In this closing week of the season sensations were multiplied. It was expected extraordinary people with fat pocketbooks would come from all over the world to take part. But now many millionaires are sleeping in hotel bathtubs and on table tops.

An internationally famous Modeline in her transparent marson silk bathing suit was followed by a crowd that walked after her fascinated, even into the water.

sair was followed by a crowd that walk-ed after her fascinated, even into the water.

In the gambling room at the Casino money seemed to lose all value. The sense of proportion was left behind. Men with eyes popping from their heads and cuffs popping from their sleeves toss bundles of banknotes back and forth. There is a millionaires' table with a railing to hold spectators at a respectful distance and a placard an nonneing the minimum bet is \$1000.

Among the crowd are successful-opera singers, bourbon princes, bankers, prime ministers' wives, ambassadors, advertising experts and Senators. There is the Maharajah of Kalilha, who came to the races in blue silk pajamas and six ropes of pearls, thereby eclipsing the splendor of the Maharajah of Kapurthala.

NEW PARASITE FLY IS ENEMY OF BOLL WEEVIL

Lays Its Egg in Punctured Squares and Eats the Crub Weevil when it is

Hatched.
Shelby, Aug. 21.—Fred Simmons, who lives in the Union section of Cleve'and county, believes he has found a parasite dy that is doing more to take care of the bo'l weevil situation than any other

ly that is doing more to take care of the bol' weevil situation than any other one agency.

Out of 17 punctured squares picked up on his farm this week, 16 of them contained, in addition to the boll weevil, as smaller fly grub, which had killed the weevil. The fly which lays the egg is unable itself to puncture the square, it seems, and deposits the egg only in squares which have been punctured by the weevil. On ton of the weevil ergo this fly is laid and the weevil grub is invariably killed by the fly, when both have become grubs. Farmers of the county have become very much interested in the finding of this fly. What it is no one seems to know but other farmers declare they have notived the same results reported by Mr. Simmons.

The cotton leaf worm is just now giving some concern in the county. About 15 acres of Sam C. Lattimore's farm is afffected. Calcium arsenate is being used, and with good effect, however, and it is believed that 'the worm, which resembles the army worm, can be controlled.

Boit Also Laves Imprint of Tree Limbon Right Hip.

Easton, Pa., 22—A perfectly formed fern left on the right shoulder and an emblem resembling the limb of a tree on the right hip are the marks left on the body of 11-year-old Shirley Laffee, daughter of Mr. and Mrs. Louis Juffee, daughter of this city, who was struck by lightning early last night while visiting a farm on the outskirts of this city. The child had gone to the farm with her parents, and when the storm broke all took refuge in the farmhouse.

Miss Rose Goldman, 21, of New York, was rendered unconscious, but soon recovered, while Julius Berman, 2-year-old son of Mr. and Mrs. Israel Berman, of this city, was burned on the right foot. The chimney top was cut in half and most of the weather boards were ripped from one side of the house and a goose that was standing near the honse was struck dead. The farmhouse did not take fire.
