War Mothers Visit High Point.
A delegation of War Mothers went to High Point Sunday to hear the chimes in the tower of Wesley Memorial Church, and were delighted with their visit and the playing of the chimes. Those who went were Mesdaines Jno. K. Patterson. W. D. Pemberton and R. E. Ridenhour, their visit being to make a report at the next meeting of the Chapter of War Mothers here in regard to purchasing the memorial chimes which the Mothers are now raising funds for. Literary Society at Winecoff School.

The elementary department of Winecoff school has organized a distinctive literary society of its own. The name "Champion" has been chosen as a fitting one for the society.

Much interest is being taken by the members in the weekly meetings.

The program each Friday afternoon is well rendered, showing that much time has been spent on preparation for the same. On Friday, September 21, one number on the afternoon program was a debate by pupils of the fifth and seventh grades. Subject: "Resolved that outdoor games are more enjoyable than indoor games." The negative side must be accredited with having done some good thinking, and logical arrangement of material. The boys put up stiff arguments from both sides, but after a hearted contest the affirmative side was agreed to have presented the most points.

Other features of the weekly meet.

opints.

Other features of the weekly meetings of the "Champion" society are recitations, readings, songs, duets, jokes and current topics. It is felt these Friday afternoon club meetings of the fourth, fifth, sixth and seventh grades are proving very helpful to the participants in more ways than one.

Japanese Buying American Lumber.

Washington, Sept. 24.—Enormous quantities of American lumber are to be used in the restoration of Japanese buildings destroyed by the earthquakes and fire. The far eastern division of the commerce department, estimating that nearly 500,000 homes were destroyed, pointed out that 60, per cent of all lumber used in Japan is shipped from the United States, Piling for the Yokohhama wharves and paving blocks for new streets also will be required from America, it was predicted. Although Japanese homes have been and probably will continue to be of comparatively flimsyeconstruction because of the perpetual earthflake menace, the department said much lumber goes into their construction, principally fir, hemlick, pine and cedar. American woods are more favored and can be laid down in the principal Japanese ports even cheaper than native lumber.

Deadlock Over President For New Methodist Protestant College.

High Point, Sept. 24.—A deadlock over the selection of a president for the Methodist Protestant college which has been built here resulted in the meeting of the trustees here. The meeting has adjurned to an indefinite time in the future.

It is understood that the names of four men are being considered for the office. Members of the board talk little of inside politics, but they assert that they are very anxious to choose the right man to head the college and are in no hurry to make the choice.

The college will not be opened to students until next fall. In the meantime, a faculty will be chosen and two dormitories erected.
