First National Bank of Spencer May Re-Open.
Spencer, June 30.—The only developments in the banking situation here today was a joint meeting of the stockholders' committee and the depositors' committee with a view to solving the problem of re-opening and organizing the First National bank at Spencer, which closed June 8. The committee will recommend a guarantee fund equal to 10 per cent of the deposits, or the bank to be placed at the hands of the management, this fund to be used to offset any possible loss the loans might sustain in reorganizing. Further action is expected in a few days.

Open Air "Gym" on S. S. Southern Cross Enables Tourists to Keep in Fine Trim

"Gym Deck" on S. S. Southern Cross.

OPEN AIR GYM

New York, July 2.—An open air gymnasium on the boat deck of the Southern Cross, of the Munson Line, is proving very popular with tourists. Passengers may exercise there in a dozen different ways as the liner speeds through tropical waters to or from New York and the big East coast ports of South America.

Though many ocean liners have indoor gymnasiums, but few of them have exercising apparatus out of doors, where the sun and fresh air aid the tourist in keeping in physical trim.

The aft part of the boat deck of the Southern Cross is the scene of most of the games played aboard the liner. It is equipped with awning stanchions, so that when the sun plays down too hotly it may be pleasantly shaded. Here tennis nets are stretched, with canvas and net back stops to prevent balls from being knocked overboard. Hand ball, with the canvas top taking the part of a wall, is also played here successfully by enthusiasts at the game. Deck croquet, deck golf and shuffleboard also have their place.

Gymnasium equipment is sufficient to enable tourists to build up strength in many different ways. There are weight exercising machines, "horses," horizontal bars, punching bag and gloves for the boxer.

The deck steward on the Southern Cross is a trained athlete, and when he finds some of his passengers really interested in keeping in good trim while on the liner, arranges training programs for them. Each trip of the Munson liner thus is a most interestingly instructing a class in physical culture. Setting up exercises, work at the weights, on the bars, with the gloves and at the bag all have their part in the course.

These classes are as popular with the women as the men. Attired in sports costumes, the former work as hard at the tasks outlined for them as any of the sterner sex. Many of the young women on tourists show themselves adepts at boxing and amuse their fellow passengers with snappy bouts. They also prove capable at the punching bag, and after a little training can keep it going for considerable time.

The rivalry between the girls in the "gym" classes is great and contests between individuals are the rule of each day at sea. While one girl counts, another will punch the bag steadily, endeavoring to run up as high a score as possible before missing a punch.

"Gym" classes do not take up the entire time of the tourist, however, for whom there are many amusements planned by a capable Chief Steward.

On the Southern Cross, as on the American Legion, Western World, and Pan-America of the Munson Line fleet, there is a Field Day held, with an interesting series of events. This program is arranged so that every passenger on board may take part, and is supervised by the captain of the liner. From early in the morning until dusk falls contestants play tennis, deck golf, shuffleboard, quoits and engage in handicap races of different sorts on deck.

Features of the Field Day program are the swimming and diving matches in a big canvas swimming pool that is erected on board about the promenade deck. One particularly exciting game is played here. A spar is placed across the tank and on it two contestants are seated, each armed with a big pillow. At a given signal they flay at each other with their soft weapons until one or both are knocked from their precarious perches into the tank, to the delight of their fellow passengers.

The McWade Automatically Sealed Inner Tube Is the Best Value Offered in Tubes.

Mr. E. L. Womble, Agent, Raleigh, N. C.
Dear Sir: May 3, 1923.

Yes, sir, I have been wanting to give you a testimonial ever since I got my eight tubes last month. I have talked tubes ever since. Folks joke and tell me I must be a secret agent. But layin' jokes aside these are the best tubes I have ever seen. I would not be without mine for anything. I have never blown up since purchasing them.

I can certainly recommend the McWade Automatically Sealed tube to anybody. My car rides a lot easier. I have two cars and bought a set for each, 33x4 and 34x4 1/2. I want people to know about them.

Yours truly,
J. E. OWENS,
