### Use Small Quantities

3. Freeze fresh fruits and vegetables in small quantities. Fresh vegetables lost much of their color, flavor, and nutritive value when allowed to remain at room temperature for more than a short time. Peeled fresh fruits, such as peaches, pears, etc., discolor rapidly when exposed to the air. So for best results, it is essential to work quickly and prepare only a small amount at a time.

4. Cook foods quickly. So not when preparing overcooking foods for freezing. Cool food quickly by partially submerging or floating tray containing food in cold running tap water or ice water. To complete cooling place tray on shelf in the household refrigerator.

### President's Statement

Mr. Wall issued the following statement to members of the Zebulon Chamber of Commerce and other residents of this area:

"Certain organizations are vital factors in the growth and development of a healthy economy. The chain reaction of seasonal depressions, sluggish market conditions, and lax trading may often be averted by wide-awake, energetic membership and leadership, welded together in a group whose aim it is to forestall such occurrences. With the election of new officers to the Zebulon Chamber of Commerce it seems an apt time to revert to the basic principles laid down by the 'founding fathers' of the Chamber.

"When a tradesman has a legitimate and attractive bargain to offer the general public one of the tried and proven roads to success resulting in benefit to both buyer and seller is successful promotion of the tendered value. A community reflects the success of its salesmanship from the health of its economic condition. Failure to sell a town may result in attendant failure to sell its product.

### This Is a Good Town

"Zebulon is a good town. It is conditions and without filled with the solid opportunity for a citizen to get his 'money's worth.' Its main street lies in the heart of the richest agricultural section of Wake County, and broad highways invite more than 10,000 people to its limits Proving it every day is the self-appointed task of the Chamber of Commerce.
