

COUNTRY CORRESPONDENCE

leaps and bounds. Every year until now there are some wealthy people in Salisbury who have taken up the granite business because they found out that there was money to be made at the business. J. T. Wyatt bought eight acres of quarry land from John Forks for eight hundred dollars, only one hundred dollars per acre, and now it could not be had for \$40,000 per acre because it belongs now to a wealthy company which is getting out granite for monuments and vaults for the rich people all over the world. Pretty much like a peach blossom. The big granite cutting shed south of Salisbury is crowded Jan full of this beautiful granite where a large crowd of men find employment and it was all started up by J. T. Wyatt, of Faith. J. T. Wyatt has retired from the granite business but it is a great pleasure for him to look at the hundreds of people who are now making their living out of the industry he started up here 35 years ago. There are a great many quarries never reached yet that will be worked by the coming generations and they can say that this industry was started by a man named J. T. Wyatt, known in the newspaper world as Venus. Nearly all the granite is hauled now on motor trucks to the railroad and to nearby towns like Concord, China Grove, Salisbury, Spencer and other places because we have such good roads now. Geo. W. Watts, the millionaire at Durham, N. C., sent out experts all over the country to get samples of granite to select the best to build his mansion in Durham, and when they got to J. T. Wyatt's quarry they found out that it was the most beautiful granite in the world and it was selected by Mr. Watts for his mansion which stands today as a sample of the best granite in the United States. It doesn't change its color and will remain beautiful for all time to come. If you want to see what beautiful granite J. T. Wyatt has turned loose on caused to be put on the market of the world go and take a look at the G. W. Watts mansion in Durham, N. C., and you can see what beautiful granite we have here on the granite belt in Rowan county. J. T. Wyatt owns a quarry of white granite. He will furnish this granite just as it is in the quarry if the people will get it out and put up one building at Durham, N. C., and name it after J. T. Wyatt—call it Wyatt's Hall or Wyatt's Museum or something of that kind and let him have one room to live in when he is in Durham during his life time. He could put up his relics and make one of the finest museums in the country and could give it to the college. He will do so on certain conditions. J. T. Wyatt has discovered a remedy that cures eczema and is making his money now selling that instead of granite. Here is a beautiful card we received today: 720 Fern St. Palm Beach, Fla. Dear Venus: I will write you a few lines. This is an awful pretty country in winter. We are from Concord, N. C., and we sure enjoy reading your items in the Concord paper. You should be here to see these pretty women. Yours JACK CRESS. The card shows a large alligator slipping up on a little ducky who is lying down. VENUS.

VENUS. We have received a letter from G. J. Hudson, Albemarle, N. C., reading as follows: Referring to W. A. Peeler's penny dated 1815, here I come getting out with one I have dated 1798. Now who can beat? Those girls who are writing to us telling us they would be willing to marry a wealthy good natured farmer must send us their names and addresses. It's all confidential. VENUS.

HARRISBURG. Tuesday evening the young folks of this place gave a show to Mr. and Mrs. Theodore Taylor. The latter was formerly Miss Lily Barley. They received lots of nice things. Those present were: Misses Edythe Tarboe, Leslie Savage, Maggie Lou Taylor, Frances Sims, W. E. Harris, Jr., James Alexander, John McEachern, Harry Vester and Luther Taylor and Mr. and Mrs. T. W. Taylor. We sure are enjoying this pretty snow. The woods around here are a picture. Harrisburg Community Club held its monthly meeting Thursday night. A fine program was enjoyed by all, especially the numbers given by Mr. Nat White and his two quartettes. Rev. H. F. Turner, of Cleveland, N. C., is visiting his daughter, Mrs. J. B. Courley. The rural mail carriers seemed to have a hard time to get around today. Mrs. Edmund B. Clark and little son, Edmund, Jr., are visiting Mrs. Clark's mother, Mrs. J. W. Taylor. Mr. R. A. Harris and family have moved from their little home to Mr. Harris' grand-father's old home place. Mr. Harris has a position with the Ford plant. Mr. Frank Smith, of Charlotte, spent a few days at Harrisburg last week. We wonder who Tulip is. This is news from around the square. WE WANT TO HEAR FROM WINCOFF. THE KRAZY KID. FAITH. Friday morning when the people in Faith woke up they found a big snow on the ground and it is still snowing. All granite quarry work is stopped on account of the big snow. Everybody is prepared for this kind of weather and everybody is happy. The little baby looks out the window and sees the big snow for the first time of its life. The possum has a good warm bed in dry leaves. The hogs have a good warm bed of leaves. The cows and horses and chickens are all in a good dry place during this cold weather. If anyone goes rabbit hunting they must report to Venus. We want to see who gets the most rabbits in one day. There is a little sketch about the granite belt about 35 years ago. J. T. Wyatt the writer shipped off the first load of granite that ever left the Faith settlement. It was steeled curbing and was shipped to the City of Charlottesville, Va. A sample car load. It was so good and nice they sent an order right back to J. T. Wyatt, a great many carloads and the news began to spread all over the United States that the granite quarry near Salisbury of J. T. Wyatt was the finest granite they ever saw and we began to get orders from many other cities and we had nearly everybody working for us for several years. The boys, many of them learned to drill and work in the granite at J. T. Wyatt's quarry, and many of them are grown and married and have children married and grand children and the granite works continue to grow by

leaps and bounds. Every year until now there are some wealthy people in Salisbury who have taken up the granite business because they found out that there was money to be made at the business. J. T. Into the making of this one cigarette goes all of the ability of the world's largest organization of expert tobacco men. Nothing is too good for Camels. The choicest Turkish and domestic tobaccos. The most skilful blending. The most scientific package. No other cigarette made is like Camels. No finer cigarette can be made. Camels are the overwhelming choice of experienced smokers.

When you entertain at home—and the sumptuous feast has been greeted with royal praise by the laughing, pledging friends—have a Camel!

WHEN invited guests come in for dinner. And the festive board resounds with joyous words of friendship. When the primest feast ever served is finished—then, how welcome are those words of hospitality—"Have a Camel!" For no other cigarette was ever so fitly smoked and served to others as Camel. Camel goodness insures a fitting climax to every perfect spread, adds of its own fragrant welcome to every home's bright occasions. Camels are made of the choicest tobaccos grown in all the world. They never tire the taste, never leave a cigarette after-taste. Fragrance and mellowness have made Camel the greatest word in all the history of smoking. So this night, as you learn anew the joys of giving happiness to others. As after-dinner laughter rings out through all the house—know then the pleasures of smoking and serving the finest. You may be doubly sure that every good feature is rolled into Camels that anyone ever searched for in a cigarette. Have a Camel!

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price. R. J. Reynolds Tobacco Co.

PALE, NERVOUS

West Virginia Lady Says That She Was in a Serious Condition, But Is Stronger After Taking Cardui.

Huntington, W. Va.—"I was in a very weak and run-down condition—in fact, was in a serious condition," says Mrs. Fannie C. Bloss, of 1964 Madison Avenue, this city. "In my left side the pain was very severe. It would start in my back and sides. Part of the time I was in bed and when up I didn't feel like doing anything or going anywhere. "Life wasn't any pleasure. I was very pale, I was nervous and thin, and so tired all the time. "My druggist told me that Cardui was a good tonic for women and I bought a couple of bottles. I took two bottles, then I noticed an improvement. I kept on and found it was helping me. I have taken nine bottles. I'm stronger now than I have been in a long time. "Cardui is made from mild-acting medicinal herbs with a gentle, tonic-strengthening effect, upon certain female organs and upon the system in general. "Sold everywhere. NO. 469

CHILDREN

require foods rich in vitamins, the kind that abound in cod-liver oil to build up body and strength.

Scott's Emulsion assures growing children vitamin factors that they need but do not always get in ordinary food. Feed your child Scott's!

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up. Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, sniffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears. Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.
