STREETS HERE CROWDED WITH SHOPPERS SATURDAY

Fair, Warm Weather Resulted in Good Business for Concord Mer-chants.

chants.

Saturday was a profitable day for Concord merchants. Fair, warm weather resulted in much business, the streets being erowded during the day with package-carrying shoppers.

The manager of the dress goods-department of one store stated that business with his department Saturday was better than any other day since the war. Visitors to the store were buying heavily, he said, and they were buying good stuff.

Heads of various business concerns were questioned Monday afternoon about Saturday's business and without exception they reported good business. Some were more enthusiastic than others, to be sure, but apparently the shoppers averlosked no one in their determination to get seasomable goods.

Traffic ou the streets here Saturday created quite a problem. Traffic officers were kept on the move in an affort to prevent double parking which interfered with moving vefficles. From Grove street to the post office the streets were lined with case, while hundreds of other motorists parked on other streets and vacant lots in the business district. Saturday was a profitable day for

Harold Lloyd—he of the appealing smile, modest manner and horn-rimmed glasses—arrived in town yesterday in his lastes comedy opus, "For Heaven's Sake!" The steady and continuous roar of laughter that greeted the initial unfolding of this him at the Star Theatre last night was an eloquent and well-deserved tribute to the most hilarious and fruitful entertainment the current of the start of the

entire production. It bubbles pep and action; It generates thrills and throbs, and it gushes grins and gags in an unceasing stream. In short, "For Heaven's Sake!" is good, soid, substantial fun, served up hot from the Lloydian griddle.

The plot of the picture has to do with Harold's metamorphosis from a care-free and indolent millionaire clubman, bored with his life of idle ease and luxury, to a he man salvationist, a fighting crusader, who becomes the guiding spirit in a slums mission.

AUTO TAXES MAY BE A LITTLE SHY

Raleigh News and Observer.

Taxes for the highway fund collected through the automobile section prior to May 1st amounted to \$11.

653,193.91, it was announced yesterday. This figure indicates that collections for the fiscal year ending June 30th will drop slightly short of estimates which have been ranging from \$12,500,000 to \$13,000,000.

Gasoline taxes for the first ten months of the fiscal year have ayer aged \$535,000 a month. This average is expected to be exceeded during May and June due to increased

aged \$565,000 a month. This average is expected to be exceeded during May and June due to increased use of automobiles, but they will have tobe a very substantial increase if the average for these two months comes up to \$750,000 a month, which will bring the figure up to the minimum estimate of \$12,500,000.

Collections from automobile it censes and title registration will be practically nil during the next two months as all advance collections on the new licenses which go into effect July 1st will be counted on the receipts for next year.

Receipts for April amounted to \$614,782.32, of which \$563,460.18 was from gasoline taxes, \$9,503 from titles and \$42,219,14 from licenses. For the ten months to date \$5,272,401.31 has been collected from licenses, \$5,650,163.10 from gasoline and \$131,429.50 from titles, a total of \$11,053,333.91.

For the whole of the fiscal year

For the whole of the fiscal year ending June 30, 1925, total collections were only \$10,130,486.83 but the yasoline tax for eight months of that year was only three cents a gallon instead of the four-cent rate which has prevailed since March 6,

Estimating the added cost for the strat year of a uniform eight months school term at \$4.000.000, A. T. Allen, State Superintendent of Public Instruction, yesterday declared that an increase oftwo months in the minimum school term will be impossible unless the State itself assumes a large part of the added cost.

Mr. Allen thinks, however, that a portion of the added cost can justly be done by some districts in the State that have no special tax for schools.

As it is now, the State is spotted with special tax districts, with adwing the special tax districts, with adwing the special tax districts, with which has prevailed since March 6, 1925.
Last year's collections were divided as follows: licenses, \$4,713.780; gasoline, \$5,272,093 52; titles, \$144,613.23.

As to the ways and means of raising the necessary funds to increase the equalizing fund in the event of the adoption of the proposed constitutional amendment, Mr. Allen has maintained and expects to continue to maintain the position that is a matter for the Legislature. He proposes to furnish that body with all the information at his command and to step right there.
