FACE POWDERS.

All the skin treatment in the world is wasted if your powder is not right. It must not be coarse. A pure, fine powder will greatly enhance the appearance of the skin and prove positively beneficial. It protects the skin and prevents impurities from entering the pores. So many cheap, heavily-scented powders are used that coarsen the skin and even the appearance of the person, that I particularly urge the use of only the purest, finest and most delicately perfumed powder, selected to harmonize perfectly in color with your skin. The perfume of powder should never be permitted to overshadow the individual perfume selected so carefully to suit one's personality.

Because face powder is so constantly used, it must, of course, be absolutely pure. The Elizabeth Arden Powders fill all of these demands.

Venetian Flower Powder is a rejuvenating and adhesive powder which never dries the skin or gives it that uncomfortable, drawn feeling. It is such a universal favorite that it is necessary to make it in six shades to suit the needs of all who use it.

It is formulated for every-day use. And after all it is the every-day things which must pass the severest tests.

The popularity of Flower Powder proves that it has passed the tests. Large box, any one of six shades, Blanche, Cream Color, Naturelle, Special Rachel (light brunette), Spanish Rachel (dark brunette), Rose. Per box, \$1.75.

Poudre D'illusion. A particularly wonderful day powder made especially for those who demand the extreme of quality and exclusiveness. The sort of powder that makes your friends ask whether you use powder or not, because you look so lovely and natural. It is just heavy enough. Scented vaguely and charmingly. And the color is the most perfect part of all because it is perfect skin color. An ultra powder for the few who know and demand powder quality. Per box, \$3.00.

Poudre Marechal Noel is made especially for those with a white skin. For evening use, it is particularly good as it enhances the quality of the complexion and makes the skin clear, bright and transparent. It is lighter and finer than other powders. Its purity is beyond question, and it has the captivating fragrance of Cupid's breath. Per box, \$2.00.

Venetian Poudre De Soir. An entrancing shell-pink powder excellent for evening use. It is of subtle fragrance. Under artificial light it imparts a bewitching quality and gives the skin a most alluring satin-like texture. Parisian women are its devotees. In an attractive round French flowered box. Price \$1.75.
