

THE MENTAL SMILE is an outward evidence of internal satisfaction, with the food. And here we cater to smiles, for all our regular patrons are pleased with our cooking, our food and our service, and the smile generally broadens when they see the check, for our charges are as satisfactory as the meals.

To End "Lame Duck" Congresses. Literary Digest. One of the few constructive measures passed by either the Senate or the House during the present session, in the opinion of the Chicago Journal of Commerce, is the Norris resolution ending "lame duck" Congresses, recently passed by the Senate, 63 to 7. Under this proposed amendment to the Constitution, the newly elected President would be inaugurated and the Senate would convene in January. The short session would be done away with. The outgoing President would mark time no longer. As the Chicago paper puts it, "The government would be ruled by a President and a Congress who have received a fresh mandate at the polls." Thus, remarks the Norfolk Virginia-Pilot (Ind. Dem.), "there is set on foot a movement for the correction of one of the conspicuous defects in our present form of government." The Norris resolution now goes to the House of Representatives, and if that body passes it the proposed amendment will be submitted to the States for ratification.

The possibility of Congress being controlled by members repudiated at the polls months before was not dreamed of by the farmers of the Constitution," declares the Democratic Louisville Courier-Journal. Yet each year, across the Norfolk paper, we see the assembling of a "lame duck" Congress, and "lame duck" legislation known as the short session, in which there are "innumerable opportunities for frustrating the will of the people." Under the proposed plan, notes the Independent Washington Star, "a Congress elected in November would assemble in January, avoiding the lapse of thirteen months, as is now the case, before functioning. Moreover, in case the choice of President is thrown into the House of Representatives, the Chief Executive would be elected by a Congress fresh from the people."

SCHEDULE OF INDUSTRIAL CLUB WORK

Concord Y Concord. Monday—Wildfires meet at No. 2 School. Leader, Harry Lee Johnston. Tuesday: Orangoutangs, White Eagles and Red Birds meet at English Mill School. Leaders, Prof. Osborne (boys); Misses Mary Dayvaut, Virginia Batte, and Era Linker (girl leaders). Wednesday—Bluebirds of the Brown Mill School meet at the Y. M. C. A. for physical exercise. Leaders, Mrs. Culclease and Harry Lee Johnston. Thursday—Eagles and Bluebirds meet at the Brown Mill School. Leaders, Prof. Ed. Joyner (boys); Mrs. Culclease (girls). Friday: Black Hawks meet at the colored high school. Leader, Harry Lee Johnston. White Eagles meet at the Y. M. C. A. for physical exercise. Leaders—Prof. Osborne and Mr. Blanks. Saturday: Orangoutangs (Gym) 2 to 3 p. m.; Wildfires (Gym) 3 to 4 p. m.; Eagles (Gym) 4 to 5 p. m. Leader, Harry L. Johnston. Prof. Osborne, Prof. Joyner and Mrs. Culclease deserve much credit and praise for the splendid co-operation they are giving the Y. M. C. A. in the club work at the several schools in the industrial sections of the city. They have worked untiringly in all phases of the club work and a great part of the success of the work has been realized by their efforts.

REALLY DONE.

Rev. J. C. Rowan, Pastor First Presbyterian Church, Concord Y Concord. The Secretary of our local Y. M. C. A. evidently has "the faith that removes mountains," for he has been removing what has hitherto been considered, if not actually called, mountains of difficulty—impossible tasks. "Water and oil will not mix," but water and oil can be mixed, if you will only keep stirring them as our Secretary stirs them. We now have seven (7) industrial clubs in connection with the local Y. M. C. A. work, with an average attendance of fifteen hundred (1500) a month. "The Christian Citizenship Four-fold Program" being put on with marked success in each club. What is the explanation? Plainly Blanks! If anyone were a doubting Thomas a few months ago, let him inspect what has really been done and be convinced. What will the community do to "carry on?" Again, the Bible Story Telling Contest was put across in a great way. This contest caused more of the Bible to be heard, read and memorized than all other agencies in the city combined in three times the time. Men, women and children are talking interestingly concerning the contest for next year. Again, the volley ball Business Men's Clubs through our secretary and his assistants have proved to many an undreamed of success. Dozens of men—business men—may be seen at the Y every afternoon and every evening keeping themselves "physically fit." In fact the local Y. M. C. A. has become the real hub of the community.

Bald Eagle in Greenville. Greenville, N. C., April 10.—An American Bald Eagle was brought to this city and displayed in front of the newspaper office here. It measured six feet and nine inches from tip to tip of its outspread wings and weighed ten and a half pounds. An automobile party brought the bird to town and said that they caught it after a difficult struggle when the bird attempted to cross the road in front of the car and was blinded by the lights. Joe Stanton, John Bunn Briley, June Edwards, and Charlie Bell, who composed the party, said that they caught the bird near Grimesland.

Don't Brag. If a man doesn't brag of bravery, he can often summon enough of it to carry him through an emergency.

HEARD THE LATEST? It is Floor's Checkerberry Chewing Gum. Yes, the kind with the new, refreshing flavor that's pressed in. Say: "Check-check-Checkerberry!"

Church vs. Easter Dinner

"O, Mother can't go—she has dinner to get!" Is this the Easter morning sentiment in your household? Or do you put your dinner in the oven, adjust the heat control, don your becoming new hat and fare forth with the family?

Time and Temperature Cooking Frees You From the Kitchen

Letting the dinner cook while you're out of the house altogether is a popular phase of the new Time and Temperature Cooking. Place in the oven meat, vegetables and perhaps a baked dessert. Set the oven heat control at a certain temperature and your oven stays at that heat—just right for cooking the foods properly. The oven never gets too hot, never cools off—the heat is maintained. We have many styles in Oven Heat Control Ranges at GAS RANGE HEADQUARTERS. Come in and See Them. For Easter breakfast—creamed eggs on HOT TOAST

Don't Lose Sight of the Food Value of Your Bakings. Plain flour has a large amount of food value but it must be combined with good baking powder in order to retain this value. Most self rising flours are not successful because they do not raise the bakings to the proper lightness. This means a certain loss of nutrition because they are heavy and hard to digest. Every time you eat food that does not properly digest you do not get the full nutritional value—you are over-taxing your stomach. Nourishing and perfect bakings are what good health demands. The one sure way is—use pure flour and good baking powder. If you want to find what thousands of housewives have learned—make some biscuits with self-rising flour—then make some with good plain flour and Calumet Baking Powder—notice the great difference. One trial will satisfy you. Your health demands that you make the experiment. Those who know—millions of housewives, domestic science teachers, big hotels, restaurants, bakeries and railroads will not use anything but Calumet, the Economy Baking Powder. Play safe—use Calumet and plain flour. It is the most economical and satisfactory, where light, wholesome and pure foods are desired. PACKED IN TIN —KEEPS STRENGTH IN
