WANTED!
I am longing for someone to love and someone to love me. I want a companion for company, a middle-aged woman with no children—one who knows how to keep a house clean and prepare a nice dinner. I want a lady with a kind disposition. I lived with my first wife 45 years and didn't speak a cross word to her during that time. She never saw me under the influence of whiskey nor heard me utter a profane word. If any woman who reads this is interested in such a proposition I want to get in touch with her. The sooner the better. I am old enough for your father and young enough for your husband—just the right age to take care of a wife. I feel as young as I did when I was young. My friends tell me I have one of the prettiest homes in the county and I will leave it to you to be the judge. I am well fixed financially and able to take care of you.
Please address your letter to "LONESOME" Care Dispatch, Dunn, N. C.

Franklin—Plans made for relocation of Highway No. 28 west from here to foot of mountain.

You can't get away from the fact that

A SIX IS MORE ECONOMICAL

Thousands of tests and owner experience have confirmed THIS FACT: For lowest all-round motoring costs: SIX CYLINDERS. No more—No less!

With more you sacrifice Chevrolet's famous economy. With less you sacrifice the kind of maintenance cost that Chevrolet gives you—the lowest available.

Why not strike a happy balance between "too many" and "too few"? Do as the majority of car buyers have done: SAVE—with SIX CYLINDERS. The Chevrolet engine gives you wonderful gas and oil mileage! Because its smoothness is built-in—the body, chassis and engine are spared the repairs that result from inherent vibration!

STILL GOOD AFTER 15,000 MILES
And the Chevrolet Six stays young for—10,000, 15,000, 20,000 miles and more—carries on—smoothly, dependably, economically.

Moreover it has every modern feature you're entitled to: Free Wheeling, no car is up-to-date without it. And genuine Syncro-Mesh as originated by General Motors. And big, luxurious Fisher bodies. And four parallel mounted springs.

Remember that you can switch to a 1932 Chevrolet for very little money. In fact, you'll probably find it more economical to buy a new Chevrolet Six than to worry along with the old car.
