KANNAPOLIS DEPARTMENT

Kannapolis, Oct. 31.—Virginia Nellie, six-week-old infant of Mr. and Mrs. W. P. Law, is improved following a slight indisposition at the home of Mrs. Laura Smith, of Oak Street, where Mrs. Law has been spending some time. The item in last week's Kannapolis news which read "Dr. and Mrs. M. L. Troutman, of the Lutheran Seminary at Columbia, S. C.; Mr. Ralph Barringer, and Miss Rosalie Gilton attended the pageant, "The Way," at St. James Church, Concord, on Sunday evening." should have read thus: "Dr. and Mrs. M. L. Troutman, Mr. Edward Troutman, of the Lutheran Theological Seminary, Columbia, S. C.; Mr. Ralph Barringer, and Miss Rosalie Gilton attended the pageant, "The Way," at St. James Church, Concord, on Sunday evening." Mrs. Baird is spending some time in Chester, S. The Sunbeam band rendered a delightful program Sunday afternoon at the Baptist Church, Miss Pauline Tesh being in charge, together with Miss Ida Reader, who is responsible for the splendid training of this band of Sunbeams. The program and the admirable manner in which it was rendered served as an illustration of the importance of early training, there being as a rule a marked contrast in the readiness and growing efficiency between these children who are receiving training at a young and tender age and the grownups who lacked such training. At the conclusion of the service Mrs. C. K. Turner gave a talk full of interest, and especially of encouragement, to the Sunbeams and their leader. The friends of Mr. and Mrs. J. V. Corn will be delighted to know they have returned from Spartanburg to make their home in Kannapolis for the present. As a token of appreciation for the two sermons preached Sunday, which was the beginning of the new conference year and not included in the past year, there was presented to Mr. Swearingen the sum of forty dollars, which was contributed by the congregation as a farewell offering. Mr. Swearingen and family have many friends here who regret to see them leave. Mr. Swearingen has done a great work here, both he and Mrs. Swearingen working with untiring effort. Winnipeg, Manitoba, Oct. 30.—The total wheat crop of the Canadian provinces of Manitoba, Saskatchewan and Alberta is estimated by government officials at 425,367,169 bushels, an increase of 50,000 bushels over the record 1922 yield. The three provinces now produce approximately 95 percent of all wheat grown in the Dominion, officials said. Forty-five and 50 bushel yields were reported in a number of areas while in others the run was 60 bushels to the acre. The wheat weighed between 65 and 67 pounds to the bushel and more than 90 percent of it graded No. 1 hard.

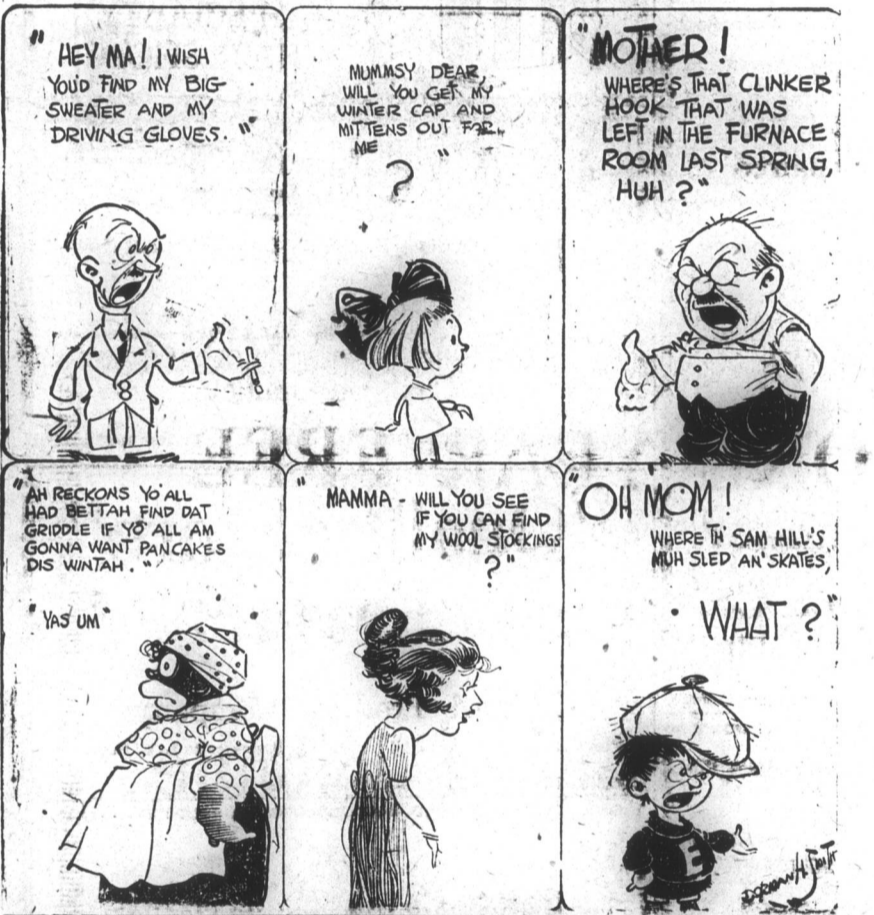

Red Cross Aid to Disabled Ex-Service Men Increasing

DISABLED VETERANS IN HOSPITALS RECEIVE INDIVIDUAL AID FROM RED CROSS WORKERS

Washington—Five years after the armistice ending the World War, reports of American Red Cross services in behalf of the men who wore the uniform of the United States refute any belief which might exist that the wounds of that conflict are nearly healed. In urging an increase in membership enrollment during the Red Cross Roll Call opening on Armistice Day, Nov. 11, facts convincingly supported by authoritative statistics are issued by the national organization showing that assistance was extended by the Red Cross to about 200,000 former service men or their families, and 62,296 instances of definite and specialized aid to men in hospitals were noted in the past year. In all hospitals 34,793 soldier patients were registered, while from March to October dispensaries and out-patient clinics gave 44,845 treatments and 22,309 examinations. On Sept. 1 there were 73,276 former service men undergoing vocational training, all of which indicates that the Red Cross in supplementing the work of the government physicians and nurses by helping to make the patient contented, by allaying worry over his family, furnishing personal services and providing recreation and entertainment, has an increasingly large work to do in this paramount activity. In this activity \$5,866,255 was expended by Red Cross Chapters and the national organization during the last year. One problem in which the Red Cross alone is meeting a financial demand is that of the transient disabled ex-service man and his family who must be cared for while traveling from place to place. In personal loans and grants to these travelers \$138,334.71 was spent during the year. The variety of Red Cross service also embraces straightening out complicated claims, supplying recreational equipment to veterans' training centers, furnishing capital loans to blind veterans that enable them to begin business, hospital vocational training, all of which indicates that the Red Cross in supplementing the work of the government physicians and nurses by helping to make the patient contented, by allaying worry over his family, furnishing personal services and providing recreation and entertainment, has an increasingly large work to do in this paramount activity.

ANOTHER \$100,000 FOR METHODIST ORPHANAGE. New Administration Building is Made Possible by Gift of S. C. Vann. Raleigh News and Observer. The two hundred thousand dollar building program of the Methodist orphanage, approved by the board of trustees at the June meeting (was supplemented yesterday by the decision of the board to donate the \$100,000 given to the institution several years ago by S. C. Vann, of Franklinton, with the \$35,000 which has accrued to the erection of a modern school and administration building. Work on the whole program, which will probably entail the expenditure of \$350,000, will begin in the spring. The action of the board yesterday on the disposition of the gift of Mr. Vann was with the entire approval of Mr. Vann. The gift was in Liberty bonds and the increase on the gift has been material. The new building will take the place of the old Jenkins building erected more than 20 years ago, and which was doomed to go under the plans of Mr. Sears, noted landscape architect of Philadelphia, who has mapped out the grounds and provided for the expansion of the institution in conformity with the best principles of landscape architecture. The gift of Mr. Vann, which is one of a number he has made to the institution, is held by Joseph G. Brown, a member of the board of trustees, and A. H. Vann, his son. One of the queerest creatures imaginable is the midwife toad. The female lays her eggs in long streamers, which the male collects and wraps around his legs. He carries them about in this way until they hatch into tadpoles.

Freight Riders Sue. Salisbury, Oct. 30.—Three men have filed suits of \$10,000 each against the Southern Railway Company in Superior Court here, seeking damages as a result of being jailed on a charge of "beating a ride on the train without paying fare." The men said they were from Greenville, S. C., and were arrested Sunday near Salisbury by one of the Southern's special officers. They were placed in jail until the hearing before a local magistrate who dismissed the case on the ground of a defect in the bill of indictment. Messrs. G. G. Allen, E. J. Sharp, H. A. Scott, A. A. Allison, and H. A. Allred attended a banquet last evening in Salisbury with the Rotary club of that city as hosts to the men of this territory. Prof. Robertson speaks tonight in the Y. M. C. A. parlors to a representative group of men and women on the school election to be held in the county on November 20th.

High Price of Education

Over in Germany cash is out of the question when paying school fees. The children couldn't carry enough marks to pay the bill. So they bring teacher a sack of potatoes and some butter for a month's tuition.
