LOCAL MENTION

According to a deed filed Tuesday B. W. Durham has sold to T. B. Black for \$1,500, several lots in Clinehart, a suburb of Kannapolis.

Ralph E. Cline, of Gaffney, S. C., arrived in Concord this morning to attend the funeral of his sister, Miss Constance Cline. Mr. Cline came to Concord from Florida, where he has been spending several weeks.

New and corrected "Go to Church" signs are being prepared now under the direction of a committee appointed by the ministerial association of the city. The signs are to be placed conspicuously in many public places in the city.

Police officers this morning reported that several cases are on docket for trial in recorder's court this afternoon. Two of the defendants are charged with operating cars while intoxicated and another is charged with being intoxicated.

Mrs. J. C. Rowan returned to her home here today from a Charlotte hospital, where she recently underwent an operation. Her friends will be interested to know that her condition has shown daily improvement following the operation.

One of the largest crowds in recent months gathered at the Y Tuesday night. Some went to see the volleyball game, others were present for Hi-Y club meetings and still others were present for gym classes and other games offered by the association.

Local merchants reported unusually good business Saturday, with an improvement almost daily now. One store manager stated that his place of business was packed with shoppers Saturday and that business was better that day than it has been since Christmas.

Dr. Charles P. McLaughlin, of Atlanta, arrived in Concord this morning to attend the funeral of Miss Constance Cline. Dr. McLaughlin assisted Rev. L. A. Thomas, pastor of St. James Church, with the funeral services, he having been pastor of St. James Church several years ago.

Schools of the city were closed this afternoon as a tribute to Miss Constance Cline, whose funeral was held at St. James Lutheran Church at 2 o'clock. Miss Cline was a teacher in the public schools of the city for about twenty years and work in the schools was halted out of respect to her memory.

The basketball court at the Y. M. C. A. was used for practice Tuesday by teams representing Company E, Concord military unit, and the Wine-coff high school. During the afternoon fifty members of the junior girls' gym class used the gymnasium, the attendance for the day being unusually good.

The Sun's rays made further inroads on the snow Tuesday. In practically all places now the snow has disappeared, the only remains of the precipitation being in isolated spots where the sun cannot send its rays in full force. Higher temperatures during the night prevented the snow from freezing again.

The new mid-year promotion system in the public schools is in operation now and is proving successful, it is reported. While the system was used in the lower grades before it was used for the first time in the High School, several students going to the High School from the grammar schools at the end of the Fall term.

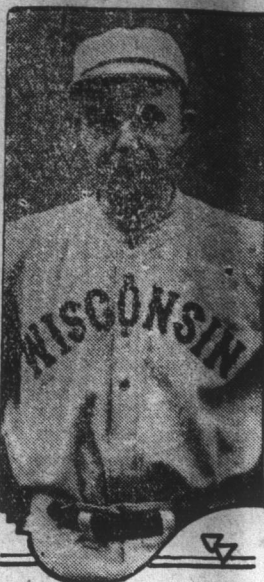

Referring to the accident which caused the death of an infant in Monroe Saturday evening, the Monroe Journal, in reporting the sad occurrence says: "Dr. Houston went to the city hall and requested an investigation. Judge Lemmond was called up and heard a statement of the case and Dr. Houston gave a bond of \$5,000 for appearance next Monday before the Recorder. Tuesday morning the Solicitor sent an indictment against Dr. Houston to the grand jury which returned not a true bill, which ended the matter."

Clubbed

Miss Dorothy Borton, 20, is the latest to be attacked by the mysterious "clubber" who has terrorized Toledo, killing three women and injuring many others. He struck her near her home and ran. She is recovering.

Badger Tutor

Presenting the famous Ray Schaak, White Sox catcher, in a new role—that of baseball coach at the University of Wisconsin. Schaak will tutor the Badger candidates for the 1926 campaign. He comes with an enviable record and should bring out the best there is in the college diamond tusslers.

Post and Flagg's Cotton Letter.

New York, Jan. 26.—The market drags its slow length along, presenting at times, such as today, a somewhat tired appearance, though apparently possessing good ability to absorb offerings on a scale down. Local sentiment in trading circles remains against the market, and while advances as to the feeling in dry goods quarters are somewhat conflicting, there appears to be a fairly large element of bearishness there as well, based on reports of diminishing margin of profit to spinners and the smaller size of orders received, together with the feeling so long in evidence that a crop so large must eventually weigh heavily on prices.

If orders, however, are smaller, it is quite possible that they are more frequent and that the sum total is rather respectable, as the larger distributors of goods continue to report a satisfactory volume of business. Some in a position to have the most reliable information as to the state of trade regard the present lull in activity, if there actually is such a lull, as merely temporary, and the precursor of a much increased activity in the near future. Consumption for January promise to be on a large scale and not to accumulate stocks of goods, but for the most part to fill orders. Any easing in the basis for white cotton has been moderate, while the lower grades are bringing better prices than before. Manchester advices suggest that Lancashire has turned the corner and that Liverpool

HAVE YOU STOMACK TROUBLE?—THEN READ THE FOLLOWING

Chess Montgomery is Glad to Tell of His Experience With HERB JUICE.—Says It's Best Medicine He Ever Used.

"In order to enable my friends and everyone to know that there is one medicine they can take with the utmost confidence, I want to give this public statement and tell you how your HERB JUICE has restored my health and strength after other medicines failed," said Mr. Chess Montgomery, well known Gastonia Man, in a recent interview with the HERB JUICE representative.

"My trouble started with constipation," remarked Mr. Montgomery, "and I think I was in about as bad condition as anyone could be, without just being down and out, and I assure you I was not far from that. The constipation soon became chronic, and the result was that in a very short time my whole system was out of order and seemed full of poison. Stomach was all upset, gas would form after eating from which I would suffer for hours after eating, with gas pains and bloating. My kidneys and liver were not functioning as they should and this caused me to have bilious attacks and dizzy spells. It is quite natural that when a person's system is in this condition that they should be able to detect even the smell of food; such was my fate on account of constipation and indigestion. It seemed that everybody were talking about HERB JUICE and what it was doing for people in Charlotte and surrounding country, so I decided to try it myself. The first bottle did not do much, but after taking it for several weeks I have been entirely relieved of the gas pains and bloating after eating, and through its natural action on the bowels I have also been relieved of the constipation. My liver and kidneys are in much better shape and it gives me great pleasure to add my name to your large list of endorsers of this wonderful medicine. In my opinion, it is the best remedy on the market for constipation and indigestion, as I have proved so in my case. I know it is the best medicine that I have ever used."

For sale by Gilman Drug Store, in Concord, also by F. L. Smith Drug Co., Kannapolis.

will presently need to replace some of the cotton sold to the continent.

Near months remain relatively firm and show no symptom of cotton pressing for sale. The fly in the ointment is the number of bales in the crop. Meanwhile the market is practically stationary and gives no sign of any major movement in either direction, but with the bulk of the selling of speculative account.

POST AND FLAGG.

Joy Ride of Another Kind. George Boyce, of Chicago, before his marriage could not get along without his sweetheart, Naomi Clifton, and after he had been married to the young lady a few years he found that he could not get along with her. So it was decided that George would take the two boys and Naomi the little girl and live in opposite sections of the city.

The plan worked for a few days. Then one afternoon when George went to school to bring his two boys home, whom did he find in the school yard talking to the kids but Naomi, his wife. George called a policeman and when the patrol wagon came the husband, wife, two boys and girl were bundled in and carried to the police station.

When the whole thing was explained to the station captain Naomi broke down and cried all over her husband's new coat, but he didn't seem to mind. The couple said they found they could not live without each other and the three kids all in a bunch, so they went home to live happily ever after.

A Faithful Marble.

Many a youngster has lost his favorite marble and not been able to find it to his dying day. Marbles, like many other things, sometimes seem to have "legs" on them for they simply "walk" away from us, never to return. One case was that of a Higbee, Mo., boy 50 years ago. While shooting at tree trunks in the woods with his best "ally" he lost it and a search for hours failed to recover it.

Recently this same boy, whom Father Time has changed into an old man, was chopping down a tree in the woods when his ax struck a hard substance. On investigation it was found that the object was the missing marble. It had not "walked" away as others might have done but had faithfully "stood by" for half a century waiting for its owner to claim it.

The difference in elevation between the deepest known spot in the ocean and the summit of the highest mountain is 11.7 miles.

Miller's Antiseptic Oil, Known as Snake Oil

STOPS PAIN From coast to coast men and women are singing the praise of "Snake Oil," a most powerful, penetrating pain relieving liniment. It will penetrate thickest sole leather in 3 minutes. Mrs. B. Werner, New Orleans, La., writes: "Thanks to your wonderful penetrating oil, it relieved me of Rheumatism and deep seated chest cold after other remedies failed." "I had rheumatism so bad I had to walk on crutches for nine years," says H. C. Hendrix, old soldier of Minneapolis, Minn. "After three months treatment with 'Snake Oil' laid off my crutches and now can walk like a boy."

J. B. Moore, Pittsburgh Pa., railroad man, says: "'Snake Oil' is the only liniment that ever gave me relief from rheumatism. I use it regularly after being exposed to bad weather." For rheumatism, neuralgia, lumbago, stiff joints, pain in back and limbs, corns, bunions, chest colds, sore throat, "Snake Oil" is said to be without an equal. Refuse imitations. This great oil a golden red color. Mfg. only by Herb Juice Medicine Co., U. S. A. Get it, your druggist's.—(Adv.)

TOM SIMS SAYS

Every time we throw a little coal on the fire we wonder what they are doing about the annual miners' strike. Life's funny. By the time you get today's problems all figured out it is tomorrow.

It's funny. In New York, you can't walk for the autos. Yet the mayor of the city is named Walker. The weather man could vacate now and leave a few weeks supply of colder predictions.

Everything's so funny. When a man goes aboard ship now he isn't on the water wagon.

What is so rare as a ton in January?

The only branch of the air service that hasn't had any serious accidents lately is Congress.

One is born every minute. That's why some of the towns larger than this are larger than this.

When one says she suffers in silence she may mean that when she is in silence she suffers.

No-Place Like Jail For Him. Last spring a man living on a little island farm in the Arkansas River got six months' in jail for violating the prohibition law. Later when he was offered his release on parole the man who had already lived through 52 hot summers replied that he'd rather do his time and be a free agent when he got out. "Besides," he added, "weather is pretty hot and I'd rather remain here." And remain he has.

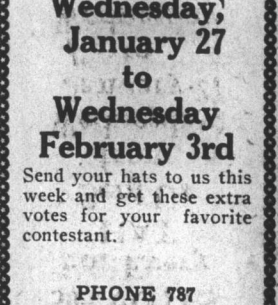

Now that the man's time is up authorities of Wichita, Kans., face the problem of getting him to leave the jail. The prisoner is growing more contented with his new "home" as the weeks go by. Recently during a snowstorm, the voluntary prisoner remarked: "It's warmer in here than it is out there in my shack on the river. I guess I'll stay here all winter. Many people are complaining that crime is encouraged by making the life of prisoners so pleasant."

The best sympathy

IT is only human for a funeral director to feel sympathetic in the presence of bereaved patrons. But it is real sympathy when he recognizes an obligation to see to it that the highest character of burial equipment is furnished at honest prices. Such a policy has been responsible for the success of this concern.

Typical of the burial equipment furnished by us is the Clark Grave Vault, recognized as a leader in the vault industry, because it gives positive and permanent protection.
