WEATHER FORECAST.

Fair tonight and Saturday except showers tonight in extreme southeast portion; warmer Saturday and in central portion tonight.

LOCAL MENTION

Mrs. J. E. Love and children have returned from a visit of several weeks to relatives in Norfolk and Greensboro.

The weekly meeting of the Concord Kiwanis Club will be held at the Y. M. C. A. this evening at 7 o'clock.

The concert tonight at Central School auditorium will begin at eight o'clock. No admission, but a free will offering will be taken.

Mr. and Mrs. W. A. Sappenfield returned to their home in Rocky Mount, after spending two weeks vacation here with Mr. Sappenfield's home folks.

The Piedmont Theatre is running today Buck Jones in his new Fox picture, "Skid Proof," also Pop Tuttle in a big comedy scream "Tae Ticks."

If you would enjoy an hour of pleasure tonight go to Central School and hear the concert by the singing class from the Odd Fellows' Home at Goldsboro.

Dr. G. A. Martin and family are back after a delightful visit of ten days with friends in "The Land of the Sky." "Some High Places in Life" will be the subject of the Sunday morning sermon at the First Baptist Church.

Six cases were on docket for trial in recorder's court this morning. Three of the cases charged assault with deadly weapon, in another simple assault was charged against a defendant, and the other two were charged with minor offenses.

Songs, recitations, tableaux, and other forms of entertainment and amusement will be given at Central School auditorium this evening. A splendid entertainment for a most worthy cause, and the admission is free. A silver offering will be taken.

The weather today is much warmer than it was Thursday. The cold snap which hit this section of the country on Wednesday night, continued through most of Thursday, the first real rise in the mercury taking place this morning. Showers are promised for tonight and Saturday, together with warmer weather.

Messrs. C. A. Isenhour, T. L. Chaney and W. F. Stegall have returned from Durham, where they attended the State Council meeting of the Junior Order United American Mechanics for several days. Mr. Isenhour was honored at this meeting by being elected Inside Sentinel of the State Council.

Rev. Albert Gillon, of Texas, who is spending some time here at the home of his mother, Mrs. M. M. Gillon, will preach at the McKinnon Presbyterian Church at the morning service Sunday. Mr. Gillon is a former pastor of this Church, and he is certain to be heard with interest and pleasure when he fills the pulpit Sunday.

The Charlotte team lost to Greenville Thursday, the defeat being the sixth straight the Hornets have suffered. Macon still leads the league, though Spartanburg is close behind. O'Rourke, manager of the Augusta team, resigned his job Thursday and is succeeded by Boll, third baseman of the team. Llewellyn defeated Charlotte Thursday, allowing but six hits.

Bernice, fourteen-year-old daughter of Mr. and Mrs. L. A. Talbirt, is undergoing treatment in a Charlotte hospital. The child was carried to the hospital Thursday to undergo an operation for the removal of her tonsils, and at the hospital it was learned that she was suffering with a more serious trouble in her head. An operation to relieve the trouble was performed shortly after the examination was made.

The cold weather was a little unpleasant, farmers report, but at the same time it was welcome for the reason that it was certain to check the boll weevil. The weevil has increased its activities in this county during the past two weeks especially, it was pointed out by the farm men, and anything that tends to check its increase is welcome on the farm. Some farm men are of the opinion that the cold snap killed many weevils Wednesday night and Thursday.

"Why is gasoline higher in Concord than in some other points in Cabarrus county?" a Concord man was heard to ask this morning. "Here gas is 25 cents, and in some country stores in this county it can be purchased for 22 and 24 cents. Gas is higher here than in any other town in North Carolina, I have been advised, and in North Carolina it is higher than in any other State." The price of gas here was reduced 2 cents per gallon several days ago, but the reduction only brought it to 25 cents, while it had been at that price in some cities for some time previous to the cut here.

A camel can carry four times as much on its back as a horse.

CARD OF THANKS.

We wish in this way to express our many thanks to our friends and neighbors for their kindness shown us during the sickness and death of our daughter, Zelma, and we also send thanks for the many beautiful flowers. MR. and MRS. G. R. GOODMAN and FAMILY.

K. OF P. NOTICE.

Regular meeting Concord Lodge No. 51 K. of P. Friday evening at 8 o'clock. R. E. RIDENHOUR, Jr., C. C.

WORLD'S BIGGEST AIR SHIP PROVES SUCCESS

Giant Barling Bomber Takes Off, Flies and Lands With Utmost Facility. Dayton, O., Aug. 22.—Surpassing even the wildest dreams of its designer and other air service officials the Barling Bomber, world's largest airplane, completed its maiden flight at Wilbur Wright fields this evening. Ease with which the giant dreadnaught of the air was maneuvered, both on the ground and in flight, and the slow take-off and landing speeds was the chief feature of the performance, witnessed by less than 1,000 visitors and characterized as the most promising maiden flight ever undertaken by any aircraft. The plane was in the air 28 minutes.

Only one minor detail was found to be in other than perfect order during the flight. This was the connecting rod between the upper and lower elevator planes on the tail, which vibrated considerably, according to members of the crew. The vibration was not sufficient by far to mar the complete success of this greatest of flights, since the Wright brothers, of Dayton, made their memorable voyage through the air at Kitty Hawk, N. C., in December 1903. Even as the dreams and hopes of the Wright brothers were founded on that flight, so were the dreams and hopes of Walter Barling, the Englishman, who designed this ship, centered completely in this flight.

The giant craft appeared strangely similar to the first Wright ship when it was viewed from the rear in the air. The tail of the Barling has a wing spread greater than that of the DH-4, standard training ship of the army air service, and this large tail, especially when the ship was far away, appeared quite similar to the box kite tail of the first Wright ship. The propellers and the engines also recalled that the two propellers on the first successful heavier than air machine, were located in the wings. As the Barling bomber circled the field, expressions of awe were heard on every hand. "This dreadnaught of the air traveled about 25 miles in its short flight."

PERFUMES.

Perfume is to the personality what imagination is to the mind—magic, mystery, the "if-you-touch-them-they-will-vanish" quality. Elizabeth Arden has the sole importation of many exquisite French and Oriental perfumes. Upon request, leaflet with prices will be furnished. Or, send a description of yourself and Miss Arden will select for you the perfume suited to your type.
