JOHN M. OGLESBY, City Editor.

CONCORD, N. C., JUNE 27, 1910

Bob Phillips, of the Greensboro News, says: "Whichard can take care of his hair all right, but if Cowan doesn't quit putting a 't' in his name and making it Whitehard, we fear President Shipman will have to appoint a peace commission." Oh, we don't know. What's in a name? And perhaps, we were justified in putting it in his name, because we couldn't put anything save tea in him when he was at the convention. Whichard we mean. Not Phillips.—Wilmington Dispatch.

This is indeed the "most unkindest cut of all," and if Phillips does his duty Cowan will be called on to defend a libel suit while he is prosecuting the one brought against Whichard.

It looks very much like there will be a long drawn out fight at Gastonia July 7th over the solicitorship. There are 240 votes in the convention, and the highest candidate has only 73. With such a condition no one can foretell the result, as the lowest man may win. We are not a prophet, nor the son of one, but we venture the prediction that the nominee will not begin the spelling of his name with an "S."

**Congress Finished Work and Adjourned Sine Die.**

The second session of the Sixty-first Congress came to a close at 11 o'clock Saturday night, both bodies adjourning at that hour until the first Monday in December, in accordance with a resolution adopted earlier in the day.

It marked the conclusion of one of the most active Congresses in recent years. Although two months ago it did not appear that the administration would have established any considerable record of legislative enactment, since then a great change in the situation on Capitol Hill occurred. Congress adjourned with practically all of the big measures advocated by the President enacted into law.

President Taft walked out of the capitol at 11 o'clock Saturday night smiling.

He had signed practically all matters of legislation that had been placed before him. He received congratulations from his cabinet and from members of both branches of Congress upon the successful passage of most of his pet measures. Mr. Taft shook hands with all around and continued to smile.

**Roosevelt Will Re-Enter Politics.**

Politically Sagamore Hill is going to be the busiest spot in the United States during the next two months. Conferences have been arranged by Mr. Roosevelt with political leaders from every section of the country.

"mer for him," was the comment of Mr. Roosevelt, "was the comment of Roosevelt's brother-in-law, Rear Admiral S. Cowles.

"Mr. Roosevelt is not suffering from throat trouble," he added, "and Dr. Alexander Eamert has not been called to Sagamore Hill. Mr. Roosevelt had some trouble with his throat in London and was treated by King George's physician."

**Steel Trust Wants Cuts.**

The United States Steel Corporation at Gary, Ill., wants fifty cents and will pay 50 cents apiece for them.

The demand for cuts is due to a peculiar incident. For many months the company has been pestered by rodents and every known form of poison and traps has been tried without success.

The final blow came when several rats got tangled up in one of the great dynamos which give power to the blast furnace mill. This tied the work up for four hours and resulted in the loss of \$10,000.

Gary was hunted in vain for stray rats, and as a last resort an advertisement was inserted in a Gary paper.

Foley's Kidney Remedy may be given to children with admirable results. It does away with bed wetting, and is also recommended for use after measles and scarlet fever. Cabarrus Drug Co.

## HOW TO CURE RHEUMATISM.

It Is An Internal Disease And Requires An Internal Remedy.

The cause of rheumatism and kindred diseases is an excess of uric acid in the blood. To cure this terrible disease this acid must be expelled and the system so regulated that no more acid will be formed in excessive quantities. Rheumatism is an internal disease and requires an internal remedy.

Science has at last discovered a perfect and complete cure, which is called "Rheumacide." Tested in hundreds of cases, it has affected the most marvelous cures; we believe it will cure you. Rheumacide "gets at the joints from the inside," sweeps the poisons out of the system, tones up the stomach, regulates the liver and kidneys and makes you well all over. Rheumacide "strikes the root of the disease and removes its cause."

This splendid remedy is sold by druggists and dealers generally at 50c and \$1 a bottle. In tablet form at 25c and 50c a package. Get a bottle today. Booklet free if you write to Robbitt Chemical Co., Baltimore, Md.

**Pair of Shears Free.**

To every subscriber of The Concord Daily Tribune who pays a full year in advance we will give free a pair of our 8-inch Spring Tension Shears. We have given away over 1200 pairs of these shears to subscribers of The Times, and have never had a complaint about them. They sell everywhere for from 50 to 75 cents a pair.

"I suppose you and your wife share everything?"  
"No. She insists that I have all the faults."—Detroit Free Press.

**Home News Away from Home.**

Concord people who leave the city, either for a short or long stay—whether they go to mountain or seashore—should not fail to order The Daily Tribune sent to them by mail at 40 cents a month. It will come regularly, and the addresses will be changed as often as desired. It is the home news you will want while away from home.

## THE CONJURER CONFESSES.

He Is Deliberate in Action Thus Producing Deceptive Effects.

That "the hand is quicker than the eye" is one of those accepted sayings invented by some one who knew nothing of conjuring—or, as is more likely, by some cunning conjurer who aimed still further to hoodwink a gullible public. The fact is that the best conjurer seldom makes a rapid motion, for that attracts attention, even though it be not understood. The true artist in this line is deliberate in every movement, and it is mainly by his actions that he leads his audience to look not where they ought, but in an entirely different direction.

Mr. David Devant, who for a number of consecutive years has entertained London with his ingenious tricks, has said: "The conjurer must be an actor. By the expression of his face, by his gestures, by the tone of his voice, in short, by his acting, he must produce his effects."

**Women as Mayors.**

America had women as mayors before England, Australia or even New Zealand. In the four States where women have full suffrage it is not rare for women to be elected as mayors in small cities and give good service. A woman was mayor of Gaylor, Kan., for two terms and declined a third election. She prided herself on the fact that more miles of sidewalk were laid in her administration than in that of any previous mayor. Her husband always expressed himself as pleased that she should hold the office, and even her worst enemies never said that she neglected her children or the duties of her household. The office kept her busy about an hour each day.

**Japanese Story Tellers.**

The professional story teller is a good deal of an artist in his way. He knows how to select or originate short, popular tales, and how to relate them in dramatic fashion. The lowest class of story tellers you will find seated on the street-corners with a crowd of coolies around them. The higher class are formed into guilds, and these are hired to go to private parties to amuse the guests. Sometimes they will be in demand at two or three houses in one evening, thus picking up several dollars. Unless he can earn his living by his recitals, the teller cannot become a member of the guild. Translations from English tales are now extremely popular with the Japanese.

**Kipling His Own Critic.**

"I was sitting with Kipling in his garden at Rottlingdean when a street organ struck up 'The Absent Minded Beggar.' Kipling was silent one moment, and then he said, 'If it was not suicide I would kill the man who wrote that.'" This interesting revelation was made by the Rev. J. C. Harris, pastor of Kingston Congregational Church, in a lecture on Kipling. It was hard to believe, he said, that the man who could write "The Recessional" could descend to the level of "Pay! Pay! Pay!" No man was more keenly alive to his own blunders than Kipling.

**The French Schoolboy's Hard Day.**

French children are often on their way to school a little after 7 o'clock in the morning. If they have concluded their lessons by 9 o'clock in the evening it is only by dint of great application. Young men studying for the higher professions have appointments with their tutors at 5 o'clock in the morning in summer time; otherwise they cannot accomplish the mountain of work that lies before them. In all branches of art the labor of the tyro is immense. At the Conservatoire the strenuous life is carried to a point which provokes the astonishment even of laborious German students.

**Special Stomach for Specifics.**

Royal households receive all manner of beautiful and curious gifts, many of which are not accepted. When the Prince and Princess of Wales were about to start on a tour round the world, all sorts of antidotes for seasickness were received. One druggist sent hundreds of anti-seasick powders, one of which was to be taken every day while at sea. The prince said, "If this fellow expects me to take all these special powders, he should have sent along a special stomach as well."

**Swift-Flying Pigeons.**

B. A. Fogg, of Hunt's Mills, Me., tells of a pair of pigeons with a record of flying from Minneapolis to Boston in fifty hours without taking a morsel of food on the trip. For the last thousand miles they flew in the teeth of a fierce snowstorm. He has another pair of the same breed as those that flew from the balloon of Andre, the Swedish north pole explorer, and several pairs that can make nearly a mile a minute.

**A Substitute for Work.**

"Physical culture, father, is perfectly lovely!" exclaimed an enthusiastic young miss just home from college. "Look! To develop the arms I grasp the rod by one end and move it slowly from right to left."

"Well, well!" exclaimed her father; "what won't science discover! If that rod had straw at the other end you'd be sweeping."

**The Wise Husband.**

Bronson—I've just given \$100 for this diamond ring for my wife.  
Woodson—It's a beauty! But isn't it rather—er—extravagant?  
Bronson—Not a bit. Think what it will save in divorce!

## Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

"There are 16,000 empty houses in London."  
"I'm mighty glad we don't live there, then. My wife couldn't get through more than half of them at moving time—at least not without a strain that would be bad for her."—Chicago Record-Herald.

**Glad to Recommend Them.**

Mr. E. Weakley, Kokomo, Ind., says: "After taking Foley's Kidney Pills, the severe backache left me, my kidneys became stronger, the secretions natural and my bladder no longer pained me. I am glad to recommend Foley's Kidney Pills." In a yellow package. Cabarrus Drug Co.

**What a Summer Cold May Do.**

A summer cold if neglected is just as apt to develop into bronchitis or pneumonia as at any other season. Do not neglect it. Take Foley's Honey and Tar promptly. It loosens the cough, soothes and heals the inflamed air passages, and expels the cold in the system. Cabarrus Drug Co.

She—So many men nowadays carry for money. You wouldn't marry me for money, would you, dearest?

He (absently)—No, darling, I wouldn't marry you for all the money in the world.

She—Oh, you horrid, horrid wretch!—Boston Transcript.

## USED UNIVERSALLY

### CORTRIGHT METAL SHINGLES

WHEN Cortright Metal Shingles were first introduced (24 years ago) you had some excuse for being sceptical: But now— If you are sceptical it can only be because you do not know the facts in the case. They are used today from the Atlantic to the Pacific for all kinds of buildings, under all conditions. They are fireproof, stormproof; never leak and last as long as the building itself without needing repairs. For further detailed information apply to
