Its highest purpose is the elevation and ennobling of Agriculture through the higher and broader education of the men and women engaged in its pursuits. The regular subscription price of the AMERICAN FARMER is \$1.00 per year. IT COSTS YOU NOTHING. Nurse (to fashionable mother).—The baby is very restless, m'am. I can't do anything with her.

F. M.—I? Impossible I haven't time to spare. I am just making ready to attend a meeting of the Society for the prevention of cruelty to animals. Give baby some of Dr. Biggers' Huckleberry Cordial.

Tobacco in Forsyth and Granville counties was considerably damaged by frost last Sunday night, and in the tobacco region near Lynchburg it is thought one-fourth of the crop is ruined.

Extraordinary but nevertheless true. We refer to the announcement of B. F. Johnson & Co., of Richmond, in which they propose to show working and energetic men how to make from \$100 to \$300 a month over and above expenses.

A Woman from Austria.

Near the village of Zillingdorf, in Lower Austria, lives Maria Has, an intelligent and industrious woman, whose story of physical suffering and final relief, as related by herself, is of interest to English women. "I was employed," she says, "in the work of a large farmhouse. Overwork brought on sick headache, followed by a deathly fainting and sickness of the stomach, until I was unable to retain either food or drink. I was compelled to take to my bed for several weeks. Getting a little better from rest and quiet, I sought to do some work, but was soon taken with a pain in my side, which in a little while seemed to spread over my whole body, and throbed in my every limb. This was followed by a cough and shortness of breath, until finally I could not sew, and I took to my bed for the second, and, as I thought, for the last time. My friends told me that my time had nearly come, and that I could not live longer than when the trees put on their green once more. Then I happened to get one of the Seigel's Syrup (Shaker Extract of Roots) which I took exactly according to directions, and I had not taken the whole of it before I felt a change for the better. My last illness began June 2d, 1882, and continued to August 9th, when I began to take the Syrup. Very soon I could do a little light work. The cough left me, and I was no more troubled in breathing. Now I am perfectly cured; and oh, how happy I am! I cannot express gratitude enough for SEIGEL'S SYRUP (Shaker Extract of Roots). Now I must tell you that the doctors in our district distributed handbills cautioning the people against the medicine, telling them it would do no good, and many were thereby influenced to destroy the Seigel's pamphlets; but now, whenever one is to be found, it is kept like a relic. The few preserved are borrowed to read, and I have lent mine for six miles around our district. People have come eighteen miles to get me to buy the medicine for them, knowing that it cured me, and to be sure to get the right kind. I know a woman who was looking like death, and who told them there was no help for her, that she had consulted several doctors, but none could help her. I told her of Seigel's Syrup, and wrote the name down for her, that she might make no mistake. She took my advice and the Syrup, and now she is in perfect health, and the people around us are amazed. The medicine has made such progress in our neighborhood that people say they don't want the doctor any more, but they take the Syrup. Sufferers from gout who were confined to their beds and could hardly move a finger have been cured by it. There is a girl in our district who caught a cold by going through some water, and was in bed five years with osteitis and rheumatic pains, and had to have an attendant to watch by her. There was not a doctor in the surrounding district to whom her mother had not applied to relieve her child, but every one crossed themselves and said they could not help her. Whenever the little bell rang, which is rung in our place when anybody is dead, we thought surely it was for her; but Seigel's Syrup and Pills (Shaker Extract of Roots) saved her life, and now she is as healthy as anybody, goes to church, and can work even in the fields. Everybody was astonished when they saw her out, knowing how many years she had been in bed. To-day she adds her gratitude to mine for God's mercies and Seigel's Syrup. MARIA HAS. Shaker Medicines are now being sold in all parts of the world, and are working wonders, as shown in the above case. A. J. WHITE, 51 Warren St., New York.

In Brief, and to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.
The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order. Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things ought not to be, have made the American people a nation of dyspeptics.
But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.
