The graceful Queen Anne style is particularly appropriate for the Dining Room. This suite has the curved or cabriole leg. The sunken panels on the cabinet faces, and the neat moulding that panels the front of the china cabinet, add to the decorative value.

TOM SIMS SAYS

A philosopher is one who can be modern with a clear conscience.

There are many arguments in favor of matrimony, the best two being an old bachelor and an old maid.

Some men talk so much they are effeminate.

A sheik is a man whose coat lapels wear out first.

Two can either live on love or soak their old love letters in water and sell it for sirup.

It is better to have had a platonic friendship than never to have loved at all.

Once asbestos curtains were in case the theater caught fire, now in case the show is too hot.

There are still mice, but you see silk stockings without them now.

There are two sides to every question, both of which may be wrong.

A wise man never makes faces at red-headed girls or bites a mule on the ankle.

Sometimes it is best to be sure you are right and then stop.

TESTED UNDER TONS OF WATER

EVERY Clark Grave Vault before it leaves the factory withstands the severest possible tests. It is completely submerged in water—subjected to two and one-half tons pressure. It must be absolutely air-tight and not at any time permit water to leak through. (Stone, brick and concrete vaults let water in and hold it.) Its proved protection is made permanent through the use of heavy twelve gauge Keystone copper-bearing steel—the most perfect rust resisting steel made. All joints are doubly welded; are thicker and stronger than the plates themselves. We earnestly recommend this "quality" vault.
