer Robbie Ayscue and N.C. Highway Patrol Trooper A. M. Bennett.

Jobless Rate Down Here In November

Warren County's rate of unemployment decreased slightly in the month of November last year, a report released recently by the Employment Security Commission has revealed.

According to the report, Warren's unemployment rate for the month of October was 4.4 percent. In November, the rate decreased to four percent.

Warren County's rate of four percent places it among the 79 counties in the state with November unemployment rates at or below five percent. Graham County had the highest rate: 13.4 percent.
