## Small Felt

The small felt hats which refuse to leave the fashion field are developing all sorts of whims. This one, from Roubaix, Paris, shows what happens when felt decides to drape itself, instead of conforming to the strictly tailored lines that it used to follow. It is of a curious shade known this season as phantom red.

## KANNAPOLIS WRESTLERS IN NEAR ACCIDENT

**Car Leaves Road Early Sunday Morning and Plunges in Ditch—No One Injured.**  
The Kannapolis wrestling team narrowly escaped meeting with a serious accident when the members were returning from Raleigh, where they had engaged in a meet Saturday night. It was about 4:30 o'clock in the morning, according to advices from the Towell Town, when their near accident occurred. The place was about six miles beyond Lexington.

Saturday afternoon they had frozen and had given the roads an icy covering which made it difficult to keep from sliding off. The party of seven were proceeding in careful manner when of a sudden there was a gliding motion and the car swerved toward a precipitous embankment. Bozo Bozeman, who was at the wheel, pulled the car around and kept it from diving down the embankment but ran directly across the road to a small ditch. The automobile jumped the ditch and dived into the other bank, partially overturning. All hands were at once put into action and in some manner the car was finally pushed back on the road and the journey once more resumed. No one was injured as a result of the accident.

The party reached home about 7 o'clock Sunday morning.

**TO SPEAK IN CITY ON SUBJECT OF NUTRITION**

**Miss Theresa Dandill, Nationally Known Authority and Author, to Visit in Concord.**

Miss Theresa Dandill, of the North Carolina Tuberculosis Association, was here Friday of last week in conference with local health officials in regard to the nutrition work which is being done in the city. As a result of her conferences it was decided that she should return to Concord on the 28th of this month to speak to the Parent-Teachers Association on the subject of nutrition. She will also remain in Concord for several days to begin this work in the public schools, assisting the county nursing staff in getting started. Nutrition classes will be organized.

Miss Dandill is very prominent in her work, being nationally known as an authority on nutrition and kindred subjects. She has written several books on this, one of the most important of which is "Teaching Health in Schools."

The local health department is pleased that Miss Dandill has been secured for work in Concord and is making plans to have as many people hear her as possible during her stay in the city.

**NEAR EAST RELIEF FAILS TO MAKE GOAL**  
Persons in charge of the drive were hopeful that the entire amount could be raised. It is thought that contributions subsequent to the drive may aid the county in raising its allotment.

**Much Tax Paid By Tar Heels.**  
Federal internal revenue collections in North Carolina during the six months ending December 31, increased in round numbers \$11,000,000 over collections during the corresponding period of 1924, figures reported from the office of the revenue collector Gilliam Grissom show.

When Mr. Grissom closed his office the collections for the six months, July to December 31, which represents the first half of the present fiscal year, were approximately \$92,000,000. Mr. Grissom said.

The fiscal year ending June 30, 1924, showed collections of \$108,062,875.15. If the same rate of increase is shown during the next six months it is kept up the collections for the present fiscal year will approximate \$100,000,000, Mr. Grissom pointed out.

State taxes collected through the State revenue department for the same period show nearly one and a half million dollars ahead of the corresponding period in 1924.

The exact figure for tax collections during the six months period ending December 31, is \$3,732,822.54. This is in comparison with \$1,896,064.82 for the corresponding period of 1924. To the latter figure, however, must be added \$400,464.22 insurance taxes collected that year by the insurance department. Insurance taxes are included this year in the figure given out by the revenue department collection in the hands of the revenue department by the last general assembly.

Willie—Then I don't see why I can't hire a little boy to take my bath.

"Well, my little man, what can I do for you?" asked the owner of a candy store.  
"Sir," came the answer, "I was comparing your candies with those of the man down the street, and I have been wondering if you wouldn't let me taste your candy, as it looks better; then I could say that it tastes better."

## TUBERCULOSIS CLINIC HELD AT HEALTH OFFICE

**Dr. S. E. Lee, of Sanatorium, is Giving the Examinations—Large Number of Appointments.**  
The tuberculosis clinic was begun this morning at the county health department under the direction of Dr. S. E. Lee, of the State Sanatorium, who is here to give a week's free examination of all suspected cases.

Prospects were very bright, according to officials at the health department, for a very successful clinic. Appointments had been made which practically filled Dr. Lee's time during the entire week.

In commenting on the clinic, Dr. Lee said that he hoped that the bad roads and the inclement weather would not keep people from attending. It costs money to conduct a clinic and the people should avail themselves of the opportunity. He also requested that the people who had appointments be prompt about attending, since to be late meant that valuable time would be lost.

A clinic conducted in the early fall resulted in the examination of 63 cases, 28 of which were found to have the disease. Seven were advised to have further examination. It is thought that the present clinic will have more examinations than the fall clinic.

Dr. Lee will leave Concord Saturday and will go to Kannapolis, where he will conduct a similar clinic there all during next week.

**TWO YEAR TREATMENT SHOWED NO IMPROVEMENT**

**Local Woman Then Began Using HERB JUICE—Says She Now Feels Better Than She Has For Years.**

Your HERB JUICE is the only medicine in the world that ever gave me any relief, and as I learned about it through the papers, I feel that I should give a statement which I hope will help someone else.

Such was part of the statement received by the HERB JUICE man a few days ago from Mrs. R. Y. Simpson, 37 Main St., Concord, who is well known here, having lived in Concord for the past 24 years. Mrs. Simpson said, "Before I used HERB JUICE I was sick all the time, seemed as though everything was wrong with me. I had terrible pains across my back and headaches that would make me sick all over; my nerves were also in bad shape, stomach out of order, and I felt miserable all the time. Could not rest or sleep at night, and was badly constipated. I think I took most everything for this trouble, but could find no relief. For two years, I took treatments at a hospital, and when they did not restore my health I was about ready to give up. In reading the paper one day I noticed an ad. about HERB JUICE, that just seemed to fit my case, so I began using it at once. Much to my surprise the first bottle helped—so I continued using it with the results that I feel better now in every way than I have for years. My stomach is in fine shape—never have any trouble from gas or pains after eating, and have been relieved of those all nervous headaches. I have a fine appetite, sleep and rest well at night and have gained nine pounds. HERB JUICE has also proved to be a wonderful regulator and fine for constipation. In short, HERB JUICE is the best medicine I have ever used and I gladly recommend it."
