

SEVENTY-SIX Years Young, LOUIS C. POST Says He At Last, Cured of Rheumatism.

"I am now past 76 years of age and never felt better in my life," said Louis C. Post of Washington, D. C., "and I can do up my end of a day's work with a best of them."

"When I commenced to take NEUTRONE PRESCRIPTION '99', my joints were stiff and swollen and the pain was so bad that I could hardly sleep at night."

"Today, after a few weeks' use of Neutrone Prescription '99', I have as much strength and energy as I ever had. I do not feel a day over 40 years of age, earn my own living and ask no favors of any man, and all my friends are telling me how well I look and act."

"To tell the truth, I do not know what would have become of me if I had not moved all my rheumatic troubles and given me a new lease on life, and I will praise it to the end of my days. Neutrone Prescription '99' certainly put me on my feet when everything else had failed."

Neutrone Prescription '99' now comes in Tablet Form as well as in Quinid Form, whichever is preferred. Leading Druggists everywhere.

Glösen Drug Store

THIS little chart shows that for years Goodyear Tire prices have been kept below the average price level of all commodities.

As Goodyear Service Station Dealers we sell and recommend the new Goodyear Cords with the bonded All-Weather Tread and back them up with standard Goodyear Service.

SOUTHERN MOTOR SERVICE COMPANY, INC.

GOOD YEAR

WOMEN FROM FORTY TO FIFTY

Will Be Interested in Mrs. Hooker's Recovery by Use of Lydia E. Pinkham's Vegetable Compound

St. Paul, Minn.—"I was going through the Change of Life and suffered from a run-down condition and the troubles a woman has to go through at that time, hot flashes, nervousness and headaches. At times I was not able to do my work, but since taking Lydia E. Pinkham's Vegetable Compound I am gaining every day and can do my work with more ease than I have for five or six years."

Write to Lydia E. Pinkham Medicine Co., Lynn, Massachusetts, for a free copy of Lydia E. Pinkham's Private Prescription upon "Ailments Peculiar to Women."

Old Newspapers 5 Cents a Roll of 25 at Times and Tribune office.

**MADE THE SAME AS THIRTY YEARS AGO**  
FOR 30 years physicians have prescribed Gude's Pepto-Mangan to their patients because, in addition to its other invigorating ingredients, it contains a form of iron which is readily absorbed, does not upset the stomach or affect the teeth, and is thoroughly efficient as a tonic and blood enricher.  
Get a bottle and begin to take it. At your druggist's, in both liquid and tablet form.

**Free Trial Tablets** To see for yourself the health-building value of Gude's Pepto-Mangan, send for our Free Trial Package of Tablets. Send no money—just your name and address to M. J. Breitenbach Co., 24 Warren St., N. Y.

**Gude's Pepto-Mangan**  
Tonic and Blood Enricher

**Ouch! Aching Joints, Rub Rheumatic Pain**  
Rub Pain right out with small trial bottle of old "St. Jacobs Oil."  
Rheumatism is "pain" only. Not one case in fifty requires internal treatment. Stop drugging! Rub soothing, penetrating "St. Jacobs Oil" right into your sore, stiff, aching joints, and relief comes instantly. "St. Jacobs Oil" is a harmless rheumatism liniment which never disappoints and cannot burn the skin.  
Limber up! Quit complaining! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, and in just a moment you'll be free from rheumatic pain, soreness and stiffness. Don't suffer! Relief awaits you. "St. Jacobs Oil" is just as good for sciatica, neuralgia, lumbago, backache, sprains.

**TO DARKEN HAIR APPLY SAGE TEA**  
Look Young! Bring Back Its Natural Color, Gloss and Attractiveness  
Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.  
While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

**Not Only a Labor of Love, but a Great, Serious National Responsibility**

By BRIG. GEN. MILTON F. DAVIS, in New York Herald.

**H**ISTORY will bear me out when I say that we are the most warlike nation on earth; at the same time the most unimilitary. This is a natural result of our national life—of the individuality of our forefathers, Indian wars and long-lasting Western settlement. We are ever ready to fight at the drop of the hat, but never ready to come under military discipline. Individuality, personal initiative and personal independence are our national characteristics. The statement may be certified by the fact that we have had 104 calls to arms since 1776.

We should grasp the fact that trained manhood is the basic factor of national defense, and that the nation will be secure in proportion as every citizen recognizes his responsibility and does his bit.

National strength is the underlying principle of national growth, and to fulfill the mental, moral and physical fitness of our people are the three graces of better citizenship. We are not greatly interested in ourselves; we are now sitting on the back porch of life contemplating the end of a more or less perfect day. But we are very much interested in the oncoming generations of our nation, and who shall say but that on them rests the future of the world. The chronicles of recent years would certainly so indicate.

World barriers have disappeared. Our daily shopping is done in the international market place, where our own wares predominate. We are the creditor-nation of earth. We have five-eighths of all the gold known to exist. We have to look only forty years to see where we shall be forty years hence and to realize in a measure that the responsibilities of our sons will be greater than ours have been. Their preparation is in our hands. It is not only a labor of love, but a great, serious national responsibility.

**"I Am Like Those Gladiators. I Fight, but Not as One Who Beats the Air"**

By REV. F. E. HOPKINS, Presbyterian Minister, Michigan City, Ind.

What is the matter with our teachers of morals that they should hold up as magnificent examples of the glory of being physically fit such Bible heroes as Samson and then wish to throw Dempsey and Firpo into jail? Why do they denounce war and applaud the pacifist and doughface.

It was by the power of his muscles that Samson, the prophet, lifted the gates of Gaza and paid the Philistines for their injustice in punishing his sin by making their temple a heap of ruins.

It was St. Paul who said, after watching the Olympian athletic games of his day: "I am like those gladiators. I fight, but not as one who beats the air."

Every man, woman, and nation should be so fit no one would dare to kick them. The men who can silence machine guns and drive in a squad of enemy soldiers like so many ducks, and the man who can for five minutes close the eyes of a giant to the beauties of the Hudson, the Palisades, and the Statue of Liberty, as Dempsey did to Firpo, gives the world of normal men and women a healthy, holy thrill.

**"We Have Been Sacrificing Women and Children on Altar of Mammon"**

By SAMUEL GOMPERS, American Federation of Labor.

We have been sacrificing women and children in this country on the altar of Mammon, but the conscience of the people of America has been awakened. Child life of the country must be considered at all hazards. To say that the Constitution of the United States is impotent to protect the children of our time is begging the question.

The courts have declared that laws which were passed by the congress of the country upon the demand of the people, to protect minors from undue exploitation, are void. That the people, through their representatives, cannot pass a law to protect the child life of our time, is to lay the greatest indictment against our competency.

This movement of ours, commonly known as a labor movement, is born of necessity. It is the result of conditions, born in hunger by hunger—hunger for better food, hunger for better shelter, hunger for rest, hunger for recreation, hunger for music, the arts, literature—all that goes to make up a better and fuller life.

**Angling Always a Problematic Sport; Ways of Fishes Mysterious**

By DR. HENRY VAN DYKE, in New York Herald.

Angling has always been a problematic sport. The ways of fishes are mysterious. Who knows where the salmon schools spend their winters? Why the black bass will refuse every temptation for a week and then suddenly, on an ordinary day, bite greedily at almost any old lure? Why the rainbow trout planted in England thrive for a couple of years and then vanish away like the Snark that was a Boojum? Why the same fish planted in similar waters in New Zealand stay, and multiply, and grow enormous? Where the tilefish go when they disappear for ten years at a time?

Moreover, each individual fish of all the game species sets a particular problem for his would-be captors. He has his own prejudices and peculiarities about rising, his own way of playing and his personal tricks of escape. No two fish are just alike. That is the charm of angling. You may say that every big salmon or trout caught on fine tackle means the solution of a new and separate problem.

**Cultural Education for Young Man Should Precede Technical Training**

By COL. WILLIAM N. STARRETT, in New York Herald.

Among the large number of young men constantly seeking an opening in the professions and in business, the percentage that I have seen who possess the valuable asset termed personality, is small.

For this reason, I have come to the conclusion that a cultural education should precede technical training, or should at least, be combined with it. It seems to me that a young man's chances are greatly improved by an attractive presence, and surely, a certain amount of culture is a great aid to a pleasing personality. By this, I mean, for example, the technically educated man should have the best possible knowledge of the English language, and an appreciation of the amenities of life.

Many young men who possess a good technical education use astonishing English; their grammar is bad and their diction is often deplorable. In short, this side of their education appears to have been sadly neglected in their haste to pursue a certain course of training to its conclusion.

**BOYHOOD HEROES**

As Rare as a Dodo

Introducing the Fessa from Madagascar. It was presented to the London zoo, and was caught only after a search lasting two years for one of the species.

**ONE YEAR FREE**

We Will Give The Progressive Farmer

—and—

**The Concord Tribune**

Both For One Year For Only \$5 The Price of The Tribune Alone

(This applies to those who get their mail on the rural routes or to any point in North Carolina outside the City of Concord. To subscribers in Concord and outside North Carolina the price is \$6.00.)
