I heard a story the other day, which may or may not be true, that may prove an eye-opener to some of those merchants who sell on the extertion plan. It was to the effect that a certain man of our neighboring city went out to see just how much he could purchase "with only a few dollars as first down payment. After contracting for \$10,000 worth of stuff he got tired and quit. The man's salary is only \$50 a week, and in one day's time he had bargained with various merchants for stuff he couldn't possibly have ever paid for if he paid cash for his groceries or paid his board bill.
