 Train No. 37 will stop here to discharge passengers coming from beyond Washington.  
 All trains stop in Concord except No. 38 northbound.

for months and finally years. Fear of having his home stripped of household furniture and his family being compelled to sleep on the floors, prompts the victim to continue paying the interest. His plight is a distressing one and not only is he hounded and threatened but he becomes desperate and sometimes has to violate the law in securing the necessary money to give the loan shark."

**"THE OLD BOY" IS RIGHT.**

Holmes Morris, the Monroe young man who faked the glamorous murder of himself one night not long ago in order to run off to a distant State with another woman, leaving his own wife and little children at home, has recently been visited by his father, who went away out to Kansas City, Mo., to see him.

Of course, the son told his father that he was mentally unbalanced when he went through his strange and iniquitous contortions, that financial reverses had twisted his reason out of clutch, that he was ashamed of himself, but that he "was not conscious of what he was doing at the time."

The scientists, of course, have a name for that sort of a condition. It is called amnesia, we believe, but as a matter of fact, as everybody knows, it is chiefly the Old Boy—Charlotte News.

The News is right. It's the Old Boy that causes so many crimes. We can give all sorts of names and describe all sorts of conditions and pertaining to crime, but it's the devil in the law violators that causes their actions.

**JOSEPH LEITER FACES SERIOUS CHARGES**

Charged With Mismanagement of the Large Leiter Estate.  
 Chicago, Ill., March 16.—In the superior court in this city the curtain will be rung up today on what promises to be a long and bitter legal battle for control of the millions left by the late Levi Z. Leiter, the famed Chicago merchant who spent the latter years of his life in Washington and whose daughters married into the highest families of the English nobility. The case promises to rival the battle over the Gould estate which recently concluded in New York. As in the Gould case, the warfare of the Leiters is a family affair.

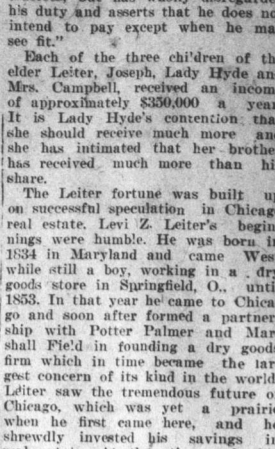

Joseph Leiter sportsman, financier, who, in 1897, when he was only twenty-nine years old, tried to corner the wheat in the United States, is the storm center in the pending legal engagement. Charges of malfeasance and mismanagement of the control of the \$100,000,000 estate left by his father, Levi Z. Leiter, have been brought against him by his sister, Lady Marguerite Hyde, widow of the Earl of Suffolk and Berks, and herself one of the trustees of the estate. She was Daisy Leiter, a Washington belle of the nineties. Others who come into the litigation are Lady Cynthia Mosley, daughter of Mary Leiter and the late Marquis of Curzon, Lady Cynthia is a prominent Socialist in England and is now in this city for the trial. There are still others, Lady Mary Irene and Lady Alexandra Naldera, also daughters of the late Marquis of Curzon.

However, Joseph Leiter's second sister, Mrs. Nancy Carver Campbell, wife of Captain Colin Campbell, an officer in the British army, is co-defendant with him. She is also a trustee of the Leiter property. In all there are nearly a score of litigants in the case. Lord Curzon was one of those who most bitterly attacked Joseph Leiter for his alleged mismanagement and had made preparations to come to this country to testify against him when fatal illness overcame him.

Today, when the case is called in court, Joseph Leiter will have to face his warring relatives who are seeking to have him removed as trustee and executor of the estate. It is hinted that some sensational developments are likely to be brought forth before the hearing is concluded.

In the bill brought in the case it

**Gets Trial**

This is Herb McQuaid, right-handed pitcher, who will be given a trial by the New York Yankees this season.

Lawrence, Kan., March 16.—(AP)—A new social classification, based not upon blue ancestral blood but upon the red blood of the living, is a possibility of not remote future.

That was the thought in the mind of Dr. Florence Sherbon, of the University of Kansas faculty, when she launched a new venture six years ago at the Kansas Free Fair at Topeka—a "Fitter Families" contest.

"The time may come," Doctor Sherbon said, "when the family not possessing a eugenic certificate will be looked upon askance by the 'certified' family."

This was born an idea that has since been adopted by six other states and by the National Eugenic Society. In the last six years 623 persons, comprising 126 families, have been examined as participants in the "Fitter Families Contest" in the Kansas Free Fair.

The purpose of the eugenic contests, Doctor Sherbon pointed out, is first to arouse family pride in being well-born and to spread information concerning heredity and conduct.

Georgia Women May Testify in Court Against Husbands.  
 Atlanta, Ga., March 16.—(AP)—Women of Georgia may go into court and give testimony against their husbands, although the latter have not the same right with regard to their wives.

This situation came about through hurried legislation to meet new conditions created by the Nineteenth Amendment and has not been corrected.

Another state law exists which sets it a bit apart from other states. In charging a jury in a criminal trial, the presiding judge is required to inform the jury that it may elect to believe the unsupported testimony of the defendant in preference to any and all other evidence given at the trial.

Atlanta recently created a diver-

This is John S. Thompson, of the United States army, who was hanged early today for the murder of Miss Audrey Burleigh at Manila, April 5, 1925.

The execution occurred in a warehouse at Fort McKinley, only an officer and eight enlisted men being present.

Thompson spent yesterday with his spiritual adviser and his attorney in preparation for death. He was the first American officer to be executed in peace time.

 Manila, March 17.—Second Lieut.

Don't Want Brookhart.  
 News and Observer.  
 Brookhart had ten times more claim to a seat in the Senate than Newberry. No money was spent by him to carry the election. He had the certificate from the State Board and a prima facie case. However, Stock had a majority of the votes, and, of course, deserves the seat.

But who supposes that those standard Senators who voted to seat Newberry would vote to unseat Brookhart if the Iowa man was as "regular" as the Michigan man?

The truth is Brookhart is a thorn in the side of Coolidge and the Standpatters. He will not stand hitched. They prefer a Democrat from whom nothing can be expected.

**SONS OF MINISTERS NOT ALL FAILURES.**

Roger Babson, Julian Miller and others, sons of preachers for the most part, have been waging a determined, and we hope successful, fight against the practice of accusing the sons of preachers of being worthless.

Only a day or so ago we heard a Concord man say, "Oh, he's a typical minister's son; anything but a minister himself."

The Salisbury Post thinks maybe the idea originated when "some bad fellow came out of the parsonage" and "the slander has been going ever since." The Post adds truthfully that "the world would be in a bad fix if it were to be proven a truth that the fine Christian training given a boy by a minister, his father, and an equally good mother, went only to produce an outstanding failure."

The other day Mr. Babson, statistician extraordinary, and a son of a minister, came out with the statement that 67 per cent. of the outstanding successful business men in the United States are sons of ministers.

Some people are always looking for some opening to attack the Church or rather Christianity and they gloat when the son of a minister makes a mistake or makes a failure of some undertaking. They would have the world believe that such a mistake or such an error is due to Christianity. These people who would undermine the Church want the public to think that because the son of a minister is not perfect the teachings of the minister are both.

We can name scores of sons of ministers right here in this section of the State who have been particularly successful. They have lived clean, profitable lives and at the same time have added something to the life of their community.

**HAVE WE LOAN SHARKS HERE?**

Loan sharks have been uncovered in Winston-Salem, and a determined effort is being made to rid the city of them.

These people are a menace to any community, particularly so because they live off of people who are ignorant and who have none too many of the world's goods.

As the Twin-City Sentinel remarks, the victims are usually "people who become involved financially and need money for an emergency. These sharks, it is alleged, hear of these circumstances and offer to loan the victim a sum of money, at the same time placing the rate of interest large enough to get the victim's money every month or week. A mortgage is taken on the furniture and the deal is closed. Then the loan sharks sit back and fatten on the results of threats to take back whatever has been mortgaged. The borrower barely gets enough ahead to pay the interest in some cases. Sometimes this goes on

**How to Stop That Weakening Cough**

Why let a heavy, stubborn cough wear you down when you can get speedy relief and often break it up completely in 24 hours through a remarkable new method based on the famous Dr. King's New Discovery for Coughs?

Here is the method: You simply take one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing it. It has a double action. It not only soothes and heals irritation, but also removes the phlegm and congestion which are the real cause of the coughing. So with the cause removed the worst cough soon disappears.

Dr. King's New Discovery is for coughs, chest colds, bronchitis, spasmodic croup, etc. Fine for children, too—no harmful drugs. Very economical, as the dose is only one teaspoonful. At all good druggists. Ask for

**Five-Fold Cure for Grippy Colds**

New Treatment for Deep, Grippy Colds Being Introduced by Local Druggist, With Special Offer.

After thousands of laboratory tests modern science has at last combined into one remedy, called RUSSELL'S RB-31, the ingredients needed to relieve the distressing symptoms of deep, grippy colds.

**Aids Nature**  
 Most remedies have disappointed you in the past because they have failed to reach the five symptoms, which follow swiftly in the track of the first sneeze. Now when you feel one of these feverish, grippy colds coming on you can take RUSSELL'S RB-31 and get relief quickly through its remarkable power in aiding nature to act with full force in curing the cold.

1. It reduces the fever.
2. It relieves the pain.
3. It cleans the body of impurities.
4. It liquefies the sticky mucus and promotes its ejection from the throat, bronchial tubes and lungs.
5. It allays the harassing cough which so often comes with a cold.

**Adults Only.**  
 Prepared especially for adults RUSSELL'S RB-31 brings more complete relief to men and women than those remedies which must be kept mild because they are also used for the treatment of children.

**Money Back.**  
 So strong are the local druggists backing this remedy that they offer it to the families of this city with a guarantee to refund money if RUSSELL'S RB-31 fails to give desired relief.

**THE OUTSTANDING DEVELOPMENT IN THE LAND OF THE SKY**

Only those living within this boundary will have free enjoyment of LAKE LURE.

**Settle on LAKE LURE**

Where You May Have Free Access to the Water

THE fast-approaching completion of Lake Lure has caused a small "boom" in farm lands lying outside the 8,500-acre boundary of the Lake Lure-Chimney Rock estates—trading in options and sales of acreage. There must be no misunderstanding, however, as to the free use of Lake Lure. It has required upwards of \$2,500,000 to create this lake, and a million more to develop the 1,000 acres of the Luremont residence section soon to be offered to home-builder. Access to the shore line may be gained only over the company's properties, and can not be allowed free of charge except to owners of Lake Lure homesites, and guests. If undeveloped lands away from and out of sight of Lake Lure are good "buys," plots in developed sections of Lake Lure will be a better "buy." Follow the news of Lake Lure—Luremont section is being rapidly made ready for an opening sale at low figures—the date will be published soon.

**Announcing Lake Lure Business Center**

It was not intended to announce Lake Lure Business Center until next month. But—ground has been broken. The colorful architecture of the Northern Italian lake region has been chosen. The town faces a glorious picture. Towering cliffs form a scenic background—an open bay is in the foreground. Bathing beaches of natural sand, piers, band stand, boat landings, dancing pavilion, cafes and hotel form a horse-shoe of diversion along a broad board-walk. Here will be the life. Luremont Section adjoins.
