YOUR STAFF OF LIFE

Drugs Excite the Kidneys, Drink Water

Take Salts at First Sign of Bladder Irritation or Backache

The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time. By all means have your physician examine your kidneys at least twice a year.

Jad Salts is inexpensive; can not injure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time. By all means have your physician examine your kidneys at least twice a year.

CHANGE OF LIFE

Florida Lady Was in a Miserable Condition, But Says She Found Cardui Helpful, and Got Well.

Altus, Fla.—In explaining how she found Cardui so helpful during change of life, Mrs. Ella M. Bailey, of Route 2, this place, said:

"I became so weakened it was an effort for me to get around. I knew what was the matter, but I felt like I couldn't give up.

"I just dragged, and I certainly was nervous. I was so restless I could not sit down long—yet so weak I couldn't get about. It is a most miserable and such a helpless feeling.

"I would get depressed and out of heart.

"I began to feel, after a while, there was no use to try to get well. This is all wrong, for it makes a person worse.

"I had heard of Cardui, and thought it might strengthen me. A neighbor had used it with good results.

"I took one bottle (of Cardui), then I saw I wasn't so nervous, so kept it up. "Gradually the nervousness left me. I began to eat and sleep better. Was soon well, and all right. Cardui did wonders for me, and I certainly do recommend it."

Thousands of other women have written, to tell of the beneficial results obtained by taking Cardui, and to recommend it to others.

RED PEPPER FOR COLDS IN CHEST

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

Red Pepper Rub is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known.

Devises Machine For Laying Heavy Rail

Above, view showing Sharpe Rail Laying Machine on the job at Concord, N. C. Roadmaster T. E. Sharpe, who devised this machine, is shown at the left. Extra Gang Foreman J. T. Savage is standing in the center and to the right is Track Supervisor C. E. Fulk. Below, three views of double track on Charlotte Division laid with new 100-lb. rail.

Roadmaster T. E. Sharpe has fitted up a rail laying machine which has been very successfully used in laying 100-lb. rail on the Charlotte Division of the Southern Railway System. He was induced to do this by a desire to effect labor saving in the handling of this heavy rail and also to endeavor to minimize personal injuries to the men handling the rail, the latter being a usual accompaniment of work of this kind.

The machine was built entirely from serviceable second hand material in stock at a total cost, including labor and material, of \$125. Two pair of old push car wheels and axles were used, on which a deck 12 feet long was placed, and on this was mounted a simple crane with a boom 20 feet long. The crane is operated by hand power hoisting cap placed on rear of crane frame. The picture shows how the machine is operated.

The results obtained have been very satisfactory. There have been no personal injuries to the men and the machine has set in the rail at the rate of two rails per minute or 120 rails per hour with six men handling the machine, as against approximately the same amount of work on average by sixteen men when placing rail by hand.

Funny Looking Thing, Isn't It?

The new Oehmichen-Peugeot helicopter No. 2, designed and piloted by E. Oehmichen, is reported to have been very successful in flights in France. The pilot did not attempt to get altitude, but confined his flying to from 10 to 15 feet from the ground. That he was able to stay aloft at even that altitude is considered a big step forward in aviation.

TODAY'S EVENTS.

Saturday, November 24, 1923.

Many veterans of the war between the States will recall today as the 60th anniversary of the great battle of Look-out Mountain.

Hon. William S. Fielding, Canadian minister of finance and a noted veteran in Dominion public life, celebrates his 75th birthday today.

One of the most spirited political campaigns Winthrop has experienced in some years closes today, preliminary to the civic elections on Monday.

The present football season will reach its climax today in the Army and Navy game at New York and the Yale-Harvard contest at Cambridge, Mass.

It is expected that impetus will be given to national politics in Missouri, Jefferson City today of the Republican State committee and the Missouri Republican Editorial association.

Chaim Weizmann, president of the World Zionist Organization, is sailing for the United States today to confer with prominent Jewish leaders in America concerning the present state of affairs in Palestine.

With a view to promoting amity among the nations of North and South America and of raising the health standard of the western hemisphere, the first Pan-American Red Cross Conference will assemble today at Buenos Aires.

Balloon Tires—Optional Equipment on Anderson Cars.

After having made a careful study and many tests under every possible road condition, the Anderson Motor Company of Rock Hill, S. C., is offering balloon tires as optional equipment on all models of Anderson cars. An official of the Anderson Motor Company states that it is almost impossible to describe the wonderful effect balloon tires have on the riding quality of a car. The first and most noticeable effect is the greater degree of riding comfort. Road surface irregularities are in most cases entirely obliterated. The ups and downs of the road are still there but the tire absorbs them. Because of the cushioning effect obtained with a large tire and less air pressure the car is not subject to the sharp rocks and severe jolts. The driver does not have to pick out all the good places in a rough road as it makes little or no difference whether he takes them or not. Of equal importance with the greater degree of comfort is the effect of the mechanism and body of the car itself. As the body, frame, and mechanism are not subject to the violent jolts and jars, there is less tendency for trouble to develop which necessitates adjustment. The gasoline consumption is slightly less and speed can be increased because it is no longer necessary to slow down for every bump or obstacle in the road. Steering is easier and the tendency to skid is almost entirely eliminated. Because of the many added advantages and greater riding comfort—the Anderson Motor Company anticipates a large demand for their cars to be equipped with balloon tires and have made preparations to meet the demand without delay.

CHRISTMAS CAKE

1/4 cup shortening
1 cup sugar
1/2 cup strong coffee
1 1/2 cups sifted flour
2 teaspoons baking powder
3 egg whites
3/4 cup chopped walnut meats
1/4 teaspoon each cloves, mace, cinnamon and allspice.

Cream shortening, add sugar, and cream again. Add coffee, sifted dry ingredients and nuts; mix well. Beat egg whites stiff and fold into mixture. Bake in moderate oven (325°) in loaf or round pan one hour.

When you entertain, you pay your guests the highest honor by serving something you've made yourself. And now at Christmas, the entertaining season, plan to

Make Christmas Goodies at Home

Get our the "sugar and spice and all things nice." Home cooked dainties are more wholesome and nourishing. Make your own mince pies, gingerbread men and cookie stars for the tree, candy for the stockings. And don't forget the little neighborly gifts—a jar of herring, a fine loaf of nut bread, or some of this rich, delicious Christmas cake. They are all cheaper-made at home and gas for cooking will help you succeed with every recipe.

GOLDEN RULE DAY

To Be Observed by the School Children of the State December 2nd.

Raleigh, N. C., Nov. 23.—Solemn observance of "Intentional Golden Rule Sunday" on December 2nd by the school children of North Carolina has been asked by Superintendent of Public Instruction A. T. Allen in a letter to school officials which has just been made public.

Golden Rule Sunday has been announced in fourteen nations to better bring to the attention of the civilized world the meagre fare which the Armenians are living upon. On December 2 our people are asked to eat a slice or two of stale bread and a cup of thin soup or water, and send the difference between the cost of this and our regular beautiful Sunday dinner to the Near East Relief.

John M. Scott, state treasurer, 307 Robinson Building, Charlotte, or any local Near East Relief chairman will receive these donations. This day is not to be confused with the regular Near East Relief campaigns which will come in different counties in different times this winter and spring. The object of Golden Rule Sunday is to provide funds to help feed the hundreds of thousands of refugees which have been thrown on the hands of the Near East Relief as the result of the Lusane treaty.

The regular campaign of Near East Relief is for funds to feed, clothe and educate the 110,000 orphans of Christians in the Near East which the American people are bringing up to be the future Christian races in the Near East. In requesting observance of this Golden Rule Sunday Mr. Allen said:

"On December 2nd people in 14 nations are being asked to observe international Golden Rule Sunday by using the menu regularly given children in orphanages supported by the Near East Relief. Such a dinner observed throughout the country should have a profound effect in arousing public sentiment concerning the problems of the children of the Near East."

"The public school children of America have here an opportunity to aid in creating this public sentiment through taking home the menu cards and asking their parents to observe International Golden Rule Sunday. I earnestly hope that the children under your supervision have a part in this great service for these children of the Near East."

COSMETICS WORN ON EARS BY INVENTION OF WOMAN

Earrings Carry Rouge and Lip Sticks Right Within Reach.

Pittsburgh, Nov. 23.—Paris may dictate some styles in women's wear, but not all of them. Pittsburgh has introduced the cunning lipstick and rouge-stick. It is the invention of Miss Lorena Heil and is the latest word. In fact, it is the period after the last word.

Colorful little containers, one holding a rouge-stick and the other a lipstick, are attached to jeweled earrings, and when a woman wishes a little dab of this or a little touch of that, all she has to do is to reach to the correct ear and there is the necessary cosmetic.

And they are not heavy either, not as heavy as some of the many jeweled earrings.

The Mooresville Depot.

Charlotte Observer.

Charlotte, water, or in other words, when the people of Mooresville get together on a site for the depot, the Southern Railway Company will build that town a structure of which it would be proud. The company recognizes the need of a better depot at that place as well as the people of the town recognize the need. But there is a division about the site. Part of Mooresville's population wants the depot adjusted to one side, another part wants it fixed according to another idea. Some are contending for a joint passenger and freight depot. The Southern has its plans ready for a passenger station of imposing dimensions, but wants to build on the present location, which is central and convenient. But the street that cuts by the south end of the building is in the way. If the people would agree to the relocation of this street be changed, the way for construction of their proposed depot would be opened. The situation might be sifted down to the simple proposition, that of the people of Mooresville want a new depot had enough to make the desired street change they will get it.

Post and Flagg's Cotton Letter.

New York, Nov. 23.—It is passing difficult to draw any encouragement to look for a decline from the figures that are given but which continue to show that the price has not yet reached a point that will force any large curtailment and progress in that direction is still painfully slow. There is increasing talk of reduced time by mills but spot demand in southern markets is reported good, especially for export account. Reactionary sentiment makes it an expectation that price fixing will run out presently and the belief that some fresh powerful stimulation would be required to persuade speculative interests to follow any further advance. Declines, however, do not go far before the supply contracts begin to shrink and even scattered and moderate demand settles to steady prices and bring about recovery. A fairly large number of notices is expected on Monday and may temporarily cause a loss in the December premium but any good merchantable cotton will find a resting place without much delay.

POST AND FLAGG.

Il Guilty Let Go Funched—He Is Dead.

Bregenz, Austria, Nov. 23.—May Almighty God punish me with instant death if I am guilty, was the final declaration of a man on trial here for the murder of his wife. Immediately after uttering these words he swooned in the courtroom and died before doctors could come to his aid. His statement was made during a heated cross-examination under which the accused great excitement. Doctors certified that heart failure caused his death.

Forests Election of Calvin Coolidge.

Professor Raymond of Paris, whose predictions of world events have earned him the title of "The Seer," predicted the election of President Coolidge. America's intervention in Europe's financial difficulties and between 1923 and 1924 a war between the United States and Japan.
