

SOCIAL & PERSONAL

Miss Ridenhour Hostess at Beautiful Bridge

One of the most charming of the many pre-nuptial hospitalities for Miss Elizabeth Harris was the Bridge given by Miss Frances Ridenhour at her home on West Depot street.

The pretty home was radiant with a wealth of fall blossoms, chrysanthemums, dahlias and cosmos being featured. There were seven tables all handsomely appointed with embroidered covers of exquisite linen, fancy pencils and score cards of the latest style.

Miss Ridenhour met her guests in a modish gown of dark blue georgette. Miss Harris was strikingly handsome in a lovely gown of blue crepe, accented with a becoming black velvet hat. The prize for highest score was won by Miss Helen Marsh. Miss Harris was presented with a handsome guest of honor prize.

Following the game an elaborate luncheon was beautifully served by Miss Ridenhour, assisted by Mesdames H. G. Gibson and R. E. Ridenhour, Jr.

The guests were: Miss Harris, Mrs. B. E. Harris, Mrs. B. E. Harris, Jr., Mrs. Ed. Sauvain, Mrs. J. M. Odell, Mrs. R. S. Young, Mrs. L. T. Hartwell, Mrs. Harry Hopkins, Mrs. Kenneth Caldwell, Mrs. Neal Goodson, of Salisbury, Mrs. Robert Jones, Mrs. Lee Crowell, Jr., Mrs. Leslie Bell, Mrs. Sterling Brown, Mrs. H. G. Gibson, Mrs. R. E. Ridenhour, Jr., Miss Margaret Virginia Ervin, Miss Elizabeth Smith, Miss Ruth Crowell, Misses Adele and Mary Pemberton, Miss Margaret Bell, Miss Nell Hering, Miss Helen Marsh, Mesdames Anis and Virginia Smoot, Miss Bertie Louise Wilford and Mrs. V. A. Means.

Distinguished Visitor to Be Here

On Sunday night, October 21st, St. James Lutheran Church will have the rare privilege and pleasure of presenting to a Concord audience Mrs. Sidney R. Kepner, president of the Women's Missionary Society of the United Lutheran Church in America. Mrs. Kepner is a woman of rare charm and unusual ability. Her charm and ability, coupled with the distinction of the office which she fills, insure for her an audience which will tax the capacity of St. James.

Mrs. Kepner is en route to her home in Pottstown, Pa., after an itinerary of four weeks, including Denver, Colo., Hutchinson, Kan., Columbia, S. C., etc. A pageant, "The Way," written by Mrs. E. C. Cronk, a noted speaker and writer of the Lutheran Church, will be presented at the same service by the young women of the Evening Missionary Circle. A large vocal choir, under the direction of Miss Mary McLaughlin, is now in training for the occasion. The public is cordially invited to this service.

The Annual Flower Show

The Ladies Aid Society of St. James Lutheran Church are arranging for their annual flower show, and have already made extensive plans for this annual entertainment which will be held at an early date in the Y. M. C. A. building of Concord. With the beautiful autumn flowers of many kinds and colors, and a large collection of hand-made fancy work, the ladies are hoping to make the coming event the most attractive and artistic in the history of the flower show. The date for this popular annual event will be definitely announced within a few days.

The Evening Circle of St. James missionary society will present the pageant "The Way," on next Sunday evening. This is one of the newest pageants and written by one of the leading missionary writers of America, Mrs. E. C. Cronk, of Chicago. At this meeting the congregation will have the privilege of hearing Mrs. Sydney R. Kepner, president of the Convention of the United Lutheran Church in America, with offices in Pottstown, Pa. This is a rare honor that comes to this community, and appreciation will be expressed in a large attendance.

COUGHS

Every few hours swallow slowly a quarter of a teaspoonful of Vicks. Also melt a little in a spoon or a tin cup and inhale the vapors arising.

Election of Officers
Closing Prayer

The faithful in Turkey are now permitted to wear gold teeth according to a decree published by the Angora Minister of Religious Affairs. The law of Mohammed forbids the carrying of any luxurious ornament except a silver ring, the value of which must not exceed that of a winding sheet. At the time of Mohammed the prices of these two articles were practically identical.

France is developing cotton production under her own flag. Several new plantations have been opened this year in Algeria and a net profit of 3,500 francs a hectare is reported from this crop. In the French Sudan, cotton equal to the best Egyptian has already been raised.

WORLD'S SERIES SETS NEW ATTENDANCE RECORD

Sum of \$1,163,815 Paid By 301,430 Persons to See Six Games—New York, Oct. 15.—The sum of \$1,163,815 was paid by 301,430 persons to see the world's series of 1923, ended with the sixth game today. These figures make a new record, the old record having been established in 1921 when the Giants and Yankees, in an eight-game series, attracted 269,907 persons with receipts of \$900,233.

Today's figures: Attendance, 34,173; receipts \$130,252; advisory council's share, \$20,887.80; each club's share, \$59,187.10. Figures for six games. Attendance, 301,430, receipts, \$1,063,815; advisory council's share, \$165,572.25; each club's share, \$207,729.86.

The players' pool this year, \$302,783.04, was more than \$100,000 larger than ever before. Seventy-five per cent of this amount is to be divided among the Yankees, for their victory, will receive 60 per cent and the Giants 40 per cent. Figured on a basis of 25 eligible players, each Yankee will receive about \$6,530, and each Giant about \$4,363. Each second place club will receive about \$27,208, and each third place club about \$18,130.

The Best Advertisement

Senator Copeland returns to New York vastly impressed with what he saw down here in the piedmont hills. The Greensboro News sifts through the various dragnets that drew the interest and attention of the Senator, good roads, many factories, the hustle of the people, the beauty of the landscape, the industry being exhibited and the various testimonials of progress and thrift. But Senator Copeland had less to say of all these than of the orthopedic hospital near Gastonia which he visited. It was this institution that advertised North Carolina to him.

The News indicates: Why do you suppose? Is there any particular reason that a somewhat modest institution of this sort, that is humbly but effectively doing its work of reclamation for little children, should have stood out in the mind of Senator Copeland as being the greatest attraction he saw among the many on his excursion into these parts? We should think so.

What North Carolina is doing not only in this institution but all other institutions that relieve the distressed, reclaim the broken, heal the sick, and mend the impaired, illustrates what is dominantly in the heart of this people. After all, it is the heartfulness, the soul of any community that is its best form of publicity. The world gets tired of looking at bitulithic roads. They are not so uncommon, anyway, in these days. Other communities have them in abundance and they are all just alike. So also does the visitor wince with his vision of a people bent with their labors. Work and thrift and industry are not exceptional. One can see factories anywhere. But the thing that stands out as exhibition of the genuine progress any commonwealth can make is the evidence that it cares for its unfortunate, for its despairing, for its sick and wounded, and for its bruised and broken. Let a State show its soul through these avenues of ministrations and it gets itself talked about far and near, and worthily.

Urges Steel Houses for Japan. Honolulu, Oct. 15.—The devising of earthquake-proof structures is the aim of Dr. Thomas A. Jaggar, Jr., government volcanologist at the Kilauea observatory on the slopes of Mauna Kea, island of Hawaii, who has left here for Japan to study the effects of the disastrous earthquakes that visited the island empire recently.

He suggested that designers might develop an all-steel type which could withstand shock and obviate catastrophes similar to those of Tokio and Yokohama. "Owing to the fact that we are in close contact with the Japanese in Hawaii, men who know how Japanese houses are built, there is a supreme opportunity here to design a light steel structure that could be built by the thousands to take the place of the destroyed buildings and houses of Japan," he said. "This is one of the problems that the Hawaiian research association will attack, a study of the facts evident on the ground in Japan."

The largest artificial lake in Europe is located on the island of Sardinia. A hydroelectric development has recently been completed on the Tirso River, near Oristano, which 420,000,000 cubic meters of water have been impounded; and this is but the first of a series of seven artificial reservoirs included in this project. The water will be used for irrigation and power and will give permanent employment to more than 200,000 people.
