at

LAKE DONNA**Now in France**

Pvt. Wayne L. Duke, son of Mr. and Mrs. Millard Duke, of Zebulon, Route 4, recently completed the study required by the Wheel Vehicle Mechanic Course, and was awarded his diploma at 516th Airborne Infantry Regiment, 101st Airborne Infantry Division, at Ft. Jackson, S. C., after taking his basic training at Camp Gordon, Ga.

He is now stationed over seas in a Motor Pool with the 42nd Field Hospital at Verdun, France, near Paris.

He entered the U. S. Army in September, 1954.

His wife, the former Jeanette Pearce, has arrived in France to live with him while there.

**HINTS TO
Homemakers**BY RUTH CURRENT
STATE HOME DEMONSTRATION AGENT**GOOD BUTTERMILK RECIPES**

—Buttermilk muffins can be made in half an hour and they are a quick bread all members of the family will like. Use 1 cup enriched flour, $\frac{3}{4}$ teaspoon soda, 1 teaspoon each of salt and baking powder, 1 cup enriched corn meal, $\frac{1}{4}$ cup melted shortening or bacon drippings, 2 tablespoons sugar, two eggs well beaten and $1\frac{1}{2}$ cups sour or buttermilk. Sift enriched flour with baking soda, salt and baking powder. Mix with enriched corn meal. Combine bacon fat, sugar, eggs. Add sour or buttermilk and combine with dry ingredients. Beat only until smooth. Fill well greased muffin tins two-thirds full. Bake in hot oven (435 degrees F.) 15 to 20 minutes. Makes 12 to 15 servings.

Buttermilk sherbet as a cool, refreshing dessert for the family on a hot summer day. Ingredients: 2 cups buttermilk, $\frac{2}{3}$ cup sugar, 1 cup crushed pineapple (drained), 1 teaspoonful vanilla and $\frac{1}{8}$ teaspoon salt. Mix buttermilk with all other ingredients. Freeze quickly to a mush. Turn into a bowl and beat with egg beater. Return to tray and complete freezing.

COOKING WITH MILK — When you are cooking with milk, be careful not to let it boil. Milk scorches easily so you may want to use a double boiler. People

who do not like the taste of plain milk usually like it combined with other foods in cooked dishes.

Milk is so high in food value that it is considered a food rather than just a beverage.
