HEWN DOWN

Every tree that bringeth forth fruit is hewn down, and cast into the fire.—Matthew 7:15-20

Many of us are content with lives that are not bad. But they are not enough; they must be good.

In the East, trees are planted for their beauty, and not because they give shade.

THE RIGHT DOLLAR

Capt. Robt. Dollar, 88 years of age, says the world is "a fine place, if you want to work."

He has never feared work nor poverty. One he has made his friend and the other has been driven away.

WHAT PRICE WAR?

Nanking, China.—Hostilities with Japan in the Shanghai area have cost the Chinese 8,080 lives and \$400,000,000 in property loss.

His figures showed that 2,000 Chinese were wounded and 10,400 are missing.

Individuals directly affected by the warfare were numbered at 814,084, or 45 per cent of the total Chinese population of Shanghai.

Ten municipalities and 222 other schools were forced to close, affecting 39,000 students, the survey showed.

UNION CHAPEL

Three cheers for the little folks in the primary class. They defeated and captured the banner from the juniors Sunday, 56 points against 51.

These two classes were disappointed in not going on a picnic and Easter egg hunt Monday, but it was too bad for little folks to be out.

Mrs. Benn Mitchell of Wakefield spent part of the week with her son, Sterling, and family.

Mrs. Martha Mitchell and little son, Bobbie Ross, of Durham are spending this week with parents and grand parents.

Mr. and Mrs. Blanchard Gay of Paines spent Sunday with Mrs. Gay's parents, Mr. and Mrs. Arthur Ferrell.

We are sorry that Mrs. B. H. Phares continues to be sick but hope she will soon be well.

We sympathize with all those who suffered and lost through the wind storm of Sunday night.

THE GARDEN GOING

Twelve popular vegetables are in the spring garden and aid in cutting down the garden this year.

Get the garden going withstood now that are apparent. We are able publications used by those needing establishing a garden.

Beginning the garden of asparagus, beet, lettuce garden peas, pepper, radish, sweet and turnips.

Health. The best varieties are Chantenay and Danvers Half Long. The other plants mentioned are well known and are standbys in most gardens.

STATISTICS ON HOME CANNING

Approximately three million cans of food material were conserved by farm women of North Carolina in 1931.

This canning program last year was one of the most carefully planned efforts in which county home agents and other workers of the home demonstration department have ever engaged.

Mrs. McKimmon said the three million cans filled were reported largely from those counties where home agents are employed.

One other new method of attacking the problem was put into operation in 1931. A canning budget was worked out by the nutrition specialist, Miss Mary Thompson.

VICTORY CAMPAIGN

C. L. Shuping, of Greensboro, State chairman of the Democratic Victory Campaign, declared yesterday that progress thus far in the campaign is encouraging.

The nation-wide campaign was launched to raise funds for the Democratic party to pay off old obligations and set up a war chest for the approaching campaign.

Chairman Shuping said that since the drive was launched in North Carolina 315 contributors had donated \$7,253 to the campaign.

Mrs. Frank Castlebury, chairman of the Wake county campaign, said last night that full reports from precinct chairmen in Wake had not been completed as yet.

Every precinct in the county has been organized for the campaign and workers have been busy in its interests since the drive was officially launched about two weeks ago.

The recent freeze almost wiped out the best radish and garden pea crops of Eastern North Carolina.

day than when prosperity was at its height, she states.

The homemaker who turns to home baking as a means of balancing a reduced budget is heading in the right direction, Miss Stone stated.

Miss Stone gives the following "hints" to homemakers who wish to create baked articles of which they can be proud.

It is also easy to use and a great time-saver because it need be sifted but once and little stirring is required.

By using a high grade flour instead of low grade the housewife saves an appreciable amount in shortening, and by selecting self-rising flour instead of plain she saves the cost of baking powder.

TENANT FARMERS

ARE ADVANCING

In a recent study of self-help students at a Southern university it developed that the tenant farm homes of the state had furnished 220 of these aspiring young men, while all the factory worker's homes in the state had sent only 2.

This is a striking illustration of hope and enterprise which characterizes the South's white tenant farmers. They are on the way to better things. Thousands of them will take advantage of the present opportunity to buy lands cheap with long term payments and so will achieve homeownership in another generation.

Let no boy think that because he comes from a tenant farm he cannot win as great success as other boys.
