the opening of a discussion regarding reparations. Mr. Baldwinn began his statement by reviewing the British draft reply to Ger-many's last note. He said the British government had expressed the opinion that while nothing should be done which would be inconsistent with the stipula-tions of the Versailles treaty, advantage could be derived if impartial experts co-operating with the reparations commis-sion should examine Germany's capacity to pay.

NORTH AUSTRALIA MAKES SUCCESS OF COTTON PLANT 30 Successful as to More Than Double Estimate of Acreage Next Year. (By the Associated Press.) Sydney, N. S. W., Aug. 2.—Experi-ments in cotton raising in New South Wales have been so successful as to more than double the cotton acreage in the estimate for next year. This increase in acreage is due to the discovery that toton grows better under the conditions existing in the northern parts of the Australian continent than in other sec-tions.

tions. The cotton grown experimentally in the North Australian districts brings about one, cent. a pound more than that of other sections. In addition to produc-ing a higher grade of cotton, the plants have been most prolific, and at Bonalbo, as many as 320 bolls have been obtain-ed from a single plant.

as many as 320 holls have been obtain-ed from a single plant, The estimated cotton acreage for next year in New South Wales is 35,000 acres, and a ready market already awaits this growth, for the English spinners are eager to buy cotton grown within the Formize.
