Laney-Dover Wedding.
A wedding of interest to North Carolina and of special interest here, where both the bride and groom are well known, was solemnized in Shelby several days ago. The following account of their wedding is from The Charlotte Observer:
A brilliant and beautiful wedding in Shelby the latter part of the week was that of Miss Dorothy Dover, of Shelby, and Mr. Robert Laney, of Monroe, the ceremony being solemnized in the First Baptist Church in the presence of a wedding company that overflowed the handsome edifice. The officiating minister was Rev. John W. Suttie.

Mrs. Frank Love, of Lenoir, matron of honor, wore a gown of brocade silver cloth. Miss Mary Anthony, of Shelby, maid of honor, wore a dress of coral pink and silver. The bridesmaids were Miss Adele Cross, of Clarksville, Tenn.; Miss Jane Blair, of Monroe; Miss Millicent Blanton, of Shelby; Miss Roberta Love, of Lenoir; Miss Mary Deane Laney, of Monroe; Miss Margaret Morgan, of Shelby; Miss Sarah McCurray, of Shelby, and Miss Virginia Atkins, of Boydton, Va. Attending the groom as best man was Mr. Frank Laney, of Monroe.

The groomsmen were Messrs. James H. Morow, H. Fitz Henry Dillon, Fred M. Smith, William P. Cole, George S. Lee, Jr., Robert E. Lee, J. Allen Lee and J. Frank Griffith, all of Monroe.
The ushers were Dr. R. D. Pearson and Cole D. Morgan, of Monroe; Bruce M. Redmen, of Chantanooga, Tenn.; and Harold F. Griffin, John Hudson, Charles Dover, Charles Roberts, and Jack Dover, of Shelby.

Little Miss Sarah Dover daughter of Mr. and Mrs. J. R. Dover, Jr., was ring bearer. The bridesmaids carried bouquets of white chiffon dresses over silver cloth in blue, pink, orchid and green.
Mrs. DeWitt Quinn, of Shelby, was at the organ.
Mrs. Heath Lee, of Columbus, Ga., sang "Proposal" and "Thank God for a Garden."
The church was decorated in palms and ferns, easter lilies and white candles.
The bride wore an elegant gown of white satin embroidered in pearls, her veil held by a cap of real lace. Her flowers were bride roses and lilies of the valley. The ceremony was most impressive, the wedding one of the most beautiful the city has ever known.

The Professor was trying to demonstrate a simple experiment in the generation of steam.
"What have I in my hand?" he asked.
"A tin can," came the answer.
"Very true. Is the can an animate or an inanimate object?"
"Inanimate. Now can any little boy or girl tell me how, with the tin can it is possible to generate a surprising amount of speed and power almost beyond control?"
One little boy raised his hand.
"You may answer, Carter."
"Tie it to a dog's tail!"

FRANK PAGE IS GIVEN WRITE UP IN MAGAZINE

Successful Methods Tells the World What the Giant Road Builder is Doing.
Raleigh, June 18.—"Frank Page, Gentleman, Banker, Soldier Road Builder."
Thus runs a headline in a late issue of Successful Methods and the article which it captions is devoted to a wholly complimentary sketch of the activities of the chairman of the North Carolina highway commission. The occasion for the writing of this article was the election last month of Mr. Page as president of the American Road Builders' association.
"When Frank Page was elected president of the American Road Builders' association recently," says the article, "many asked, 'Who is 'Frank Page?' and then answering its own question continued, 'Before the year is out the road builders of the country will find that the head of their national organization is a strong, courageous, well-trained man who, as chairman of the North Carolina state highway commission has put that state at the top of the list in highway progress.'"
After reviewing the history of the Page family as men of large caliber in affairs of state and nation and paying particular attention to the record of achievement made by Mr. Page the article says that "the demand for better roads had become universal in North Carolina. The state had done some highway work but there was little money and practically no organization available. Local politics also determined when and how most of the roads should be built."
"The time was ripe for the great change that occurred in highway affairs in North Carolina. The state legislature passed a \$50,000,000 bond issue, along with a law creating a state highway commission. That law has proven in practice to be the model that it was intended. It made possible the removal of the highway affairs from politics.... but legislation could not make a man to execute successfully a law."
"Fortunately, about the time the legislation was in the making, Frank

Page was suggested to the governor as the most logical man to be chairman of the commission. He believed that Frank Page met the specifications and the record that has been made has fully justified the governor's judgment.
"Working quietly in his determined way, Frank Page built, in a very few months, an organization that soon became state highway engineer.... and teamed together these two men have made records that are not yet fully appreciated outside of North Carolina."
The article continues to review the progress in highway construction made in the state during the last two years and concludes as follows:
"How Frank Page gets things done has been variously estimated by different people who have seen different sides of him. He is primarily courageous and fearless.... has no more respect for the political bosses of the state than he has for an ordinary citizen.... and in some quarters has acquired somewhat the reputation recently of an autocrat. The general manager of a leading railroad recently said: 'Frank Page may have the reputation of being something of a bear but he certainly does get things done.'"
"Frank Page has one failing, if it is a failing, for a man in a public position of such importance as the one that he fills—he avoids publicity. He never has much to say about what he has done or what he intends to do. He probably will not say much about his program as president of the American Road Builders' association. A year hence, however, his leadership will have left a permanent record of progress in making that organization what it should be as really representative of the highway builders of the country."
