One Month25
Six Months \$1.50
Twelve Months \$3.00

JOHN M. OGLESBY, City Editor.
CONCORD, N. C., JUNE 29, 1910

According to the Winston-Salem Sentinel, the Republicans of the Fifth District are talking about nominating District Attorney Holton for Congress if Morehead will not stand for renomination. The fifth district is normally Democratic by several thousand votes, and we do not believe it will ever go Republican again. We believe, however, that Mr. Holton would stand more chances of election than any other Republican, except Morehead, not because he is stronger with the people but because he is a politician of the slicker sort.

The announcement has been made that the census bureau at Washington will shortly begin to give out the figures, and that the population of the larger cities will be given first. Concord, of course, has its ears to the ground ready for the first announcements.

Arizona and New Mexico.
Kansas City Star.
Arizona and New Mexico, which have just admitted to the Union, will rank among the largest states in size and the smallest in population. Arizona has 113,000 square miles and New Mexico 123,000. Each is about one-half larger than Kansas and is exceeded in size only by Texas, with 266,000 square miles, California with 158,000 and Montana with 146,000. Each of them is 300 miles long—about the same length as Kansas. Arizona is 335 miles wide, while New Mexico is 350.

According to the census of 1900 there were only two states of smaller population than Arizona and four states below New Mexico had 195,000 inhabitants, Delaware 184,000, Idaho 161,000, Arizona, Wyoming 92,000, Nevada 42,000. Arizona had a smaller population in 1900 than Kansas City Mo., while New Mexico had fewer than Greater Kansas City. If they have continued to grow in the last decade at the same rate they showed from 1890 to 1900 neither of them is as large today as that part of Kansas City which lies in Missouri, through each of them will be entitled to two United States senators.
However, this sort of discrepancy has become familiar through the case of Nevada, which casts less than half as many votes as Kansas, City.
There is always danger of sparsely populated states falling into the control of privilege-seeking corporations. Here's hoping that Arizona and New Mexico, when admitted, may avoid this danger; and they may preserve self-government and that they may live long and prosper!

The True Function of a Public School.
Winston Sentinel.
It has always seemed to us that the function of a public school is to afford thorough instruction along elementary lines for those who do not intend to go to college and thorough preparation for a college course for those who do. We believe there has sometimes been a tendency to try to crowd too many different studies into public school courses at the expense of thoroughness in the fundamental branches that every public school, of course, is expected to teach. There seems to be at present an encouraging tendency in this State to make a charge along this line and to pay more attention to fundamentals and to teach thoroughly what is taught rather than to try to teach as many subjects as possible, some of which properly only in a college course.

The Harness Has Not Yet Been Made.
Charlotte Chronicle.
Concord is looking forward to taking a street car ride in celebration of the Fourth of July. The track is there from the depot to the factory, but the harness has not yet been adjusted to the cars.
Colonel Roosevelt, according to report, will meet President Taft and Governor Hughes in conference this week.

HUNGRY FACES, IDLE MILLS.

How Southern Mill Men View the Idea of Voting for a Republican to Represent Them.
Lexington Dispatch.

Congressman Morehead of the fifth district has been writing letters to citizens of the ninth district, using his frank, it is said, to send the letters, which is unlawful, to get them to vote for McNinch, the democrat who has turned republican and been nominated for congress. Two cotton mill men got letters from him and their answers will be read with interest by the laboring men of Lexington and other mill towns, who know what it means to have no work or half work in these times of high prices and scarce money under a robber tariff and republican rule.

J. M. Brothers, secretary and treasurer of the Radisill Manufacturing Company, a cotton mill firm, of Lincoln, writes:
Hon. Jas. M. Morehead,
Washington, D. C.
Dear Sir:—I have your favor asking me to support McNinch, of Charlotte, for congress in the coming campaign. Your letter is couched in courteous language and deserves a courteous reply, but I must say that I cannot see for the "life of me" why any man of intelligence would support a republican for congress this coming election of all elections.
With spindles and looms standing idle and thousands of working men out of employment, and nearly all the manufacturing industries losing money for three years or more under a protective tariff and a republican administration, there is nothing to lead us nearer to but much to drive us further from the support of any republican to represent this section in congress.

It is my opinion (asking your pardon for saying it) that Mr. Webb will be elected by a larger majority than ever.

Mr. S. N. Lattimore, secretary and treasurer of the Buffalo Manufacturing Company, of Stubbs, Cleveland county, wrote Congressman Morehead as follows:
Your circular letter advocating the election of Mr. S. S. McNinch for congress from the 9th congressional district has been received. I have ample and abundant opportunity to answer at this juncture. In fact I have nothing else to do. I ought to be busily engaged in my cotton mill and am deeply troubled over my enforced idleness not only for myself, but for a large number of men, women and children who like myself are dependent upon the textile industry for our support. The cotton mill for which I am secretary and treasurer has been standing idle for six weeks with a large accumulation of stocks yarn on hand for which I am unable to find a living market. Since 1907 we have faced unprecedented dullness, the financial and physical suffering has been fierce.

I have always heard from republican orators that the democrats were responsible for the hard times of 1893 and applying this same reason how can your party escape the charge of responsibility for the evil hours that now apparently overwhelm us?
"All of which being applied," means to convey the accurate information that I am for the Honorable E. Y. Webb for congress and shall do all I can in every honorable way to increase his accustomed majority."

Deafness Cannot be Cured.
By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
F. J. CHENEY & CO.,
Toledo, O.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

Western Kansas Needs Men.
There is an unusually large demand for harvest hands in the Western half of Kansas this year because of heavy yields of wheat in many sections. Farmers are paying \$2.50 to 3.50 a day for men, and \$4.50 to \$5.00 for men with teams. The banner wheat county in Kansas this year is Rush, where 4 million bushels are expected.

The Conservation of Nature's Resources.
Applies as well to our physical state as to material things. C. J. Budlong, Washington, R. I. realized his condition, and took warning before it was too late. He says: "I suffered severely from kidney trouble, the disease being hereditary in our family. I have taken four bottles of Foley's Kidney Remedy, and now consider myself thoroughly cured. This should be a warning to all not to neglect taking Foley's Kidney Remedy until it is too late." Cabarrus Drug Co. Concord.
Large buildings are not erected on narrow foundations.

Block System on Southern

The bulletin just issued by the Interstate Commerce Commission giving the mileage of railways in the United States operated by the block system on January 1, 1910, shows that 2,080.1 miles of track of the Southern Railway, constituting 30 per cent of the entire mileage of the system, is now equipped with this safety appliance. Included in this is the entire main line from Washington to Atlanta and on to Birmingham. The line from Bristol to Chattanooga, that from Chattanooga to Atlanta and Macon, and other important sections. In the entire United States there are only seven railway systems with a greater mileage so operated than has the Southern. No other railway in the South operates anything like so large a mileage with the block system.
The system in use on the Southern Railway is what is known as the "telegraph block." Suitable semaphore signals are erected at intervals of about five miles along the road to guide the engineman in the control of his train. The space between these signals is called a block and two passenger trains are under no circumstances permitted in a single block at the same time.

HOW TO CURE RHEUMATISM.

It Is An Internal Disease And Requires An Internal Remedy.
The cause of rheumatism and kindred diseases is an excess of uric acid in the blood. To cure this terrible disease this acid must be expelled and the system so regulated that no more acid will be formed in excessive quantities. Rheumatism is an internal disease and requires an internal remedy. Rubbing with oils and liniments will not cure, affords only temporary relief at best, causes you to delay the proper treatment, and allows the malady to get a deeper hold on you. Liniments may ease pain, but they will no more cure Rheumatism than paint will change the fiber of rotten wood.

Science has at last discovered a perfect and complete cure, which is called "Rheumacide." Tested in hundreds of cases, it has affected the most marvelous cures; we believe it will cure you. Rheumacide "gets at the joints from the inside," sweeps the poisons out of the system, tones up the stomach, regulates the liver and kidneys and makes you well all over. Rheumacide "strikes the root of the disease and removes its cause." This splendid remedy is sold by druggists and dealers generally at 50c and \$1 a bottle. In tablet form at 25c and 50c a package. Get a bottle today. Booklet free if you write to Bobbitt Chemical Co., Baltimore, Md.
For sale by Gibson Drug Store, Concord, N. C.

Miss Helen Keller, the blind girl, whose intellectual achievements have made her name familiar through the English speaking world, received many congratulations and good wishes yesterday on her thirtieth birthday. Though unable to speak, to see or hear, Miss Keller completed a four years' course at Radcliff college and is remarkable well versed in all the high branches of learning.

Glad to Recommend Them.
Mr. E. Weakley, Kokomo, Ind., says: "After taking Foley's Kidney Pills, the severe backache left me, my kidneys became stronger, the secretions natural and my bladder no longer pained me. I am glad to recommend Foley's Kidney Pills." In a yellow package. Cabarrus Drug Co.

A woman usually loves her so-called rivals about as much as a barber loves safety razors.
Stops earache in two minutes, toothache or pain or burn or scald in five minutes; hoarseness, one hour; muscleache, two hours; sore throat, twelve hours—Dr. Thomas' Electric Oil, monarch over pain. At drug stores.

To prove its great value as a hair beautifier we want to give you, together with our book about the hair, a regular 25c. bottle of

Woodbury's COMBINATION Hair Tonic

Simply fill out the coupon and mail it to-day (enclose ten cents to show good faith), and this bottle will be delivered to you free. Answer the questions on the coupon and a Woodbury Company Specialist will write you a letter telling you what to do if you want abundant, glossy, beautiful hair. Woodbury's Combination Hair Tonic is not a new preparation. Neither is it an experiment. It has been used by the Specialists at the famous Woodbury's Institute for over a third of a century.

If you don't see Woodbury's Face on the label, it's an imitation.

Nearly forty years' experience and reputation stand back of every bottle. It is totally different from anything you have ever tried. Its principal nature is to beautify the hair and promote its healthy growth. It prevents the hair from falling out, stops itching of the scalp, and removes dandruff. The trial will convince you.

Users of Woodbury's Preparations are privileged to write to the specialists at 47 W. 34th St., N. Y., for information about the care of their hair and for advice regarding the treatment of the complexion.
The Woodbury Company 47 West 34th Street, New York.
Please send me free trial bottle of Woodbury's Hair Tonic.
