## Board of Directors of Y. M. C. A. Hold Enthusiastic Meeting.

A large attendance and much enthusiasm over the program of both the physical department and boys' work department were the outstanding features of the board meeting Thursday night at the Y. These departments, under the able leadership of J. W. Denny, physical director, and Harry L. Johnson, boys' work secretary, have moved forward with such progress that from the figures available in the year book, it is clearly shown that Concord has one of the best four-fold programs of any association in the Southeast, although our facilities are much more limited than some of the larger cities. Important matters discussed relative to the financial campaign for funds for current expenses for the next fiscal year which begins May 1st. One of the important committees appointed was the budget committee which will meet at once for the purpose of reviewing the budget and operating expense of the Y. A campaign committee was appointed by President Niblock to make arrangements to immediately formulate plans for raising the money necessary to carry on an enlarged program. Secretary Blanks, in his monthly report, asked that no provision be made to raise funds for any new additions or buildings, but that ample funds be raised to carry on the extension work in the industrial sections of the city, for a filter for the swimming pool, so that the water can be made as pure as that we drink, for a bowling alley for the business men of the city and current needs in the way of equipment, etc.

No new building operations will be undertaken, but the present facilities will be used to the utmost to accommodate the hundreds of boys and girls who daily come and go to the building. A general report was made of the social and religious activities, many letters were read commending the Bible story telling contest, the Y paper, and the general activities of the association, and it was the unanimous opinion of those that heard the report that the city of Concord is getting a lot of very fine advertising from the activities of the Y.

Pansies, double daisies and forget-me-nots should have their winter cover removed at the earliest moment to give them a start into bloom with the first warm days. The same for primroses.

## AIRPLANES MUST DO AS ASHEVILLE SAYS

**Law Passed Making It Unlawful For Birds to Fly Closer Than 150 Feet of Any Building.**

Asheville, April 10.—The swooping of an airplane, used for advertising purposes, over McCormick field, in proximity to the heads of ball players, yesterday afternoon brought prompt reaction from the city commissioners this morning who passed on first reading an ordinance prohibiting the flying of airplanes closer than 150 feet to any building in the city. The plane is said by officials to have endangered lives of players and spectators. Had the plane become suddenly disabled a loss of life would have resulted, it was pointed out. Asheville is believed to be the first city in North Carolina to pass legislation governing airplanes.

**Wake Forest Student Receives \$20 Tip.**  
Wake Forest, April 10.—The days of Alladin lamp happenings are not done yet. If you don't believe this ask John Thomas Warren Davis, Jr., of Mount Airy—a member of the freshmen class at Wake Forest College and singer, violinist, and reader with Dr. H. M. Pottery's glee club and orchestra. A Pennsylvania tourist tipped Davis to the snug sum of \$20 at the Wake Forest hotel the other day. And, mirabile dictu, it was the very day that the glee club was to leave for Rich Square and Chowan College and Davis was sadly in need of pin money with which to play the lord to some of Dr. Weaver's fair co-eds at Chowan.

## Wake Forest is paying a good part of his college expenses by waiting on the table.

The rich tourist from Pennsylvania was taken by the smiling, courteous, efficient youth who served his dinner. The two grew chummy before the half-hour was over. The tourist had confided in Davis that once upon a time he waited on table to pay college expenses.

"Here's a little remembrance," said the Pennsylvanian, thrusting a wadded, clothie feeling bill into Davis' hand.

Miss Madejda Stancioff, known as the first woman diplomat, has been married in London to Sir Alexander Kay Muller, member of a prominent Scottish family. About two years ago it was announced that Miss Stancioff had been appointed secretary to the Bulgarian legation in Washington, but official attendance at the Lausanne Conference prevented her from taking up the duties of her post. Recently she has been attached to the Bulgarian legation in London.
