Wake County Farm Agent Advises Readers on Heat Exhaustion Care

High temperatures and the summer rush of farm work make it easy to be overcome by heat illness, cautions Grady Miller, county farm agent for the State College Extension Service.

Sunstroke, explains the agent, follows prolonged exposure to the sun, while heatstroke is caused by excessive heat with or without exposure to the sun. The effects are the same and either may be fatal. The symptoms are hot and dry skin, face red and flushed, breathing hard and loud, and pupils enlarged. Unconsciousness may follow in severe cases.

No Stimulants

Prevention is better than cure, says the county agent, but you should know what to do if heat illness does occur. Here is what the National Safety Council suggests for sunstroke or heatstroke:

Move to a cool, shady place, strip to the underclothes, lay patient on back with head and shoulders raised.

Apply ice or cold wet cloth to head, cool the body gradually with

cool bath or with a hose or wet the clothes and rub the limbs toward the heart.

After treating for several minutes, stop and observe patient. If skin becomes hot again, resume treatment.

Things to Do

If patient is unconscious, give him cool (but not iced-cold) drinks. Do not give stimulants.

Get the patient to a doctor or a hospital as soon as possible. Continue the treatment in the ambulance.

To avoid confusion, remember this rule: If the patient is cold, make him warm; if he's hot, make him cool.

On Georgia Market

Mr. and Mrs. C. G. Weathersby and Charles left this week for Tifton, Ga., where Mr. Weathersby will resume his work on the Tifton tobacco market. They will be there during the entire season, returning when the Eastern Carolina market opens.

Wakefield Still Leading League

Wakefield's league-leading softball team, which had not lost a ball game all year, met the cellar-dwelling National Guard nine, who had not won a game all year, and the league leaders came off second best, dropping a close 10-8 game to the Guardsmen. Baxter Hopkins, third baseman, led the winners at bat and afield. Manager Dexter Stell led Wakefield at bat.

In the game played Friday night prior to the Wakefield-Guard play the Zebulon Teen-Agers, managed by Leonard Lewis, played a 15-15 tie with the Zebulon All-Stars, managed by Clayton Whitley. The free-hitting contest had time called at the end of the regulation distance with the score tied.

Weekly Schedule

Tonight the undefeated Wakefield Teen-Agers meet the Zebulon Teen-Agers in the opening game,

and the Lions Club meets Pilot in the second contest.

Tomorrow night the Legion nine will meet Pilot in the first game with third place at stake, and in the second game Wakefield and Pearce will play for the league lead.

Thursday night Wakefield will play the National Guard and the Lions Club will play the Legion.

Softball Standings

| | W | L | Pct. |
|----------------|---|---|------|
| Wakefield | 4 | 1 | .800 |
| Pearce | 4 | 2 | .667 |
| Pilot | 3 | 2 | .600 |
| Legion | 2 | 3 | .400 |
| Lions | 2 | 4 | .333 |
| National Guard | 1 | 4 | .200 |

| | W | L | Pct. |
|---------------------|---|---|-------|
| Wakefield Teenagers | 2 | 0 | 1.000 |
| Zebulon Teenagers | 0 | 1 | .000 |
| Zebulon All-Stars | 0 | 1 | .000 |

Local Recreation To Be Broadened To Help Children

New play areas located behind the bleachers at Wakelon School will be open to children and adults this week, according to Carlton Mitchell, chairman of the community Council. The parking areas have been roped off to keep the play areas clear and facilities added for more games.

Additional lights for the play areas will be installed this week, and horseshoes, badminton, and volleyball will be played each evening while the softball games are in progress.

A sandbox has been completed for the children and beginning this week, work in arts and crafts will be conducted each morning.

Jungle Gym

A jungle gym and slide have been given to the school by the Woodmen of the World, and will be installed for use on the playground in a short time.

The concession stand will be operated this week by the Lions Club. Last week the Rotarians managed the stand; and next week the Woodmen of the World will work in it.

Profits from the stand are given to the recreation program. Each week a different civic organization provides the personnel to operate the concession.

Wake Agent Names July's Plentiful Foods

The U. S. Department of Agriculture's list of plentiful foods for July features broilers and fryers, Mrs. Maude McInnes, county home agent for the State College Extension Service, reported this week.

Fruits and vegetables on the list for the month include Irish potatoes, locally grown vegetables, watermelons, peaches, plums, lemons, limes, and canned applesauce.

Other foods listed are honey, canned citrus juices, fish, cottage cheese, buttermilk, and peanut butter.

Ten Southern states probably will have a combined peach crop of 17,317,000 bushels this year, USDA crop reports indicate. Last year, production in these states totaled only 6,103,000 bushels. In South Carolina alone, the 1951 peach harvest is estimated at 6,240,000 bushels. Georgia's crop is placed at 4,410,000 bushels, and North Carolina will harvest approximately 2,772,000 bushels, the home agent said.

The California lemon crop this season is the largest in four years. Florida's crop of limes is estimated at 280,000 boxes for this year, against 260,000 boxes last year.

NOW IN ZEBULON

Mrs. Lucy Hopkins is at the home of her son, Willie B. Hopkins. She has suffered several strokes and is quite helpless.

RECEIPTS UP

Postmaster M. J. Sexton announced yesterday that postal receipts for the Zebulon postoffice during the first six months of 1951 showed a gain of 17 1-2 percent over the first six months of 1950.

VIC VET SAYS:

DON'T FORGET THE JULY 25 CUT-OFF DATE FOR STARTING GI TRAINING WHEN YOU MAKE YOUR PLANS TO GO TO SCHOOL...THE DATE IS ONLY A FEW WEEKS AWAY

Baptists Planning Parochial School

Homecoming Day for the Zebulon Baptist Church will be held on September 16, with former members and pastors being invited to join with the local church members in a dinner on the grounds. Plans for the homecoming were approved at a conference held in the sanctuary of the church following the evening service Sunday.

Members of the church voted to establish a day school kindergarten for children of this community, to prepare them for first grade work in the public schools. Classes will be held for children five years old.

A permanent committee to supervise the work of the kindergarten will be appointed in time to organize the school for this fall. The work will not overlap that done in the first grades of the public schools.

Philip Massey Moves FCX to New Quarters

Philip Massey's FCX Store is being moved this week to its new quarters in the old Millard Chamblee Stables on Vance Street between Zebulon Supply Company and American Plumbing and Electrical Supply Company. Although the moving is going on all this week, Mr. Massey is keeping his business open to serve his customers.

The new store will be out of the ordinary in that customers can drive inside it for loading and unloading. This will be of great help to farmers during bad weather.

D. D. Chamblee, who has his insurance office in the FCX Store, will move to the new quarters late this week.

Bob Dawson Assumes Presidency Of Local Rotary Club Last Friday

Robert Dawson, newly-elected president of the Zebulon Rotary Club, gave his inaugural address at the regular meeting of the group last Friday night following the installation of the new officers by Ralph Talton, who charged the new officers with the importance of their duties.

Following his talk, in which he emphasized the importance of committee work, Robert named members on the four chief committees,

War on Rodents To Be Conducted By Health Officers

An intensive campaign to rid Zebulon of rats and mice will be conducted by the Wake County Health Department, beginning with a survey of all homes and businesses this week to determine the infestation of the premises by rodents. Poison will be used against the rats and mice will be Warfarin, a new and powerful rodent killer.

Making the survey this week are Alec Wilson and Clyde Bryan. They will interview home and business owners as to the number of rats and mice on the premises, source of water supply, and sewage disposal.

According to H. E. Woodard of the County Health Department, the health department is interested in rodent control because of the disease germs carried by rats and mice.

Warfarin, also known as Compound No. 42, provides a new and workable approach to rodent control and possible extermination of rodents in farm communities and farm homes. It can be obtained from the Wake County Health Department at 20c per pound.

Get it Cheaper

Warfarin poison is being sold on a well-known radio program unmixed for \$2.98. When directions are followed, five pounds of poisoned mixture can be made at a cost of approximately \$5.00. Mr. Woodard emphasized that this same amount of the identical poison can be bought ready-mixed from the Health Department for \$1.00.

The Health Department recommends one pound of warfarin mix for home and two pounds or more for farms.

A sheet of instructions is given to home owners by the two interviewers as they make the calls this week. When instructions are carefully followed, the Warfarin poison is sure to kill all rats and mice on the home or farm.

Last Rites Are Held For R. L. Strother

Raymond L. Strother, 74, died Saturday night following several months of ill health.

Surviving are four brothers, H. W. of Norfolk, Va., F. G. of Atlanta, Ga., O. F. of Lenoir and W. O. Strother of Raleigh; two sisters, Mrs. George Howard of Raleigh and Mrs. Paul Smith of Atlanta.

Funeral services were held from Hopkins Chapel Church Sunday at 3 p. m., conducted by the Rev. Fred Crisp, pastor. Burial was in the church cemetery.
