BABY ELEPHANT, HORSE AND GREAT DANE DOG BECOME CIRCUS PALS

If you have the pleasure of seeing the Barnett Brother's Circus this season, you will no doubt be surprised to see three great unusual pals that are constantly together from morning until night. Prince, a Canadian Great Dane Dog, who has won many cups and ribbons at various dog shows throughout the Dominion of Canada, and Snookie, a full grown horse, standing 34 inches in height and just one inch taller than his pal, Prince, Junie, the baby Elephant, and his pals present a unique and awe-inspiring display of almost human intelligence, consisting of various routines of dances, drills, poses, and other difficult execution rarely ever accomplished by animals.

The management of the circus has devoted a tremendous sum of money and time to secure the best trainers available to produce this act, which is the only one of its kind now before the public. This act is one of the feature animal acts of mixed groups and has no equal.

A special car which is provided to transport these three pals with trainers and attendants from town to town can only be seen with Barnett Bros. this year at Zebulon, on Monday, November 21, 1932.

Lots of men who attend the races can't win even a little sympathy.

THE PUBLIC should be prudent in seeking relief from pain. Take nothing which does not have the approval of the medical profession.

BAYER ASPIRIN will never do you any harm, and almost always brings the desired relief. But remember that the high medical endorsement given Bayer Aspirin does not apply to all tablets for relief of pain.

THE DOCTOR is careful to specify Bayer Aspirin for these important reasons:
It has no injurious ingredients. No coarse particles to irritate throat or stomach. Nothing to upset the system. Not even any disagreeable taste. The Bayer process insures a pure, uniform product.

INSIST on the tablet you know to be safe. And the one that has speed. Bayer tablets dissolve so quickly, you get immediate relief from your headache, neuralgia, or other pain.
