DIFFERENCE

We honestly believe that there has never been such a difference between low-priced cars as there is today. Driving them will quickly show you that it isn't even fair to compare other low-priced cars with the Motoramic Chevrolet. Driving will show you that Chevrolet is actually stealing the thunder from the *high-priced* cars. So won't you come in and try out a new Chevrolet? We'll rest our case on what the car itself can tell you.
