

THE FIRST COST—

Of an inferior refrigerator is small, but how about the ice bills you will have to pay every summer. Buying a refrigerator is like buying an automobile. Not so much the original cost, but the upkeep, with an inferior refrigerator, poorly insulator and ill fitting doors, you will waste enough ice in one or two summers to pay for a good refrigerator.

This is refrigerator weather, and our stock of Baldwins and Automatics is going fast. See these refrigerators and ice boxes before you buy. Terms if you like.

Some relief from the heat wave of the latter part of last week came to Concord and Cabarrus county Saturday night. The cooler temperatures came after a heavy rain and wind storm which visited Charlotte and other cities in this section. Concord had no rain but the storm cooled things off, and the temperature Saturday night and Sunday was not very oppressive.

BODY OF WEALTHY PUBLISHER FOUND

Clarence D. Sheldon, of New York, Lost His Life While Wandering Around in Swamp.

Poughkeepsie, N. Y., June 22.—The body of Clarence D. Sheldon, 76, wealthy New York publisher, was found today in a swamp about five miles from his summer home at Verbank. Sheldon disappeared about 10 days ago. The condition of the body indicated that it had been in the swamp for several days.

The discovery of more than \$200 in cash, and a watch in Sheldon's coat and vest, which were found about 20 feet from the body, caused county officials to discard theories of foul play. Coroner John A. Card asserted tonight that death had been accidental and caused by exposure.

It is believed that Sheldon wandered into the marsh a week ago last Thursday, when he disappeared from his home at Verbank. The underbrush near where the body was found indicated he apparently had struggled to extricate himself from the swamp, but had become exhausted.

The first annual regatta of the New York Yacht Club took place on June 6, 1924.
