THEY'LL DISHRAG YOU EVERY TIME

Try to buy a tire for less than it's worth is just one example of the triumph of hope over experience.

Sure, some tire dealers will dicker with you—give you all sorts of trick discounts and long trades. Why not? It's a cinch to pad up the old price list to allow just such deals. But don't forget you're playing the other fellow's game and the odds are nine to one that he'll dishrag you every time.

My customers buy Goodyear Tires because they have learned that Goodyears give them the least trouble and the lowest cost per mile. These—after all is said and done—are the things to look for in any tire.

Let me show you a Goodyear next time.

NO. 10 TOWNSHIP.

After two weeks of the coldest March weather we ever experienced the mercury began to climb and today (Wednesday the 24th) there are many evidences that spring has arrived. The earth is covered with a carpet of green, peach, pear and plum trees are unfolding their bloom in the light of man, which indicates a bountiful fruit crop. We don't know whether there be absolute truth in all moon signs or not, but we are always more hopeful of luscious fruit when the blossoms appear in the light of the moon.

Messrs. W. B. Black and Rob Garmon, aged men, of Cabarrus, are seriously ill.

The infant of Mr. and Mrs. Grady Black was buried last Tuesday. Most of the people here have had or have the grip.

School boys and girls are talking commencement day. From reports coming from the various schools of the township we believe No. Ten's schools will make a creditable report on that day.

We are glad to see such a widespread interest shown in the spelling contests which are now on. There should be many high school students of Cabarrus county enter the Charlotte Observer's contest. We have as good spellers in Cabarrus county as there are in any county of the state. If not, why not? Teachers bring the boys and girls to the front. They may be winners. As is the custom of correspondents when giving their endorsement to these contests to submit a list of hard words we shall break that custom by submitting one only. It is not given as an entry word but as a meaningless tongue twister. When pronounced correctly it is high sounding and makes the pronouncee feel like he has said a mouthful. Here it is, try it: Honorificabilitudinitatibus-queanarian.

Recent terraced demonstrations given by R. D. Goodman, farm agent, on the farms of W. M. Gourley, W. E. White and Sam Black, were witnessed by a large number of farmers at each demonstration, which indicates an interest on the part of the farmers in the tireless efforts of the agent to help them improve their farms. Another good sign that the farmers are aroused to the need of better farming is the fact that most of the cotton seed that will be planted here this year have been graded. Thanks to Mr. Goodman for his talks to farmers on the subject of the care of the soil, soil preparation and good seed, and many other farm problems.

Venus, we are of the opinion that the correspondents of The Times and Tribune should meet in picnic fashion this year at such time and place as you may designate. Whoop it up. We are with you. H.

Counties in Texas.

What state in the United States has the greatest number of counties, and which one has the smallest number? Some time ago we answered this question by saying, Texas leads all the states in the number of counties—245. Delaware, with only three counties, has the smallest number. The statement was correct except in respect to the number of counties in Texas. Enama Grigsby Meharg, secretary of state for Texas, informs us that Texas has 252 counties, two of which are unorganized. The unorganized counties are Ector and Loving. Ector being attached to Crain county and Loving to Reeves county for purposes of administration.

"I understand Crimon Guleh is enjoying a real estate boom."

"Yep," answered Cactus Joe. "We've got the old place mapped out for miles around."

"Disposing of much?"

"Not to outsiders yet. But I won two corner lots and the site for a department store in a poker game last night."

Two of the best players in the American Basketball League are Nat Hickey and "Honey" Russell of the Cleveland Rosenblums. Hickey is a forward while Russell plays guard. Their efforts have played no small part in putting the Cleveland club at the top of the heap in the second half of the season. Hickey is the one on the left in the accompanying photo.

Simple, Dependable Lubrication—

The Ford lubrication system is the simplest used on any automobile. The oil in the flywheel chamber is splashed over the clutch and all transmission gears by the movement of the flywheel. Some of this oil finds its way through a tube to the timing gears at the front of the motor and thoroughly lubricates them. Returning along the base of the motor to the flywheel chamber, it is picked up by the connecting rods which turn this oil into a spray that lubricates the camshaft, pistons and all other moving parts.
