WEAK & UNDEVELOPED
PARTS of the HUMAN BODY ENLARGED DEVELOPED STRENGTHENED Etc., in an interesting advertisement now run in our paper. In reply to it you will see that there is no evidence of humbug about this. On the contrary, the advertisers are very highly indorsed. Interested parties may get valuable [illegible] all particulars, by addressing Frank Thomas & Co., Publishers, Baltimore, Md. —Toledo Evening Bee.

You Need
The most effective medicine for the cure of any serious ailment. If you are suffering from Scrofula, General Debility, Stomach, Liver, or Kidney diseases, try Ayer's Sarsaparilla — the safest, best, and most economical blood purifier in use.

For many years I was troubled with a Liver and Kidney complaint. Hearing Ayer's Sarsaparilla very highly recommended, I decided to try it, and have done so with the most satisfactory results. I am convinced that Ayer's Sarsaparilla is
The Best Remedy
ever compounded, for diseases caused by impure blood. — Edward W. Richardson, Milwaukee, Wis.

I have found Ayer's Sarsaparilla a more effectual remedy, in the ulcerous forms of Scrofula, than any other we possess. — James Lull, M. D., Potsdam, N. Y.

I have taken, within the past year, several bottles of Ayer's Sarsaparilla, and find it admirably adapted to the needs of an impoverished system. As a blood purifier and as a tonic, I am convinced that this wonderful preparation has no equal. — Charles C. Dame, Pastor Congregational Church, Andover, Me.

Ayer's Sarsaparilla,
Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price $1; six bottles, $5.

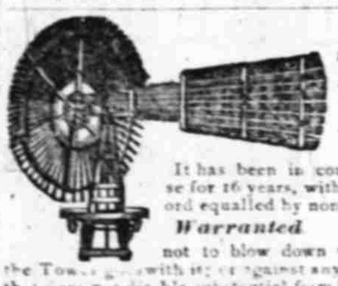
FOR **MAN** AND **BEAST!**

Mexican Mustang Liniment

CURES

Sciatica,	Scratches,	Contracted Muscles,
Lumbago,	Sprains,	Eruptions,
Rheumatism,	Strains,	Hoof Ail,
Burns,	Stitches,	Screw Worms,
Scalds,	Stiff Joints,	Swinney,
Stings,	Backache,	Saddle Galls,
Bites,	Galls,	Piles.
Bruises,	Sores,	
Bunions,	Spavin	
Corns,	Cracks.	

THIS GOOD OLD STAND-BY
accomplishes for everybody exactly what is claimed for it. One of the reasons for the great popularity of the Mustang Liniment is found in its **universal applicability.** Everybody needs such a medicine.
The Lumberman needs it in case of accident.
The Housewife needs it for general family use.
The Canaler needs it for his teams and his men.
The Mechanic needs it always on his work bench.
The Miner needs it in case of emergency.
The Pioneer needs it—can't get along without it.
The Farmer needs it in his house, his stable, and his stock yard.
The Steamboat man or the Boatman needs it in liberal supply afloat and ashore.
The Horse-fancier needs it—it is his best friend and safest reliance.
The Stock-grower needs it—it will save him thousands of dollars and a world of trouble.
The Railroad man needs it and will need it as long as his life is a round of accidents and dangers.
The Backwoodsman needs it. There is nothing like it as an antidote for the dangers to life, limb and comfort which surround the pioneer.
The Merchant needs it about his store among his employees. Accidents will happen, and when these come the Mustang Liniment is wanted at once.
Keep a Bottle in the House. 'Tis the best of economy.
Keep a Bottle in the Factory. Its immediate use in case of accident saves pain and loss of wages.
Keep a Bottle Always in the Stable for use when wanted.



Buy the Best AND SAVE MONEY.
It has been in constant use for 16 years, with a record equalled by none.
Warranted
not to blow down unless the Tower goes with it; or against any wind that does not disable substantial farm buildings; to be perfect; to outlast and do better work than any other mill made.
Manufacture both Pumping and Geared Mills and carry a full line of WIND MILL SUPPLIES. Send for catalogue and prices.
AGENTS WANTED.

Mishawaka, Indiana

For the Caswell News.

As Sculpture is to a Block of Marble, Education is to the Human Soul.

We pause a moment to compare mind with matter. On the one hand we have the black, uncouth mars of stone, known as marble; on the other hand the savage, as child of nature, and in his low estate, not better than the wild beast of the forest. In fact in some respects he is worse; with the lion, the tiger, the wolf and many other species, the male to some extent collects and prepares the food for the female and young. But how with the savage. The female is the one to bear the burden, to do the drudgery, to collect and prepare the food. But what has enlightenment done for her? It has raised the burden from her shoulders and elevated her to that position for which she was created, the bright star of home and companion of man. And on the other hand what has the sculpter done for the rough block of marble? By his touch he has changed the uncomely appearance of dead nature into ornamental and useful.

Take a stroll into the world amidst nature and art, visit with me the resting place of the sacred dead, the gilded marble palace and snow-white statuary of every design, and you will begin to comprehend the value and extent of the sculptors chisels. And again, just as the sculptor's chisels removes the rough from the crude marble, so does education polish and refine the human soul.

When education arose in ancient Greece and shed its morning rays upon the Italian shores, the sun of hope arose that has forever spread and grown the human soul into a lofty manhood and true womanhood.

It has dispelled the Jacobin's guillotine and prescription of blood, and taught the world better lessons of humanity. Apply education to the souls of men and we will have better humor, better bread, better clothes, better carriages and better everything; these and such as these are necessary to their growth and comfort, their respectability and their usefulness, as well as the productions of an educated people. Without means no man can be civilized or chjstianized, the savage will be in him till costume and equippage and elegance take it from him.

We need and the whole country needs more piety, more intelligence, more warmth and truth of heart, and more, far more of that tender joy of life that fills house, home and all creation with contentment and song, and the public with unity and brotherhood; but we will never have these things till we have more money to educate, better houses finer clothes, and better food. It requires time, patience and energy, to grow a human soul, as well as chisels, hammers and acids to carve and polish beautifully a rough piece of marble. What we want is full grown men and women, with great minds well stored, sounded and balanced. And to reach that end the mind must be drawn out and expanded into a full, rich thinking capacity.

Every great worker and thinker that history and time will let live, not only did something that touched the heart and improved the condition of mankind; but received his first impulse from education. It was the enlightened mind and inspired soul of Luther that planned a reformation and shook the paple throne of all Europe to its very centre, and improved the comforts of the laboring classes and taught mankind a cheaper, shorter and safer road to heaven. No education ought to go into the head, that does not afterwards come out in house or home or farm or shop or pulpit or bar or forum or in some place where man needs help. If we hear a great speech we ought to do better work for many days after. No sermon is good that is not preached all the next week in the work and toil of the congregation; no music is worth the playing that does not extract the pain of weariness, gives us fresh and large reinforcements of nerve power and makes us love more fervently either the player or some one else. Such are the great controling doctrines of the age, and such are the tendencies that sweep in vast resistless currents through all human affairs, lifting the soul from darkness to light, above the low groveling things of earth into a purer atmosphere where life is a treasure sublime. We want profound, original thinkers, men who can go where none have been before, but each and all must bring their workmanship with them, or they can have no place among those who are humored and crowded as kings and princes of time. Whatever presumes to shine as gold or silver are sapphires, must bear the test of touch, acids and flame or be scorned as an insult to an age too earnest for trifles.

The tendencies move onward and upward to a goal where hunger and want are not known, where hypocracy and deceit have no abiding place, and where beauty adorns nothing but the intrinsically beautiful, and goodness wears her own spotless robes of white.

ROSEBUD.

Mr. Blaine's "Free Chaw."

[Geo. M. Stearns to the Boston Tariff Reformers.

Fuel and warmth and food and clothing and comfort and health are the real necessaries, and things with which we should minister to the peoples benefit.

Talk about tobacco being a necessity of life. Look at that boy up there in the attic this cold night shivering in his rags, and wishing that blankets were not such a luxury, but contenting himself with the thought that his father is chewing an untaxed cud down there in the kitchen! [Great laughter and applause]. Think of that wife, with her little thin dress, longing for a shawl to wrap around her to protect her freezing form, compelled to console herself with the knowledge that her husband is smoking an untaxed cigar in the saloon! See that boy coming down Washington street, his legs the size of your thumb, carrying a can larger than his body, [laughter] sallow, pimpled, worn, lighting his cigarette at every street corner, and thanking God that we have such a statesman as Blaine to give us the necessary of life, an untaxed cigarette! [Loud laughter and applause]. I saw that one of these boys dropped dead in the street in New York from freely partaking of this elixir of life. [Laughter]. All this is worse than rot—it is wickedness and we mean to make use of this opportunity, this surplus, for better things. We mean a reform that shall sweep away useless taxation from coal and salt and sugar and lumber and wood and clothing—the grand necessaries of life. [Applause]. We mean a reform that shall give relief, not to the man who is chewing his untaxed cud in the saloon or smoking his untariffed pipe around a bar room fire; we mean a relief that shall stretch out to every cabin and every humble home, to every kitchen and chamber, to every table and every fireside.

How Boys Can Make Money.

Russell Sage's advice: "By (1) getting a position; (2) keeping his mouth shut; (3) observing; (4) being faithful; (5) making his employer think he would be lost in a fog without him; (6) to be polite. This is a good way for a young man to begin after he gets there. If he lives up to these rules he will not want a friend at court for any length of time—in fact, not at all."

Jay Gould's policy: "Keep out of bad company and go to work with a will. The boy who does that is bound to get on in the world."

Cyrus W. Field's scheme: "Punctuality, honesty and brevity," Mr. Field says, "are the watchwords of life."—Interviews in Washington Post.

Work on the Madison branch of the Cape Fear & Yadkin Valley R. R., from Stokesdale, commenced a few days ago.

The annual expenditure in the United States for intoxicating liquors equals 11-12 of the whole amount of our national currency, or 1-12 of this currency in amount passes through the till of the rum-seller every year. We spend more money for liquor than we do for bread and groceries and meats, more than we do for woolen and cotton goods, boots and shoes and all articles of clothing. The total spent for liquors is $750,000,000. If that sum was exually divided among the people it would give to each family of five persons two barrels of flour (20,000,000 barrels at $5 per barrel) $100,000,000; one suit of clothes for father at $20, $20,000,000; two common suits for father at $10, $40,000,000; every mother a silk dress at $20, $40,000,000; every mother two common dresses $5, $10,000,000; clothing for children, $50,000,000; shoes for all, $50,000,000; groceries for all, $200,000,000; hats, caps and bonnets, $50,000,000; rent for each family, at $12 per month or $144 per year, $144,000,000—making a total of $720,000,000, leaving $26,000,000 for comforts and luxuries, for recreation and contribution to the various charities, for church purposes, etc.

To Save Doctor's Bills.

Never go to bed with cold or damp feet.

Never lean with the back upon anything that is cold.

Never begin a journey until the breakfast has been eaten.

Never take warm drinks and then immediately go out into the cold.

After exercise of any kind never ride in an open carriage or near the window of a car for a moment; it is dangerous to health, or even life.

Never omit regular bathing, for unless the skin is in regular condition, the cold will close the pores and congestion or other diseases.

When hoarse speak as little as possible until the hoarseness is recovered from, else the voice may be permanently lost, or difficulties of the throat be produced.

Merely warm the back by the fire, and never continue keeping the back exposed to the heat after it has become comfortably warm. To do otherwise is debilitating.

Never stand still in cold weather especially after having taken a slight degree of exercise and always avoid standing on the ice or snow where a person is exposed to the cold widd.

When going from a warm atmosphere into a cooler one keep the mouth almost closed, so that the air may be warmed by its passage through the nose ere it reaches the lungs.

Keep the back, especially between the shoulder blades, well covered, also the chest well protected. In sleeping in a cold room establish the habit of breathing through the nose, and never with the open mouth.

Hints to Housekeepers.

Oil of lavender will drive away flies.

Carrots and turnips, if placed in layers in a box of sand, will keep for many weeks.

The best way to hang up a broom is to screw a large picture ring into the top of the handle.

Moisture is the greatest enemy of the piano, and it cannot be too carefully guarded against.

Never have dark furniture in the kitchen, it shows dust much more than light and requires double the care.

To stop the bleeding of a wound set a mass of woolen rags on fire and hold the afflicted part over them in the smoke.

A tea made of chestnut leaves and drank in the place of water is said to have cured many obstinate cases of dropsy.

A tea made of ripe or dried whortleberries and drank in the place of water is a speedy cure for many forms of scrofulous difficulties.

When laid away for any length of time, linen should be washed, rough dried without bluing and laid in loose folds without much weight on it.

A Belgian gardner contends that after trying the various special manfactured insecticides, he is convinced that tobacco juice in its different forms is still the best remedy.

Boiled potatoes ought to be laid on a plate and are then as good for frying or mashing as if they freshly cooked. Is left heaped up they will often spoil in one night.

A lump of soda laid upon the drain pipe down which the waste water passes will prevent the clogging of the pipe with greese, especially if the pipe is flooded every with boiling water.

Fish glue is not so generally appreciated in a household as it deserves. It will mend either furniture, glass or china, this last so well that the articles can be used constantly, if a little care be taken in the washing.

Prof. Tyndall has proved that atmospheric germs cannot pass thro' a layer of cotton, and is now said that preserved fruit may be kept in perfect condition by covering the jar with cotton batting. Putrefaction is caused by minute atmospheric germs. These are expelled by cooking, and the cotton batting prevents their return when the fruit cools.

A northern girl now living near Trenton, Tenn., takes her gun and goes afield and kills more game than any of the young men.

A Lady's Perfect Companion.

PAINLESS CHILDBIRTH, a new book by Dr. John H. Dyer, one of New York's most skillful physicians, shows that pain is not necessary in childbirth, but results from causes easily understood and overcome. It clearly proves that any woman may become a mother without suffering any pain whatever. It also tells how to overcome and prevent morning sickness swelled limbs, and all other evils attending pregnancy. It is reliable and highly endorsed by physicians everywhere as the wife's true private companion. Cut this out: it will save you great pain, and possibly your life. Send two-cent stamp for descriptive circulars, testimonials, and confidential letter sent in sealed envelope. Address FRANK THOMAS & CO., Publishers, Baltimore, Md.

We tell You Plainly

that Simmons Liver Regulator will rid you of Dyspepsia, Headache, Constipation and Biliousness.
