LOVE CASTS OUT FEAR:-There is is fear in love; but perfect love cas the out fear: because fear hath tormen He. Chat, feareth, is not made perfect is love.--T.John ,4:18.

Thoughts memorized, will prove priceless heritage in after years.

A WONDERFUL DOCTRINE.

If employers would spend half nuch time cultivating the friendship, ach time cultivating the friendship, re-bect and good will of labor as they do ghting labor organizations there would of be a labor problem, Sherman Rogfighting labor organizations there would not be a labor problem, Sherman Rog-ers, of New York, today told the delegates to the fourteenth annual conven tion of Rotary International in St. Louis "We waste too much time talking about the labor agitator." the speaker said. "He can only be recognized as the logical friend of the worker where the management has refused to extend its friendship

'I was in the Seattle shipyards work ing as a helper in 1917 when Charles M. Schwab made his tour of the Ameri-can shipbuilding institutions. We'd heard he was a labor hater.

"The first instant the great steel man looked us over it was apparent to every man in the bunch that Mr. Schwab really liked him. He stepped on that platform Charles M. Schwab, autocrat, millionaire magnate. He stepped off that platform, 30 minutes later friend Charles. In that short 30 minutes he had destroyed the hatred that agitators had been building

for 15 years, "The world is built on ideals. Labor wants to be square. If labor follows the wrong leader it is not because they want to misunderstand but because the right leader has been asleep at the switch and hasn't given the men a chance to under stand him.

"There are three sides to every ques tion-your side, the other fellow's side and the right side. I don't believe there ever was a question in either modern or ancient history where either side to the

dispute was 100 per cent, right, "Ninety-five per cent, of men, whether they wear broadcloth or overalls, want

to play the game square. Lack of con-tact means lack of understanding. "The employer has spent a lot of time selling his honesty, his fairness and per sonality to the banker, the wholesaler, the retailer and the public. How much has he spent trying to sell that same personality, honesty and fairness to his work-men? Solving a labor trouble is not a mysterious affair. It is simply a proposition of using common horse sense.

not always easy to put thes ideals and aspirations into practice, but Wr. Rogers in his analysis is getting pret-ty close to the root of the trouble. If the employer will spend as much time proving to his employes that he is fair and square as he does proving the same thing to his banker, labor troubles would

(Continued from Page One) insist on a better standard of living, of the introduction of various modern conveniences, of better schools, of better roads and in many ways it can help make the rural sections more desirable places to live in. It is somewhat distressing, therefore, to note that the circulation of the weekly newspapers has not only not increased within the past ten years, but that it has actually decreased. For instance, in New York State, the Fed-eral census reports show that the circula-tion of the weekly papers in New York State was 25 per cent. less in 1919 than in 1914: that is, the weekly newspaper in that State decreased just 25 per cent. in efficiency and influence within the five year period named. The daily newspa-per need not fear that the circulation of the weekly papers will curtail or inter-fere with their own. Bather in making

ence to which justice is guaranteed every man. Recently the American Society of Newspaper Editors held a most success-ful gathering in Washington for the advancement of the professional rights and privileges of Journalism. The out-standing achievement of this great con-vention was the adoption of a code of ethics, and at the risk of taxing your patience I am going to read it to you. Here it is: per need not fear that the circulation of the weekly papers will curtail or inter-fere with their own. Rather, in making a community better and more progres-sive the weeklies are at the same time helping the dailies because a larger field is created for them also. I want to call particular attention to a movement inaugurated two or three Here it is: "The primary function of newspapers

"The primary function of newspapers is to communicate to human race what its members do, feel, and think. Jour-nalism, therefore, demands of its practi-tioners the widest range of intelligence, of knowledge, and of experience, as well as natural and trained powers of obser-vation and reasoning. To its opportuni-ties as a chronicler are indissolubly link-ed its obligations as teacher and inter-preter. "To the end of finding some means of codifying sound practice and just aspira-tions of American journalism these can-ons are set forth: I a movement inangurated two or three years ago in which every newspaper pub-lisher in the South should exercise a vi-tal and active interest. It is the 'ex-tablishment of the Lee' Memorial School-of Journalism at Washington and Lee University at Lexington, Va. Robert E. Lee was not only one of the greatest military geniuses of the world, but he was one of the wisest of educators. Gen. Lee put new life into Washington and Lee, and his five years' work there will always rank with the glories of his trans-cendent work on the fields of battle from 1801 to 1865. It is fitting that the movement inaugurated two or three

Lee put new life into Washington and Lee, and his five years' work there will always rank with the glories of his trans-cendent work on the fields of battle from 1861 to 1865. It is fitting that the South, even at this late hour, should erect to the memory of its revered hero a suitable memorial Schebio of Journalism at the University. It is the plan of the committee in charge to raise \$125,000first from the publishers of the South, and to use this as a basic argument to enlist the support of the general public in this great enterprise. These pledges are to be payable over a period of three grans of in any other way convenient to
