

TWO NEW OFFICERS APPOINTED BY THE ALDERMEN THURSDAY

Charlie N. Fields is Named Tax Collector and J. Lee Crowell, Jr., is Made Attorney for the City.

OTHER OFFICERS WERE REELECTED

With Exception of City Engineer, This Office to Be Filled Later.—Mrs. Ross Named on Library Board.

Several changes in the personnel of city office holders followed the meeting of the aldermen at the city hall Thursday night.

Mr. N. Fields and J. Lee Crowell, Jr., were the new city officers chosen by the board.

Mrs. L. D. Coltrane and Mrs. Laura Leslie Ross were chosen as trustees of the Concord Public Library.

Frank Mund was re-elected city building inspector and Dr. T. N. Spencer was re-elected milk and food inspector for the city.

The board members did not decide fully at the meeting just what they will do about appointing a city engineer.

It has also been rumored that the board instead of appointing an engineer for whole time work, will follow a policy of appointing a part-time engineer.

It is understood that Mr. Crowell will succeed Mr. Caldwell as city attorney on the 15th of this month.

Mr. Caldwell has been city attorney for a number of years and made a very efficient officer.

ERIE CANAL CENTENNIAL

Plans for a Suitable Centennial in Honor of the Completion.

The Erie canal, originally known as the Great Western canal, or "Clinton's Ditch," was opened simultaneously with the connecting of the Champlain canal with the Hudson River.

The father of this stupendous enterprise was De Witt Clinton, who agitated the subject before the War of 1812.

It had been Clinton's ambition to become President of the United States, and this ambition seemed not unlikely at one time to be realized.

His public energy had been so pronounced and beneficial, however, that he had acquired a great personal popularity.

Chief among all his efforts in this line was his policy for the construction of canals from Lakes Erie and Champlain to the tidewater of the Hudson.

At the beginning of 1815 Clinton was removed from the mayoralty of New York, and found himself without private fortune or any apparent political prospects.

SEEKING EVIDENCE AGAINST SEVERAL FIRMS OF BROKERS

Who Have Been Charged With Bucketing—Largest Firm in Curb Market Files Bankruptcy Papers.

RECORDS OF FIRM CANNOT BE FOUND

And District Attorney Banton Has Asked the Police of New York City to Help Him Locate Lost Papers.

New York, June 8.—District Attorney Banton, who is investigating charges of bucketing against several bankrupt brokerage houses, today called on the police to aid him in tracing records of the curb market house on L. L. Winkelman & Co., which disappeared a few minutes after the involuntary bankruptcy petition had been filed.

Mr. Banton rushed Assistant District Attorney Gibbs to the Winkelman house as soon as he learned of the house, Mr. Gibbs reported he had been informed that several large packages, presumably records of the firm, had been taken away in a taxicab.

Failure of the Winkelman house, which was the largest firm holding membership in the Curb Market, intensified Mr. Banton's campaign against brokers alleged to have operated in a questionable manner.

George Gordon Battle, attorney for the firm, whose liabilities were listed at \$1,750,000, and assets at \$1,500,000, issued a statement declaring his client asserted they were solvent and intended to cooperate with the receivers to the fullest extent for the protection of their customers.

Says Could Not Examine Records.

New York, June 8.—John W. Curtis, president of the New York Curb Market, in a statement this afternoon declared that the law committee of the Curb had sought to examine the books of L. L. Winkelman & Co. on Wednesday but had been unable to get them because they were informed the books had been removed by State's Attorney General Sherman.

PRaises SHRINERS FOR CONVENTION BEHAVIOR

"Orderliness of Assembly Everlasting Credit to Great Organization," Commissioner Haynes Says.

Washington, June 8.—Prohibition Commissioner Haynes issued a statement today declaring that during the Shriners' convention here the normal number of arrests for drunkenness were cut in half.

"The orderliness of the assembly was of everlasting credit to this great fraternal organization," the statement continued, "reflecting the high type of citizenship of the membership, and bespeaking its reverence for constitutional law which will be of incalculable aid to the further progress of the work."

"The effectiveness of co-ordinated plans to keep poisonous liquors out of Washington speaks for itself, for all records were broken. The supply was not here, even had there been a disposition to use it."

REICHSTAG LEADERS

State Library OF ILLINOIS LIBRARY LAST GERMAN NOTE

They Contend It Marks An Advance in Germany's Reparations Proposals as Given to Entente Powers.

NOT CERTAIN IT WILL BE ACCEPTED

Because Attitude of Those Who Govern Italy and Belgium, Is Believed to Be Hostile to the Plan.

Berlin, June 8. (By the Associated Press).—Reichstag leaders believe the note delivered at the allied capitals yesterday marks an advance over the German government's previous reparations communications, especially since it more firmly stresses the reichstag's good will and readiness to arrive at a solution of the problem, and also because the subject of guarantees is given concrete form.

Despite this, parliamentary circles are not displaying any excessive optimism concerning the reception of the memorandum by the creditor powers. In these quarters it is believed that France has effectively blocked any attempt by Great Britain to create a favorable atmosphere for early negotiations by seeking to influence Belgium and Italy.

In pledging the federal railways as the chief guarantee, the German government has adopted one of the principal suggestions contained in the recent memorandum drawn up by the industrialists in Amsterdam.

The industrialists are not specifically mentioning a national system of railways and all the physical property connected with it are to be placed in custody of trustees and conducted as private enterprises, the industrialists understand that this will be the government's procedure and that the lines would be hypothecated for the capital sum of 10,000,000,000 gold marks.

TROLLEY CAR CRASHES INTO 5-STORY HOUSE

Slips Backward Down Steep Grade—Child in Street Killed By Falling Bricks.

New York, June 7.—A runaway trolley car killed 12-year-old Margaret McLaughlin and injured three other persons tonight when it dashed to the foot of a hill at 125th street and Amsterdam avenue, crashed into a five-story tenement house.

The car and lower floor of the building were wrecked.

The child was playing in the street when the car approached. Slippery rails, caused by a heavy rain, were believed to have caused the accident.

The car was nearing the top of the hill when it started to roll back. When it struck a switch at the bottom of the grade, it was derailed and struck the building while traveling at 50 miles an hour. The car tumbled completely through the corner of the building and came to a stop on the sidewalk.

The McLaughlin girl avoided the on-rushing trolley but was knocked to the sidewalk and crushed by falling bricks from the tenement house.

All of the injured were passengers on the car. One passenger and the motorman jumped to safety when it started on its downward flight. The motorman later told the police the power failed and the brakes gave way when he attempted to stop the car.

Lumber Cut in North Carolina.

Raleigh, N. C., June 8.—Twenty-one North Carolina mills has reported to the United States Bureau of the Census that they cut 217,313,000 feet of timber in 1922 as compared with 173,150,000 in 1921, according to an official bulletin received here tonight from the Department of Commerce.

"The department of commerce announces that, according to statistics compiled by the bureau of the census, acting in co-operation with the Forest Service, United States Department of agriculture," the bulletin reads, "the lumber cut of 712 large sawmills—each sawing later than the police the power either 1921 or 1922—showed an increase from 12,416,879,000 feet in 1921 to 15,584,418,900 feet in 1922, or 25.5 per cent.

MARRIAGE TO BECOME SECONDARY TO WOMEN

According to Questionnaire Answered by High School Girls in Des Moines.

Des Moines, June 8.—Marriage and home making will have become wholly secondary in the feminine scheme of existence when the generation now growing up is running the nation, if results of a questionnaire conducted among this year's senior class in Des Moines high schools is a true example of the country's youthful opinions.

Three hundred and nine graduates answered the questionnaire. Some desired to become actresses, other interpreters, farmers, lawyers, doctors, writers, teachers, missionaries, private secretaries and nurses, but only one said she hoped to get married and have a home.
