Kiwanis International Has Remarkable Growth.

In speaking today of the local Kiwanis club's program for the observance of the 11th anniversary of Kiwanis International's founding, Clarence H. Barrier, president of the local club, told of the remarkable growth of the civic organization that now has more than 1450 clubs and over 95,000 members in the United States and Canada. The first Kiwanis meeting to be held was in Detroit, Michigan, on January 21, 1915, and that is why the local club together with all the others will observe Anniversary Week from January 17-25.

"The year following the beginning of what is now the largest service organization on the North American continent, thirty-five clubs were sponsored in the United States, and at the last International convention in St. Paul last June the report showed that Kiwanis had made a tremendous growth and was steadily growing," said Mr. Barrier.

"What this community is interested in mostly is what Kiwanis has accomplished here.

"Kiwanis is idealistic, but from its accomplishments during the past it is easily noticed that it is also very practical. It applies a civic and social service to every community that wants it. In truth the ideals of Kiwanis are practiced in an every day business like manner."

The Concord Club will hold its anniversary meeting on next Friday at the Y. M. C. A.

FALL SESSION OF CITY SCHOOL CLOSSES FRIDAY

Promotions Are Being Made From Grammar School to High School—Primary Students Enrolled.

The fall session of the city schools closes Friday, January 22nd, and the spring session begins Monday, January 25th.

The seventh grade at Central Grammar School will complete its grammar school work and will be promoted to the High School. This is the first class to graduate from grammar school at mid-term. There are about thirty in the class and the members will hold their graduating exercises in the High School auditorium, Friday evening, January 22nd, at 7:30. The addresses will be delivered by Rev. C. H. Trueblood. The music will be furnished by the High School orchestra. The public is cordially invited.

It has been my experience that children do much better in their school work not to enter school before they are seven years old and I find that most educators agree with me on this. Children who have become six since fall will be admitted at Central Primary and at Grammar School No. 2, on Monday January 25th. There will not be enough children to form a new class at Corbin Street at that time and children from that section will be cared for at Central Primary.

TRAFFIC SIGNALS WORK ON FASTER SCHEDULES

Speeded up by Officers in Effort to Keep Traffic Moving at Steady Gait.

Traffic signals in Concord are working faster now, police officers having cut down the time the signals stand without changing.

It was reported this morning that the signals at the square and at the intersection of Church and Depot streets are on a 20 second schedule, with the signals at the intersections of Corbin and Union and Grove and Spring streets on 18 second schedules. The speeding up of the signals means that the warning bell rings only 3 seconds now whereas in the past it rang 4 seconds.

All of the signals are operating again now, the one at Central School having started work again Monday after a rest of several weeks due to injuries. The signal was damaged when the leg of a table, being carried on a huge truck, struck one of the lights, crushing the glass and the light bulb.

Police officers have given the signals a faster schedule with the hope that traffic will move steadier and more rapidly. A careful study has been made and the officers are convinced that the faster schedule will work to a better advantage both for the traffic officers and for the motoring public.

MT. PLEASANT DETOUR FOUND ALL RIGHT

State Highway Will Not Make Use of Concord-Monroe Highway in Directing Traffic to Albemarle.

The detour between Mt. Pleasant and Millington, which was announced as having been closed yesterday on account of the recent snow and the rains, is again opened to public travel. After the rains of early Monday morning, the creeks in that vicinity rose to such a height that it was considered dangerous to travel the road and travel was directed by way of the Monroe-Concord highway to its intersection with the Albemarle-Charlotte highway.

However, there was a quick drop in the amount of water in the creeks and by 11 o'clock the road was able to be used with safety.

The public is asked by the highway officials here to take notice of the change to the original detour.
