How Are Your School Advantages— 72, 80, or 96 Per Cent Normal?

What sort of school advantages do den, laboratory, and worship? Sour children have, and the children of your community? The three main questions to consider are these:

10. Have you literary or defined the children of your community? The three main questions to consider are these:

11. Have you a school fair to date?

brary?

10. Have you literary or debating societies for the boys and girls?

11. Have you a school fair and upodate?

Second—Then after passing through the elementary grades, can your boys nd grils get modern high school instruction without houses. Second—Then after passing through the elementary grades, can your boys and grils get modern high school instruc-tion without having to leave home and go to the expense of "boarding" some-where?

Third—And does this high school pro-

vide proper instruction in vocational ag-riculture and home economics? The three questions just given, as we have said, broadly determine whether or not your children have modern school advantages; but the subject is so import ant that all of us should really go into it ant that an oug should really go into temuch more fully. About this vital mitter of proper training for our boys and girsl—one of the most important problems that ever confronts a father or mother—we ought to know precisely where we stand. And just as Prof. Massey's article last week gave twenty tests for a good farmer so we now wish pupils one a year?

10. Is your schold building well planshed for comfort, fire protection, and of the cross stand. And just as Prof. Masser's article last week gave twenty the stand of the cross and it built of wood, is it requires the control of the cross and girls in clube—corn, cetton, and the control of the cross and girls in clube—corn, cetton, and the control of the cross and girls in clube—corn, cetton, and the control of the cross and girls in clube—corn, cetton, and the control of the cross and girls in clube—corn, cetton, and the control of the cross and girls in clube—corn, cetton, and the control of the cross and girls in clube—corn, cetton, and the control of the cross and girls in clube—corn, cetton, and the control of the cross and girls in clube—corn, cetton, and the control of the cross and girls in clube—corn, cetton, and the control of the cross and girls in clube—corn, cetton, and the control of the cross and girls in clube—corn, cetton, and the control of the cross and girls in clube—corn, cetton, and the control of the cross and girls in clube—corn, cetton, and the corn of the cross and girls in clube—corn, cetton, and the corn of the cross and girls in clube—corn, cetton, and the corn of the cross and girls in clube—corn, cetton, and the corn of the cross and girls in clube—corn, cetton, and the cross and girls in clube—corn, cetton, and the corn of the cross and girls in clube—corn, cetton, and the corn of the cross and girls in clube—corn, cetton, and the corn of the cross and the corn of the cross and the cross and

13. Have you a well equipped play ground—for baseball, basketball, tennis

and minor sports?

14. Do you provide transportation for distant children?

15. Do you have community sing.

ng and community plays in connection with your school?)

16. Are there reproductions of beau
tiful pictures on the schoolhouse walls

17. Do you have a public commence

nent each spring? 18. Is there medical inspection of th

oupils one a year?
19. Is your school building well plan

injuries in comparison with the same period of the previous year. Similar in creases are reported in other quarters.

"It has been suggested that an increase is to be expected since the number of motor vehicles and highway traffic is increasing." The Bureau statement asserts, "but this should be the reason for additional preventive measures 'rather than satisfaction with the situation. "There is only one safe way to prevent accidents where highways and railways intersect. That is by a complete separation of the grades by means of subways or viaducts. There has been agitation for legislation in a number of States to require all users of the highway substance. A few states have enacted suich laws. The general application of such a law covering all of the railroad crossing in any state leads to absurdities and nunecessary inconveniences. For example, one of the principal state highways and rails in order of the state fair, but under the law of the railroad cunning into the State Fair, but under the law all the traffic over one of the principal state highways in the state must stop at this crossing 365 days each year at a the film of a railroad running into the State Fair, but under the law all the traffic over one of the principal state by the must stop at his crossing 365 days each year at a the film of the State Fair, but under the law all the traffic over one of the principal state by the must stop at his crossing 365 days each year as the film of the State Fair, but under the law all the traffic over one of the principal state by the must stop at his crossing 365 days each year as the film of the State Fair, but under the law all the traffic over one of the principal state by the must stop at his crossing 365 days each year as the film of the State Fair, but under the law all the traffic over one of the principal state stop at this crossing 365 days each year as the film of the State Fair, but under the law all the traffic over one of the principal state of the American Legion, says, "If will percentage of the

Exercise: When We Are Men—Ter
Soys.

NEWS OF THE CHURCHES TRINITY SPECULATES ON GRIDING POSSIBILITIES

Methodists Lose Many of Last Year's Linemen-Backfield Prospects Bright. Durham, August 1.—Trinity, basking in the glory of having produced a wonler-working basebal, machine during the past year, is speculating on footall prospects for the next scholastic term which start's in September. Many flast year's gridinon players have been lost by graduation and as a realt concl Steiner will have a busy job on his hands to fill these gaps.

When the roll is called for gridinon practice, six line veterans of last year's leven will not answer to their names, Neal, Boling, Moore, Taylor, Pennington and Caldwell. The best bets for these vacancies appear to be Porter, Ray, Aldridge, Newell Shute and Huckabee who were with the second string squad last season.

The Methodist, gridinon warriors will be led on the field of action by Jimmy simpson, one of the best certers in North Carolina football collegtate circles. Around Simpson Coach Steiner hopes to build a mose powerful defense. Every man in Trinity's last-traveling backfield is expected to return, Themainstay of the backfield is Lagerstadi, who showed wonderful progress last season. He is quick in getting away with the ball smd is a hard man 'to ackle, Bullock and Johnson are county at the provision of th

steehan, Brown, Eyerett and Reid Garrett along with Criven. Black and Bradshaw.

The Rockne system of conching will vidently be introduced into Yorth Carolina collegiate circles for Coach Steiner. It Trinity and Coach Doak, of Guilford, are studying the Rockne methods at the Notre Dame summer school for gridron coaches.

The line of Trinity has been shot to olices by graduation but the prospects for the building up of a stonewall defense look most promising. Hatcher, member of last year's squad, will again report for duty while Carter is expected to be found on one of the wings of the Prinity line. Huckabee, of Albemarle, who won his football letter under Coach Baldwin, is one of the best bets for a time position. Shute, of Monroe, is also sounted upon to make the grade as a regular of the eleven.

Trinity will show its wares in Greens-joro against the Hon Christians on November 8. The Methodists will open their season at home against the Guilford Quakers September 29. The University of Virginia will be host to Trinity at Charlottesville October 27. Other games booked are Randolph Macon at Trinity, October 12; William and Mary (place undecided) November 10; Newberry at Trinity, November 24, and Davidson at Charlotte. November 20.

Consents to Marriage of 14-Year-Old Ghr.

Greensboro. Aug. 1.—The marriage of her 14-year-old daughter, Attress, was authorized by Mrs. Betty Yorke, of Stokesdale, when the register of deeds of Guilford county, to whom application was made for a marriage license Saturday, insisted upon unimpeachable proof of the parents' consent. The man is aged 23, Herbert Kidd, of Randolphy county.

The common corn marigold is regarded by some superstitions folk as a magic flower, and if picked on the thirteenth day of the month, dried in the sunshine mixed to a powder and then swallowed in tea, it is said to bring good health and happiness. The marguerite daisy shares the same superstition as a luck bringer.
