-COW FOR SALE-

ide Dress_ Don't give the

weevils a chance

100 LB. BAGS

AND

200 LB. BAGS

ALL any weevil asks is a chance—one chance.
Once he gets busy with a square, the boll is gone. Reports indicate enough weevils this year to ruin the crop, if they get a chance. Whether they get it or not, depends pretty

Weevils can't hurt a crop much, once the bolls are set. Because of the heavy infestation this year, set your crop as early as you can. Nothing takes the place of a Chilean Nitrate side-dressing for making an early crop. There is no way a little money could be better invested now than for 100 pounds (200 pounds would be

better) of Chilean Nitrate to side-dress each acre

Don't fail to specify Chilean Nitrate when

you see your dealer. That is just as important as side-dressing itself. Get busy! The weevils will be plenty busy soon.
