of an automobile certineate of ownership for 'a Cabarrus county farmer with a weatherbeaten Ford and a family of nineteen.

The farmer sent in his fee with a letter felling of the tribulations brought by his Ford and of the heavy burden imposed in the support of his big family. "I personally thing." Mr. Everett wrote him in remitting the 50 cents fee, 'that your contribution' to the state has been sufficient to justify some substantial return: therefore, I wish the privilege of personally paying the cost of registering your automobile." Mr. Everett left a 50-cent piece, taken from his own pocket, with the automobile license department to cover the cost of the farmer's certificate.

In writing of his trouble, the Cabarrus farmer spoke of financial burdens and the threat of hard times, but wound up with a postscript announcing that as soon as he could go to Charlotte he proposed 10 buy a new automobile. His letter ran as follows:

"I received your letter and blank to fill out. The car I has I bought it in 1917 from a man in Georgia. It was about worn out when I got it. I paid \$160 to have it fixed up. Everything has been new except bed and wheels. I has been trying to trade it but I can't get but about 75 or 80 for it and may be I can't, get that. They are selling better ones than mine here for 40 and 50 dollars. So I send the \$50 because I must go to the fields in mine. My farm is about 7 or 8 miles off.

"I had paid \$14 this year on the old car. It was one of the first models made when I bought it and I am not able to get a new one. My family is too large. My wife is the mother of 10 children and you can tell from that I aim table to get a car but hafter have one to go to my little farm back and Ford, so you can send what it is to send. So far as stealing a car it wont do it a bit good.

"Yours truly."
